Summary: Current law defines a "hate crime" as a criminal act committed, in whole or in part, because of actual or perceived characteristics of the victim, including, among other things, race, religion, disability, and sexual orientation. Current law requires the Attorney General to direct local law enforcement agencies to report information relating to hate crimes to the Department of Justice, as specified, and requires the department to post that information on a specified internet website on or before July 1 of each year. This bill would additionally require local law enforcement agencies to post the information sent to the department on their internet website on a monthly basis.

Summary: The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city, and specified land outside its boundaries, that includes, among other mandatory elements, a housing element. For the 4th and subsequent revisions of the housing element, existing law requires the Department of Housing and Community Development to determine the existing and projected need for housing for each region. Current law requires the appropriate council of governments, or the department for cities and counties without a council of governments, to adopt a final regional housing need plan that allocates a share of the regional housing need to each city, county, or city and county, as provided. Current law requires that the final regional housing plan adopted by a council of governments, or a delegate subregion, as applicable, be based on a methodology that includes specified factors, and similarly requires that the department take into consideration specified factors in distributing regional housing need, as provided. Commencing January 1, 2025, this bill would instead require a council of governments or a delegate subregion to consider including specified factors in developing the above-mentioned methodology.

Summary: Current law, commonly referred to as the Density Bonus Law, requires a city or county to provide a developer that proposes a housing development within the city or county with a density bonus and other incentives or concessions, as specified, if the developer agrees to construct specified percentages of units for lower income, very low income, or senior citizen housing, among other things, and meets other requirements. Previously existing law, until January 1, 2022, required a city, county, or city and county to grant a commercial developer a development bonus, as specified, when an applicant for approval of a commercial development had entered into an agreement for partnered housing with an affordable housing developer to contribute affordable housing through a joint project or 2 separate projects encompassing affordable housing. This bill would reenact the above-described provisions regarding the granting of development bonuses to certain projects. The bill would require a city or county to annually submit to the Department of Housing and Community Development information describing an approved commercial development bonus.

Summary: Current law requires the Department of Veterans Affairs to acquire, study, design, develop, construct, and equip a state-owned and state-operated Southern California Veterans Cemetery in the County of Orange at one of 2 possible sites, as specified. Current law requires the department to, after completing acquisition studies on both sites, consult with the Department of General Services to determine which site to pursue based on the economic feasibility, benefits to veterans and City of Irvine residents, and availability of each location. Current law makes honorably discharged veterans, their spouses, and dependent children eligible for interment in the cemetery, as specified. This bill would delete those site selection requirements and would instead require the department to acquire,

study, design, develop, construct, and equip a state-owned and state-operated Southern California Veterans Cemetery in the County of Orange. The bill would require the department to conduct an acquisition study, in consultation with the Department of General Services, to assess the feasibility and costs of construction of the cemetery.

Summary: The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act generally requires the administrator for oil spill response, who is the head of the Office of Spill Prevention and Response in the Department of Fish and Wildlife, to implement activities relating to oil spill response, including drills and preparedness, and oil spill containment and cleanup. The act requires the administrator, taking into consideration the California oil spill contingency plan, to promulgate regulations regarding the adequacy of oil spill elements of area plans adopted pursuant to specified existing law. The act authorizes the administrator to offer, to a unified program agency with jurisdiction over or directly adjacent to waters of the state, a grant to complete, update, or revise an oil spill element of the area plan. The act requires each oil spill element prepared under those provisions to be consistent with the local government’s local coastal program, the California oil spill contingency plan, and the National Contingency Plan. This bill would additionally require that each oil spill element prepared under those provisions be consistent with the area contingency plan.

Summary: Current law establishes a workers’ compensation system, administered by the Administrative Director of the Division of Workers’ Compensation, to compensate an employee, as defined, for injuries sustained in the course of employment. Current law defines “injury” for an employee to include illness or death resulting from the 2019 novel coronavirus disease (COVID-19) under specified circumstances, until January 1, 2023. Current law creates a disputable presumption, as specified, that the injury arose out of and in the course of the employment and is compensable, for specified dates of injury. Current law requires an employee to exhaust their paid sick leave benefits and meet specified certification requirements before receiving any temporary disability benefits or, for

police officers, firefighters, and other specified employees, a leave of absence. Current law also make a claim relating to a COVID-19 illness presumptively compensable, as described above, after 30 days or 45 days, rather than 90 days. Current law, until January 1, 2023, allows for a presumption of injury for all employees whose fellow employees at their place of employment experience specified levels of positive testing, and whose employer has 5 or more employees. This bill would extend the above-described provisions relating to COVID-19 until January 1, 2024. The bill would also expand the above-described provisions applicable to firefighters and police officers to include active firefighting members of a fire department at the State Department of State Hospitals, the State Department of Developmental Services, the Military Department, and the Department of Veterans Affairs and to officers of a state hospital under the jurisdiction of the State Department of State Hospitals and the State Department of Developmental Services.

