Subject: : All Businesses/Churches are Essential

To HB City Council:

First off no state or county health agency mandated the state to be shutdown.

In April OC. BOS sent out guidelines for businesses to follow if they choose. (Constitutional rights for business owners). Government should not overreach into the private sector.

Simply put we dont shut down economy for every illness that may come through.

Every business,schools and churches are essential fundamentally under Constitution.

We must open ALL businesses immediately and provide them with federal safety guidelines to implement if they so choose.

If people don't feel comfortable going out to these businesses,schools and churches they do not have to that is their choice.

Huntington Beach should look at the state of Florida for guidance. They were the last state to close and one of the first to reopen all business successfully lowering Covid-19 cases since reopening!! The state isolated the elderly and susceptible people and it has worked.

We should follow the cities that have reopened as all businesses like Irvine and Newport Beach. These cities are proving that life MUST go on or we will have nothing to ho back to.

Mental health issues have sky rocketed,

prisoners released from jails,homeless on streets,churches closed economy may never recover all for 3,271 deaths in all of California.

I ask you does this make sense?

All businesses,schools and churches must open now w/out threats or fines. We can and must exist with COVID-19 the people listened, flattened the curve back in April and now it's time open up. These guidelines were put into place to be implemented we must open up now!

Thank You
Jeanine Davis
