

# SB 1383 Implementation Update

Department of Public Works  
October 18, 2022

# Background

- **The State mandates that all residents and businesses must recycle organics**
  - Organics includes food scraps and landscape cuttings plus paper and cardboard
  - The goal is to reduce methane emissions by keeping organic material out of landfills
- **City is required to:**
  - provide organic waste recycling programs
  - adopt regulations to enforce recycling
  - ensure 100% compliance

# SB 1383 Status

## What Has Been Done:

- Adopted enforceable ordinance for required organics collection and recycling
- Updated procurement ordinance to meet new requirements
- Completed Edible Food Recovery Capacity Planning Study
- Completed and submitted Initial Jurisdiction Compliance Report to CalRecycle

## Next to Come:

- Approve modernized solid waste franchise agreement
- Adopt residential and commercial service rates to pay for newly mandated services
- Commence new programs in mid 2023
- In 2024, commence inspection and enforcement activities

# Organics Collection Program Preview

# Commercial Program

- 3 Container collection program for all businesses
- Bins or a combination of bins/carts depending on quantities generated – separate containers for:
  - Food waste
  - Commingled Recyclables
  - Trash/Landfill

Commercial Bins

Commercial Carts

# Commercial Program

Scott Thor Turbo Separator

Bunker

Depackaging

Hammer Press

Cake

Compost

Republic Services  
Anaheim CVT

# Residential Program

- **3 Container collection program for every resident – apartments, townhomes/condos, single family**
- **Every refuse account will receive organics green cart service**
- **Residents in townhomes/condos that currently have blue/brown service will be issued a green cart for their food scraps**
- **Apartment residents will share centrally located containers per the commercial program**

# Residential Program

- **Commingled food/landscape material will be composted in the traditional style**

# Local Assistance Grant Funds

# Local Assistance Grant

- **Funds will be used to purchase 2-gal. pails for residential food scraps**
- **Residents will collect food scraps in their pails, then deposit into their green/organics carts or bin**
  - Hand or machine washable
  - Instruction labels will be affixed to the pails plus instructional brochure inside when delivered

# Local Assistance Grant

- Intent is to provide a pail to all residential households that would like one – to be distributed during the program roll out in 2023
- Using the grant to purchase these pail defers costs that might otherwise be passed through to our ratepayers