Summary: Current law makes a local trustee of granted public trust lands, as defined, a trustee of state lands and confers upon that trustee specified powers regarding the leasing or granting of rights or privileges in relation to those lands. When it appears to be in the public interest, existing law authorizes the State Lands Commission to grant by competitive bidding leases for the extraction of minerals other than oil and gas from tidelands and submerged lands of the state under specified circumstances. This bill would repeal that authorization and would instead prohibit the commission or a local trustee of granted public trust lands from granting leases or issuing permits for the extraction or removal of hard minerals, as defined, from state waters subject to tidal influence, except as provided. The bill would also set forth legislative findings and declarations and make a conforming change.

Summary: The California Integrated Waste Management Act of 1989 requires a city, county, or city and county, or regional agency formed under the act, to develop a source reduction and recycling element of an integrated waste management plan containing specified components. The act requires those jurisdictions to divert 50% of the solid waste subject to the element, except as specified, through source reduction, recycling, and composting activities. The act allows the 50% diversion requirement to include not more than 10% through transformation, as defined, if specified conditions are met. This bill would repeal the provision authorizing the inclusion of not more than 10% of the diversion through transformation. Because the bill would require local agencies to revise the source reduction and recycling elements of their integrated waste management plans, this bill would impose a state-mandated local program.

Summary: Current law generally regulates the operation of bicycles upon a highway. A violation of these provisions, generally, is punishable as an infraction. Current law prohibits the operation of a motorized bicycle or a class 3 electric bicycle on a bicycle path or trail, bikeway, bicycle lane, equestrian trail, or hiking or recreational trail, as specified. Current law authorizes a local authority to additionally prohibit the operation of class 1 and class 2 electric bicycles on these facilities. This bill would remove the prohibition of class 3 electric bicycles on these facilities and would instead authorize a local authority to prohibit the operation of any electric bicycle or any class of electric bicycle on an equestrian trail, or hiking or recreational trail.

Summary: Current law requires, no later than January 1, 2018, the State Air Resources Board to approve and begin implementing a comprehensive short-lived climate pollutant strategy to achieve a reduction in statewide emissions of methane by 40%, hydrofluorocarbon gases by 40%, and anthropogenic black carbon by 50% below 2013 levels by 2030. Current law requires the methane emissions reduction goals to include a 50% reduction in the level of the statewide disposal of organic waste from the 2014 level by 2020 and a 75% reduction by 2025. Current law requires the Department of Resources Recycling and Recovery, in consultation with the state board, to adopt regulations to achieve these organic waste reduction goals that include, among other things, requirements intended to meet the goal that not less than 20% of edible food that is currently disposed of be recovered for human consumption by 2025 and that may include penalties to be imposed by the department for noncompliance, as provided. The department's regulations provide for, among other things, the calculation by the department of recovered organic waste product procurement targets for each local jurisdiction. This bill would require any penalties imposed by the department on a local jurisdiction that fails to meet its recovered organic waste procurement target to be imposed pursuant to a specified schedule based on the percentage of the local jurisdiction's recovered organic waste product procurement target achieved. The bill would exempt jurisdictions in possession of a specified rural exemption from these requirements until December 31, 2026.

Summary: Current law requires the Department of Resources Recycling and Recovery to implement various state programs designed to encourage the reduction of solid waste, including, among others, a source reduction and recycling program for school districts, recycling programs designed to divert commercial solid waste and organic waste from businesses, defined to include public agencies, and requirements for state agencies and large state facilities to arrange for recycling services, as provided. This bill would require a jurisdiction or a public agency, as defined, to post on its internet website all current franchise agreements between contract solid waste and recycling haulers and the jurisdiction or the public agency. The bill would require the jurisdiction and the public agency to provide to the department the direct electronic link to those posted franchise agreements. The bill would require the department to create and maintain a publicly accessible database that provides direct electronic links to the posted franchise agreements. By imposing additional requirements on local agencies, the bill would create a state-mandated local program.

Summary: The California Occupational Safety and Health Act of 1973 requires employers to comply with certain standards ensuring healthy and safe working conditions, as specified, and charges the division with enforcement of the act. Current law makes certain violations of the act a crime. Current law requires citations, orders, and special orders issued by the department, in enforcing occupational safety and health standards, to be prominently posted at or near each place a violation referred to in the citation or order occurred, in accordance with specified timeframes and procedures. Current law makes certain violations of specified posting or recordkeeping requirements enforceable by a civil penalty. This bill would require an employer to post an employee notification containing specified information when the above-described citations or orders are issued. The bill would require this notification, in addition to English, to be made available in specified languages. The bill would make a violation of these provisions enforceable by a civil penalty, as specified. The bill would also include related legislative findings.

Summary: The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan for its physical development, and the development of certain lands outside its boundaries, that includes, among other mandatory elements, a land use element, and a conservation element. Current law also authorizes the legislative body of a city or a county to adopt ordinances establishing requirements for parking, and permits variances to be granted from the parking requirements of a zoning ordinance for nonresidential development if the variance will be an incentive to the development and the variance will facilitate access to the development by patrons of public transit facilities. This bill would prohibit a public agency from imposing any minimum automobile parking requirement on any residential, commercial, or other development project, as defined, that is located within 1/2 mile of public transit, as defined. The bill, notwithstanding the above-described prohibition, would authorize a city, county, or city and county to impose or enforce minimum automobile parking requirements on a housing development project if the public agency makes written findings, within 30 days of the receipt of a completed application, that not imposing or enforcing minimum automobile parking requirements on the development would have a substantially negative impact, supported by a preponderance of the evidence in the record, on the public agency's ability to meet its share of

specified housing needs or existing residential or commercial parking within 1/2 mile of the housing development.

