*From the Office of the Mayor Katrina Foley*

February 3, 2019

Huntington Beach City Council  
2000 Main Street  
Huntington Beach, CA 92648

Dear Mayor Semeta and Members of the City Council,

This evening, February 3, I understand that you will be reviewing options to conduct a Community Choice Energy (CCE) Feasibility Study. As you may know, the Costa Mesa City Council will begin discussing Community Choice Energy at our meeting tomorrow evening, February 4. I support your staff recommended actions A and C, that you move forward with your feasibility study and whether or not you assess the feasibility of joining the City of Irvine's CCE program. The City of Costa Mesa will soon be considering several options as well.

Changing the way in which the city, residents, and businesses of any city procure energy is a significant step and one that requires careful deliberation. Considering that there are now 19 active Community Choice programs in California, Huntington Beach has the opportunity to join a growing number of cities that are reducing energy costs and carbon emissions using CCE.

The City of Costa Mesa is embarking on the very early stages of studying whether CCE is right for our City. I am eager to keep an open and active dialogue with the City of Huntington Beach as you move forward in this process.

Sincerely,

  
Katrina Foley  
Mayor  
City of Costa Mesa
