Subject: Public Comment Item 25, 9/20/2022

To City Council,

Please attach this email to Item 25. Year 2020 edited to 2022.

I'm in support of Item 25 consider Fiscal Year 2021-2022. I think the city budget is back on the railroad track but I think the majority of the 2022 city council candidates are not good for the city's success and will bring gangs into the city. I think residents should not be afraid to request reducing the number of city council members for the future.

I'm being honest to help the city, I prefer a community farm at the Mcfadden & Gothard lots or near Bella Terra and I think these lots are unsightly for the healthiness of the area. I think it's also long-time for a community farm near Huntington Central Park, downtown and Huntington Harbor.

I think the city council is not providing enough incentive for any residents to live here for more than 1 year. I think there's too much unnecessary extremism and disrespect for what residents are expecting to be built and stay successful.

Sincerely, Ben Pickens, HB resident