Summary: Current law authorizes the State Lands Commission to lease tide and submerged lands and beds of navigable rivers and lakes for purposes of the extraction of oil and gas, as provided. Current law prohibits a state agency or state officer from entering into any new lease for the extraction of oil or gas from the California Coastal Sanctuary, except as provided. This bill would, contingent upon an appropriation of funds by the Legislature for this purpose, require the commission to develop, on or before December 31, 2024, a cost study that evaluates the fiscal impact of a voluntary relinquishment of any lease interests in actively producing state offshore oil and gas leases in state waters, as provided. The bill would require the commission, on or before December 31, 2023, to hold at least one public hearing related to the cost study, as provided.

Summary: Would require a traffic-actuated signal to be installed and maintained to have a leading pedestrian interval, and to include the installation, activation, and maintenance of an accessible pedestrian signal and detector, upon the first placement or replacement of a state-owned or operated traffic-actuated signal. The bill would also require an existing state-owned or operated traffic-actuated signal capable of being implemented with remote installation or in-person programming to be programmed with a leading pedestrian interval when maintenance work is done on the intersection in which the traffic-actuated signal is located, if the signal is in a residential, business, or business activity district, a safety corridor, a school zone, or an area with a high concentration of pedestrians and cyclists, as specified. These requirements would not apply when prohibited by the California Manual on Uniform Traffic Control Devices. The bill would, for these purposes, define a "leading pedestrian interval" as an official traffic control signal that advances the "WALK" signal for 3 to 7 seconds while the red signal halting traffic continues to be displayed on parallel through or turning traffic, and define "accessible pedestrian signal and detector" as an integrated device that communicates information about the "WALK" and "DON'T WALK" intervals at signalized intersections in nonvisual formats, including audible tones, speech messages, and vibrotactile surfaces, to pedestrians who are blind or have low vision. Summary: Would deem a housing development project an allowable use on any real property owned by a local educational agency, as defined, if the housing development satisfies certain conditions, including other local objective zoning standards, objective subdivision standards, and objective design review standards, as described. The bill would deem a housing development that meets these requirements consistent, compliant, and in conformity with local development standards, zoning codes or maps, and the general plan. The bill, among other things, would authorize the land used for the development of the housing development to be jointly used or jointly occupied by the local educational agency and any other party, subject to specified requirements. The bill would exempt a housing development project subject to these provisions from various requirements regarding the disposal of surplus land. The bill would make these provisions effective on January 1, 2024, except that the bill would require the Department of Housing and Community Development to provide a specified notice to the planning agency of each county and city on or before January 31, 2023. The bill would repeal its provisions on January 1, 2033.

Summary: The Density Bonus Law requires a city or county to provide a developer that proposes a housing development within the city or county with a density bonus and other incentives or concessions, as specified, if the developer agrees to construct specified percentages of units for lower income, very low income, or senior citizen housing, among other things, and meets other requirements. Current law requires that an applicant agree to, and the city, county, or city and county ensure, the continued affordability of all very low and low-income rental units that qualified the applicant for a density bonus, as provided. Current law, for developments where 100% of all units are for lower income households, except as provided, requires that rent for 20% of the units be set at an affordable rent and that rent for the remaining units be at an amount consistent with the maximum rent levels for a housing development that receives an allocation of state or federal low-income housing tax credits from the California Tax Credit Allocation Committee (CTCAC). Current law, with respect to a for-sale unit that qualified the applicant for a density bonus, also requires that the local government enforce an equity sharing agreement, as provided, unless it is in conflict with the requirements of another public funding source or law. This bill, with respect to the affordability requirements applicable to 100% lower income developments, would instead require the rent for the remaining units in the development be set at an amount consistent with the maximum rent levels for lower income households, as those rents and incomes are determined by CTCAC.

Summary: Current law, the Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body of a local agency, as those terms are defined, be open and public and that all persons be permitted to attend and participate. The act generally requires posting an agenda at least 72 hours before a regular meeting that contains a brief general description of each item of business to be transacted or discussed at the meeting, and prohibits any action or discussion from being undertaken on any item not appearing on the posted agenda. This bill would revise and recast those teleconferencing provisions and, until January 1, 2026, would authorize a local agency to use teleconferencing without complying with the teleconferencing requirements that each teleconference location be identified in the notice and agenda and that each teleconference location be accessible to the public if at least a quorum of the members of the legislative body participates in person from a singular physical location clearly identified on the agenda that is open to the public and situated within the local agency's jurisdiction.

