

PP-GEMT-IGT

Huntington Beach Fire Department

December 20, 2022

Background

As stated on the DHCS website, the Public Provider Ground Emergency Medical Transport Intergovernmental Transfer Program (PP-GEMT IGT) is anticipated to be implemented on January 1, 2023, contingent on federal approval (<https://www.dhcs.ca.gov/provgovpart/Pages/PPGEMTIGT.aspx>).

Recommendation

Staff requests to approve an appropriation of \$867,000 for the PP-GEMT IGT Program to pay FY 2022/23 DHCS invoices in an expected amount of up to \$867,000 to cover the City's non-federal share.

Analysis

Staff recommends appropriation approval for the PP-GEMT IGT Program due to the previous GEMT QAF and GEMT CPE programs ending and due to the PP-GEMT IGT Program offering a greater net revenue than the previous GEMT QAF and GEMT CPE programs as illustrated in the following:

Program	Add-on \$ Amount per Case	Estimated Annual Revenue after Estimated Total Invoices Paid
Current GEMT/QAF	\$220	\$100,000
New PP-GEMT IGT	\$946	\$770,000

Note: The New PP-GEMT IGT Program \$946 add-on applies to more cases than the previous GEMT QAF.
