

# **Police Department (PD) Communications Center Renovation**

Project Overview

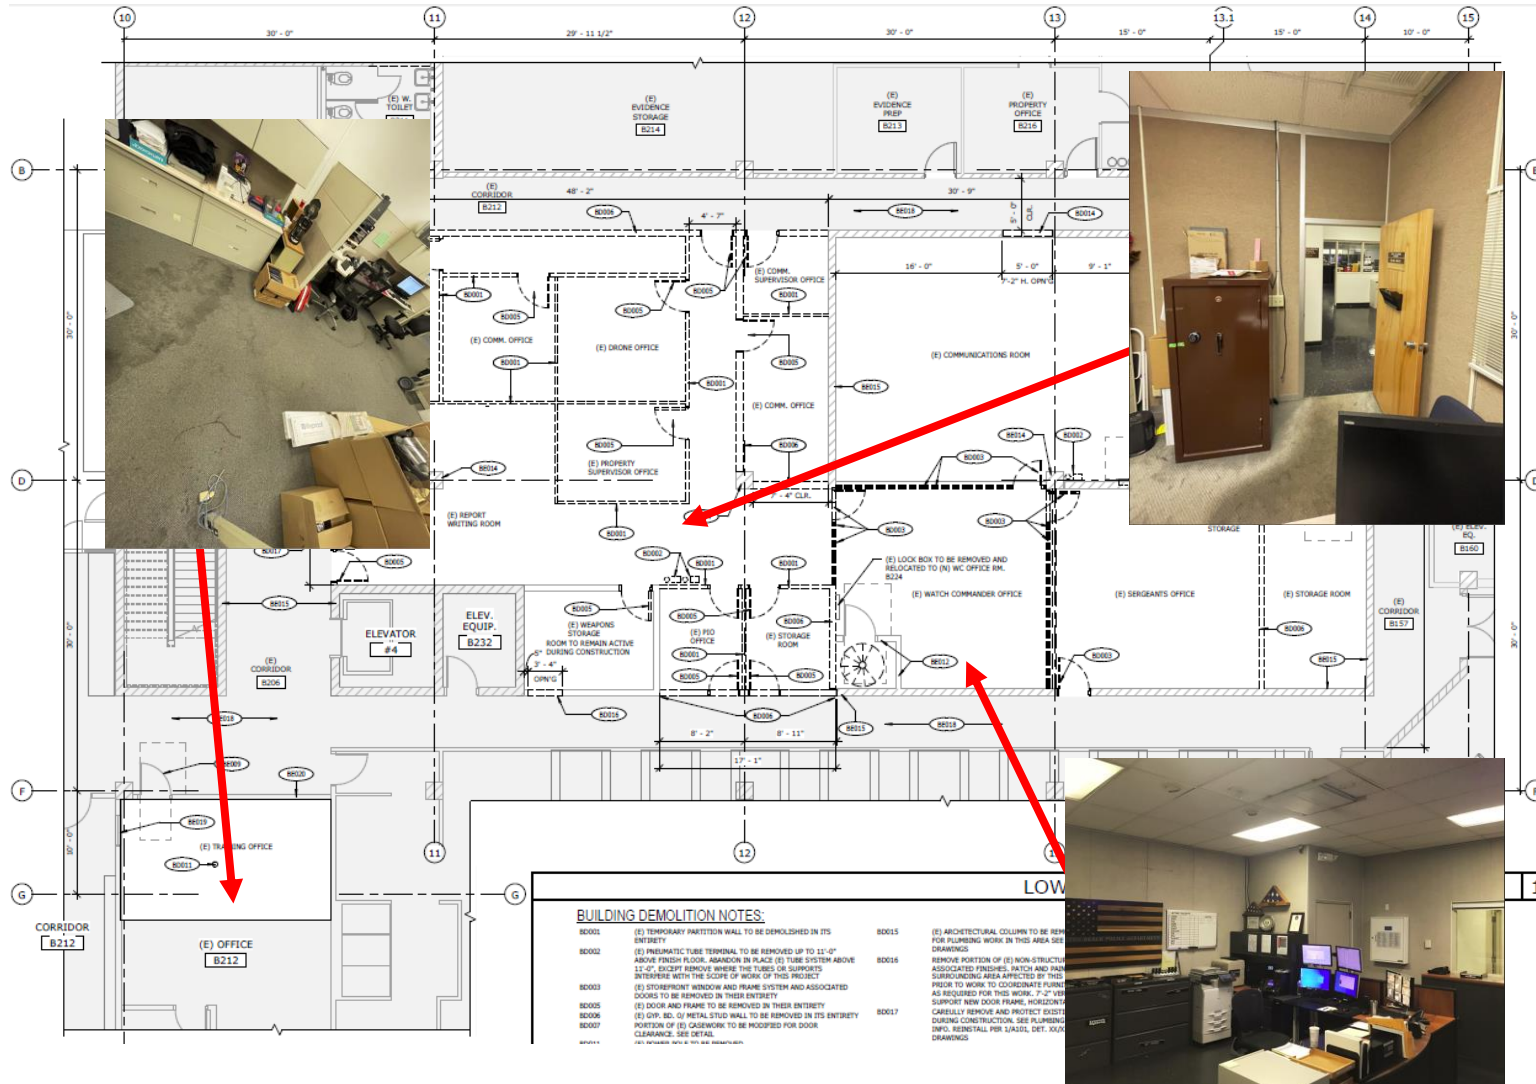

September 5, 2023

# BACKGROUND

- Existing Communications Center is located on the lower level of the Civic Center Police Station.
- Currently has ten positions, eight in main center and two on opposite side of south concrete wall.
- Current center is approximately 690 square feet, constructed in the 1970s, has received minor upgrades over time.
- Finishes are at the end of useful life and need replacement.
- Work stations are no longer supported by manufacturer.

# BACKGROUND

- Many of the current offices consist of temporary partition walls.
- Flooring, ceiling tiles, electrical systems, and data network systems need modernization.
- Support offices will be displaced by expanded center, need to be repositioned and renovated.
- Work groups affected include Watch Commander, Sergeant Office, Report Writing, Property Supervisor, Drone Office, and Communication Supervisor

# NEED/WHY/BENEFITS

- Unified and expanded dispatch center that supports all communications operations. Increase from ten to fourteen work stations to support daily policing needs and large community/specific events.
- Dispatch work stations and equipment need to be replaced.
- Adjacent and supporting offices need to be renovated due to end of life carpeting, ceiling tiles, HVAC, and data network systems.