Summary: Current law requires every motor vehicle subject to registration to be equipped with an adequate muffler in constant operation and properly maintained to prevent any excessive or unusual noise and prohibits a muffler or exhaust system from being equipped with a cutout, bypass, or similar device. Current law further prohibits the modification of an exhaust system of a motor vehicle in a manner that will amplify or increase the noise emitted by the motor of the vehicle so that the vehicle exceeds existing noise limits when tested in accordance with specified standards. Current law establishes the motor vehicle inspection program, which provides for privately operated stations that are referred to as smog check stations and are authorized to issue certificates of compliance or noncompliance to vehicles that meet certain requirements. Current law requires a certain number of stations providing referee functions available to consumers, which ensures uniform and consistent tests and repairs by all qualified smog check technicians and licensed smog check stations throughout the state. Current law requires stations providing referee functions to provide for the testing of vehicular exhaust systems and the issuance of certificates of compliance for those vehicles that have received a citation for the noise limit violations described above. This bill would require a court to require a certificate of compliance for a violation of the noise limit requirements mentioned above for specified vehicles. The bill would require the court to utilize the notification procedures mentioned above and if a certificate of compliance is not provided to the court within 3 months of the violation date, the bill would require the court to treat this failure as noncompliance and inform the Department of Motor Vehicles by following specified procedures.

Summary: The California Constitution reserves to the electors the power to recall an elective officer and requires the Legislature to provide for recall of local officers. Current law requires a recall election to include the question of whether the officer sought to be recalled shall be removed from office and an election for the officer's successor in the event the officer is removed from office. This bill would instead require a recall election for a local officer to include only the question of whether the officer sought to be recalled shall be removed from office. If a local officer is removed from office in a recall election, the bill would provide that the office is vacant until it is filled according to law.

Summary: Current law, the California Public Records Act, requires state agencies and local agencies to make public records available for inspection, subject to specified criteria, and with specified exceptions. Current law, the Ralph M. Brown Act, requires the meetings of the legislative body of a local agency to be conducted openly and publicly, with specified exceptions. Current law makes agendas of public meetings and other writings distributed to the members of the governing board disclosable public records, with certain exceptions. This bill would instead require a local agency to make those writings distributed to the members of the governing board available for public inspection at a public office or location that the agency designates and list the address of the office or location on the agenda for all meetings of the legislative body of the agency unless the local agency meets certain requirements, including the local agency immediately posts the writings on the local agency's internet website in a position and manner that makes it clear that the writing relates to an agenda item for an upcoming meeting.

Summary: The Planning and Zoning Law requires a city or county to adopt a general plan for land use development within its boundaries that includes, among other things, a housing element. Current law requires the planning agency of a city or county to provide an annual report to the Department of Housing and Community Development by April 1 of each year that includes, among other information, a housing element portion that includes, as provided, the city or county's progress in meeting its share of regional housing needs and local efforts to remove governmental constraints on the maintenance, improvement, and development of housing, as specified; the net number of new units of housing; and data from a sample of projects, selected by the planning agency, that were approved to receive a density bonus from the city or county. This bill would require the planning agency to additionally include in its annual report the number of all new housing units, the number of housing units demolished, and data from all projects approved to receive a density bonus from the city or county, as specified. The bill would authorize the Department of Housing and Community Development to request corrections to the housing element portion of an annual report, as specified.

Summary: The Planning and Zoning Law, until January 1, 2026, authorizes a development proponent to submit an application for a multifamily housing development that is subject to a streamlined, ministerial approval process, as provided, and not subject to a conditional use permit, if the development satisfies specified objective planning standards. Current law specifies that a development is consistent with the objective planning standards if there is substantial evidence that would allow a reasonable person to conclude that the development is consistent with the objective planning standards. This bill would clarify that a development subject to these provisions is subject to a streamlined, ministerial approval process, and not subject to a conditional use permit or any other nonlegislative discretionary approval. The bill would specify that a local government is required to approve a development if it determines that the development is consistent with objective planning standards, as specified.

Summary: Existing law, the Information Practices Act of 1977, prescribes a set of requirements, prohibitions, and remedies applicable to agencies, as defined, with regard to their collection, storage, and disclosure of personal information, as defined. Existing law exempts from the provisions of the act counties, cities, any city and county, school districts, municipal corporations, districts, political subdivisions, and other local public agencies, as specified. This bill would, beginning January 1, 2025, recast those provisions to include, among other things, genetic information, IP address, online browsing history, and location information, if reasonably capable of identifying or describing an individual, within the definition of "personal information," and revise the definition of "regulatory agency" to include the Financial Industry Regulatory Authority, for the act's purposes. The bill would make other technical, nonsubstantive, and conforming changes. This bill contains other related provisions and other existing laws.

Summary: Current law dissolved all redevelopment agencies in accordance with a detailed statutory process and provides for the designation of successor agencies to wind down the affairs of the dissolved redevelopment agencies. Current law authorizes the legislative body of a city or county to establish an enhanced infrastructure financing district to finance public capital facilities or other specified projects of communitywide significance that provide significant benefits to the district or the surrounding community. Current law prohibits a city or county that created a redevelopment agency from initiating the creation of an enhanced infrastructure financing district or participating in the governance or financing of an enhanced infrastructure financing district until certain specified events occur, including that the successor agency for the former redevelopment agency created by the city or county has received a finding of completion, as specified. This bill would, notwithstanding those provisions, authorize the City of Selma to initiate, participate in, govern, or finance an enhanced infrastructure financing district if those specified events have occurred, except the requirement to have received a finding of completion, and if the City of Selma, acting as the successor agency to the former Selma Redevelopment Agency, has paid in full the amount outstanding demanded by the county auditor-controller from the funds of the successor agency for subsequent distribution to taxing entities, as specified.

The bill would require, beginning January 1, 2024, a local agency that has jurisdiction over a street or highway, to the extent feasible and cost effective, to apply standard specifications that allow for the use of recycled materials in streets and highways, as specified. The bill would exempt cities and counties whose populations do not exceed specified thresholds and special

districts from these requirements. By increasing the duties of local agencies, this bill would impose a state-mandated local program.

Summary: Current law requires the Department of Resources Recycling and Recovery, in consultation with the State Air Resources Board, to adopt regulations to achieve the organic waste reduction goals established by the state board for 2020 and 2025, as provided. Current law requires the department, no later than July 1, 2020, and in consultation with the state board, to analyze the progress that the waste sector, state government, and local governments have made in achieving these organic waste reduction goals. Current law authorizes the department, if it determines that significant progress has not been made toward achieving the organic waste reduction goals established by the state board, to include incentives or additional requirements in its regulations to facilitate progress towards achieving the goals. This bill would require the department, in consultation with the state board, to assist local jurisdictions in complying with these provisions, including any regulations adopted by the department.

Summary: The Diablo Canyon nuclear powerplant, composed of Reactor Units 1 and 2, is operated by the Pacific Gas and Electric Company, an electrical corporation, in the County of San Luis Obispo. On January 11, 2018, the Public Utilities Commission (PUC) approved the Pacific Gas and Electric Company's proposal to retire Unit 1 in 2024 and Unit 2 in 2025. Summary: Current law authorizes the legislative body of a city or a county to establish an enhanced infrastructure financing district to finance public capital facilities or other specified projects of communitywide significance, including projects that enable communities to adapt to the impacts of climate change. Current law also requires the legislative body to establish a public financing authority, defined as the governing board of the enhanced infrastructure financing district, prior to the adoption of a resolution to form an enhanced infrastructure district and adopt an infrastructure financing plan. This bill would authorize a city, county, city and county, special district, or a combination of any of those entities to form a climate resilience district, as defined, for the purposes of raising and allocating funding for eligible projects and the operating expenses of eligible projects. The bill would deem each district to be an enhanced infrastructure financing district and would require each district to comply with existing law concerning enhanced infrastructure financing districts, except as specified. The bill would require a district to finance only specified projects that meet the definition of an eligible project. The bill would define "eligible project" to mean projects that address sea level rise, extreme heat, extreme cold, the risk of wildfire, drought, and the risk of flooding, as specified.

Summary: Current law creates within the Ocean Protection Council the California Sea Level Rise State and Regional Support Collaborative to provide state and regional information to the public and support to local, regional, and other state agencies for the identification, assessment, planning, and, where feasible, the mitigation of the adverse environmental, social, and economic effects of sea level rise within the coastal zone, as provided. This bill would require a local government, as defined, lying, in whole or in part, within the coastal zone, as defined, or within the jurisdiction of the San Francisco Bay Conservation and Development Commission, as defined, to implement sea level rise planning and adaptation through either submitting, and receiving approval for, a local coastal program, as defined, to the California Coastal Commission or submitting, and receiving approval for, a subregional San Francisco Bay shoreline resiliency plan to the San Francisco Bay Conservation and Development Commission, as applicable, on or before January 1, 2033. By imposing additional requirements on local governments, the bill would impose a state-mandated local program.

Summary: Would require the Public Utilities Commission to establish an expedited utility distribution infrastructure undergrounding program, and would authorize only those electrical corporations with 250,000 or more customer accounts within the state to participate in the program. In order to

participate in the program, the bill would require a large electrical corporation to submit a distribution infrastructure undergrounding plan, including the undergrounding projects located in tier 2 or 3 high fire-threat districts or rebuild areas that it will construct as part of the program, to the Office of Energy Infrastructure Safety, which would be required to approve or deny the plan within 9 months. If the office approves the large electrical corporation's plan, the bill would require the large electrical corporation to submit to the commission a copy of the plan and an application requesting review and conditional approval of the plan's costs and would require the commission to approve or deny the plan within 9 months. If the plan is approved by the office and commission, the bill would require the large electrical corporation to file specified progress reports, include additional information in its wildfire mitigation plans, hire an independent monitor to review and assess its compliance with its plan, apply for available federal, state, and other nonratepayer moneys throughout the duration of the approved plan, and use those nonratepayer moneys to reduce the program's costs on its ratepayers, as specified. The bill would authorize the commission to assess penalties on a large electrical corporation that fails to substantially comply with the commission decision approving its plan.

Summary: Would, until January 1, 2030, exempt from the California Environmental Quality Act (CEQA) a university housing development project, as defined, carried out by a public university, as defined, on real property owned by the public university if the project meets certain requirements, including that each building within the project is certified as Leadership in Energy and Environmental Design (LEED) platinum or better by the United States Green Building Council, that the project's construction impacts are fully mitigated, and that the project is not located, in whole or in part, on certain types of sites, including a site that is within a special flood hazard area subject to inundation by a 1% annual chance flood or within a regulatory floodway as determined by the Federal Emergency Management Agency, as provided. The bill, with respect to a site that is within a special flood hazard area subject to inundation by a 1% annual chance flood or within a regulatory floodway, would prohibit a local government from denying an application on the basis that a public university did not comply with any additional permit requirement, standard, or action adopted by that local government applicable to the site if the public university is able to satisfy all applicable federal qualifying criteria in order to demonstrate that the site meets these criteria and is otherwise eligible to be exempt from CEQA pursuant to the above requirements. By imposing additional duties on local governments, this bill would impose a state-mandated local program.

Summary: The California Beverage Container Recycling and Litter Reduction Act establishes the California Beverage Container Recycling Fund and, except for civil penalties, fines, and administrative costs, continuously appropriates moneys in the fund to the department for specified purposes, including the amount necessary to pay handling fees to supermarket sites, nonprofit convenience zone recyclers, and rural region recyclers to provide an incentive for the redemption of empty beverage containers in convenience zones. The act defines "nonprofit convenience zone recycler" for its purposes to mean a recycling center that meets one of 2 sets of criteria, one of which is a recycling center that is operated by a nonprofit organization and has operated in the same location for a period of not less than 5 years, that is certified by the department, and that is located within one mile of a supermarket that is in an exempt convenience zone. This bill would revise the criteria for, and expand the above definition of, a nonprofit convenience zone recycler by deleting the requirement that the recycling center operate in the same location for a period of not less than 5 years and allowing the recycling center to be located within 2 miles, rather than one mile, of a supermarket that is in an

exempt convenience zone.

Summary: The Planning and Zoning Law authorizes a local agency, by ordinance or ministerial approval, to provide for the creation of accessory dwelling units in areas zoned for residential use, as specified. Current law authorizes a local agency to impose standards on accessory dwelling units that include, but are not limited to, parking, height, setback, landscape, architectural review, and maximum size of a unit. This bill would require that the standards imposed on accessory dwelling units be objective. For purposes of this requirement, the bill would define "objective standard" as a standard that involves no personal or subjective judgment by a public official and is uniformly verifiable, as specified.

Summary: Would enact the HELP (Homeless Equity for Left Behind Populations) Act. The bill would require cities, counties, and continuums of care receiving state funding to address homelessness, on or after January 1, 2024, to include families, people fleeing or attempting to flee domestic violence, and unaccompanied women within the vulnerable populations for whom specific system supports are developed to maintain homeless services and housing delivery. The bill would also impose other homelessness planning and data analysis requirements on these cities, counties, and continuums of care. The bill would prohibit victim service providers, as defined, from being required or expected to enter client-level data into specified homeless data systems and would permit any funding provided to cities, counties, and continuums of care, consistent with authorized program uses and limitations, to be used to support the development and the maintenance of comparable databases, as specified.

Summary: Current law requires the State Department of Health Care Services to collect and publish annually quantitative information concerning the operation of various provisions relating to community mental health services, including the number of persons admitted for evaluation and treatment for certain periods, transferred to mental health facilities, or for whom certain conservatorships are established, as specified. Current law requires each local mental health director, and each facility providing services to persons under those provisions, to provide the department, upon its request, with any information, records, and reports that the department deems necessary for purposes of the data collection and publication. This bill would additionally require the department to collect data quarterly and publish, on or before May 1 of each year, a report including quantitative, deidentified information relating to, among other things, the number of persons in designated and approved

facilities admitted or detained for 72-hour evaluation and treatment, clinical outcomes and services for certain individuals, waiting periods prior to receiving an evaluation or treatment services in a designated and approved facility, demographic data of those receiving care, the number of all county-contracted beds, and an assessment of the disproportionate use of detentions and conservatorships on various groups.

Summary: The Mobilehome Residency Law, prescribes various terms and conditions of tenancies in mobilehome parks. Current law exempts new construction, defined as spaces initially held out for rent after January 1, 1990, from any ordinance, rule, regulation, or initiative measure adopted by a city or county, that establishes a maximum amount that a landlord may charge a tenant for rent. This bill would specify that a mobilehome park space shall be considered “initially held out for rent” on the date of issuance of a permit or certificate of occupancy for that space, as specified. The bill would define “new mobilehome park construction” to mean all spaces contained in a newly constructed mobilehome park for which a permit to operate is first issued on or after January 1, 2023, as specified. The bill would limit the above-described exemption for new construction to a period of 15 years from the date upon which the space is initially held out for rent.

Summary: Current law establishes various programs and funding sources administered by the Department of Housing and Community Development to enable the development of affordable housing, including the Building Homes and Jobs Act, the Multifamily Housing Program, the Housing for a Healthy California Program, and the Veterans Housing and Homeless Prevention Act of 2014. Under current law governing the State Community Development Block Grant Program, the department is required to distribute funds made available under the program in order to provide decent housing, a suitable living environment, and expand economic opportunities, consistent with federal requirements. Current federal law also establishes the HOME Investment Partnership Program to, among other

things, expand the supply of affordable housing. Current law designates the department as the state agency responsible for administering the HOME Investment Partnership Act. This bill would prohibit the department from requiring a project-specific transition reserve, as defined, for any unit subject to a qualified project rental or operating subsidy. This bill would create the Pooled Transition Reserve Fund and would continuously appropriate moneys in that fund to the department for the purpose of establishing and maintaining a pooled transition reserve, as defined.

The bill would authorize nonpotentially hazardous foods prepared in a cottage food operation to be served from a compact mobile food operation. The bill would define "compact mobile food operation" as a mobile food facility that operates from an individual or from a pushcart, stand, display, pedal-driven cart, wagon, showcase, rack, or other nonmotorized conveyance. The bill would require compact food operations to conduct only limited food preparation.

Summary: Current law authorizes the Director of General Services to use the progressive design-build procurement process for the construction of up to 3 capital outlay projects, as jointly determined by the Department of General Services and the Department of Finance, and prescribes that process. Current law defines "progressive design-build" as a project delivery process in which both the design and construction of a project are procured from a single entity that is selected through a qualifications-based selection at the earliest feasible stage of the project. Current law, pursuant to the process, after selection of a design-build entity, authorizes the Department of General Services to contract for design and preconstruction services sufficient to establish a guaranteed maximum price, as defined. Current law authorizes the department, upon agreement on a guaranteed maximum price, to amend the contract in its sole discretion, as specified. Current law requires specified information to be verified under penalty of perjury. This bill, until January 1, 2029, would authorize local agencies, defined as any city, county, city and county, or special district authorized by law to provide for the production, storage, supply, treatment, or distribution of any water from any source, to use the progressive design-build process for up to 15 public works projects in excess of \$5,000,000 for each project, similar to the progressive design-build process authorized for use by the Director of General Services.

Summary: Current law requires the director of the California Conservation Corps to establish a forestry corps program to accomplish specified objectives related to forest health. This bill would require the director to establish and administer the California Ocean Corps Program to provide competitive grants to certified local conservation corps located in coastal counties in order to provide opportunities for young people to complete workforce preparation, training, and education programs, and, ultimately, to obtain employment, or continue education, in ocean and coastal conservation or related fields, as provided. The bill would require the director to develop and adopt program guidelines before awarding any grants, as provided. The bill would require the director to develop performance measures and accountability controls to track progress and outcomes of all grants. The bill would require the director, on or before January 1, 2026, to report these outcomes to the appropriate fiscal and policy committees of the Legislature. The bill would make these provisions contingent upon an appropriation by the Legislature in the annual Budget Act or another statute.

Summary: Current law requires every motor vehicle subject to registration to be equipped with an adequate muffler in constant operation and properly maintained to prevent any excessive or unusual noise and prohibits a muffler or exhaust system from being equipped with a cutout, bypass, or similar device. Current law further prohibits the modification of an exhaust system of a motor vehicle in a manner that will amplify or increase the noise emitted by the motor of the vehicle so that the vehicle exceeds existing noise limits when tested in accordance with specified standards. This bill would require the Department of the California Highway Patrol to evaluate the efficacy of sound-activated enforcement devices by evaluating devices from at least 3 different companies, and would require the department, on or before January 1, 2025, to prepare and submit its findings and recommendations from the evaluation in a report to the Legislature, as specified.

Summary: Current law requires the Department of Water Resources, in coordination with the State Water Resources Control Board, and including collaboration with and input from stakeholders, to conduct necessary studies and investigations and authorizes the department and the board to jointly recommend to the Legislature a standard for indoor residential water use. Current law, until January 1, 2025, establishes 55 gallons per capita daily as the standard for indoor residential water use. Current law establishes, beginning January 1, 2025, the greater of 52.5 gallons per capita daily or a standard recommended by the department and the board as the standard for indoor residential water use, and beginning January 1, 2030, establishes the greater of 50 gallons per capita daily or a standard recommended by the department and the board as the standard for indoor residential water use. Current law requires the board, in coordination with the department, to adopt by regulation variances recommended by the department and guidelines and methodologies pertaining to the calculation of an urban retail water supplier's urban water use objective recommended by the department. This bill would eliminate the option of using the greater of 52.5 gallons per capita daily and the greater of 50 gallons per capita daily, as applicable, or a standard recommended by the department and the board as the standard for indoor residential water use. The bill would instead require that from January 1, 2025, to January 1, 2030, the standard for indoor residential water use be 47 gallons per capita daily and beginning January 1, 2030, the standard be 42 gallons per capita daily.

Summary: Would, contingent upon the State Department of Health Care Services developing an allocation to provide financial assistance to counties, enact the Community Assistance, Recovery, and Empowerment (CARE) Act, which would authorize specified adult persons to petition a civil court to create a voluntary CARE agreement or a court-ordered CARE plan and implement services, to be provided by county behavioral health agencies, to provide behavioral health care, including stabilization medication, housing, and other enumerated services to adults who are currently experiencing a severe mental illness and have a diagnosis identified in the disorder class schizophrenia and other psychotic disorders, and who meet other specified criteria. The bill would require the Counties of Glenn, Orange, Riverside, San Diego, Stanislaus, and Tuolumne and the City and County of San Francisco to implement the program commencing October 1, 2023, and the remaining counties to commence no later than December 1, 2024. The bill would require the Judicial Council to develop a mandatory form for use in filing a CARE process petition and would specify the process by which the petition is filed and reviewed, including requiring the petition to be signed under penalty of perjury, and to contain specified information, including the facts that support the petitioner's

assertion that the respondent meets the CARE criteria.

Summary: The California Constitution generally limits the maximum rate of ad valorem tax on real property to 1% of the full cash value of the property and defines "full cash value" for these purposes as the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment. Pursuant to constitutional authorization, existing property tax law excludes from the definition of "newly constructed" for these purposes the construction or addition of any active solar energy system, as defined, through the 2023-24 fiscal year. Under existing property tax law, this exclusion remains in effect only until there is a subsequent change in ownership, but an active solar energy system that qualifies for the exclusion before January 1, 2025, will continue to receive the exclusion until there is a subsequent change in ownership. Existing law repeals this exclusion on January 1, 2025. This bill would extend the exclusion described above through the 2025-26 fiscal year, and would extend the repeal date to January 1, 2027. This bill contains other related provisions and other existing laws.

Summary: Would authorize a city, county, or city and county to use the design-build contracting process to award contracts for constructing projects that are necessary in order to comply with construction-related accessibility standards, as specified. By expanding design-build authority to include additional projects, the bill would expand the scope of the crime of perjury, thereby imposing a state-mandated local program.

SB 1373 (Kamlager D) Surplus land disposal.

Summary: Current law prescribes requirements for the disposal of surplus land by a local agency, as defined. Current law provides that certain dispositions of real property by local agencies are subject to surplus land disposal procedures as they existed on December 31, 2019, without regard to specified amendments that took effect on January 1, 2020, if those dispositions comply with specified requirements and the disposition is completed not later than December 31, 2022. Current law extends the date that the disposition must be completed by to December 31, 2024, for specified properties, including properties related to the Metro North Hollywood Joint Development Project. Current law further extends the dates by which the disposition of property must be completed, as specified, if the disposition of property, the local agency's right or ability to dispose of the property, or a development project for which the property is proposed to be transferred, is the subject of judicial challenge. This

bill would extend the date by which the disposition of property must be completed to December 31, 2024, if the property is located in a charter city with a population of over 2,000,000 persons and a local agency has an option agreement duly authorized by the local agency's governing body to purchase the property from the former redevelopment agency.

Summary: The Political Reform Act of 1974 prohibits an officer of an agency from accepting, soliciting, or directing a contribution of more than \$250 from any party, participant, or a party or participant's agent, while a proceeding involving a license, permit, or other entitlement for use is pending before the agency and for 3 months following the date a final decision is rendered in the proceeding, if the officer knows or has reasons to know that the participant has financial interest, as defined. The act also prohibits a party, participant, or participant's agent from making a contribution of more than \$250 to an officer of the agency during the proceeding and 3 months following the date a final decision is rendered. The act defines "agency" for these purposes to mean any state or local government agency, except certain entities, including local government agencies whose members are directly elected by the voters. This bill would remove the exception for local government agencies, thereby subjecting them to the prohibition described above. The bill would extend the prohibition on contributions from 3 to 12 months following the date a final decision is rendered in the proceeding. The bill would permit an officer who does not willfully and knowingly accept, solicit, or direct a prohibited contribution to cure the violation by returning it. The bill would require the party to a proceeding to disclose whether the party or the party's agent has made a contribution of more than \$250 in the 12 months before the proceeding.

Summary: Would declare that it is the public policy of the state that the State Department of Health Care Services when revising, adopting, or establishing policies, regulations, or grant program criteria relating to access to behavioral health-related treatment, housing that heals, or other services or supports, are required to ensure that any individual with a severe behavioral health disorder who, as a result, lacks supportive housing and behavioral health services and is otherwise not living safely in the community receives an individualized, clinically appropriate range of behavioral health-related treatment, housing that heals, as defined, and other services or supports. The bill would specify that these provisions do not expand any obligation of the state or other entities to provide access to services or supports beyond requiring the department to consider the state policy, as specified.

Summary: Would require the State Department of Public Health to coordinate specified school district, county office of education, and charter school COVID-19 testing programs that are currently federally funded or organized under the California COVID-19 Testing Task Force, as provided. The bill would authorize the department to provide supportive services, including technical assistance, vendor support, guidance, monitoring, and testing education, related to testing programs for teachers, staff, and pupils to help schools reopen and keep schools operating safely for in-person learning. The bill would also encourage the department to expand its contagious, infectious, or communicable disease testing guidance and other public health mitigation efforts to include prekindergarten and childcare centers, as provided.

SB 1482 (Allen D) Building standards: electric vehicle charging infrastructure.

Summary: Current law requires the California Building Standards Commission to approve and adopt building standards and to codify those standards in the California Building Standards Code. Current law requires the commission to adopt, approve, codify, and publish mandatory building standards for the installation of electric vehicle charging infrastructure for parking spaces in multifamily dwellings and nonresidential development. Current law requires the Department of Housing and Community Development to propose to the commission for consideration mandatory building standards for the installation of electric vehicle charging infrastructure for parking spaces in multifamily dwellings and submit the proposed mandatory building standards. Current law requires the department and the commission, in proposing and adopting these standards, to actively consult with specified parties. This bill, for purposes of the requirements described above, would require the Department of Housing and Community Development to research and develop, and would authorize the department to propose to the commission for adoption, mandatory building standards for parking spaces in multifamily dwellings that achieve specified objectives. In this regard, the bill would require those mandatory building standards to require that each multifamily dwelling unit with access to parking have at least one parking space served by a dedicated branch circuit terminating in a receptacle or an electric vehicle charging station and to include specified signage.
