Public Comment Item 11, Tuesday, July 16, 2024

I oppose Item 11. 24-471 - Pipeline Franchise Agreement - I did not plan to participate in this item. I request that a 24/7 monitoring & communication agreement be signed for proper ocean docking procedures & reporting. If that hasn't been done, I would find that unbelievable, if so; please unanimously vote this item down until that is done.

Non-agendized - I oppose item & request that the Golden West Street "bridge full re-pavement" project be stopped & investigated as a vanity project in re-pavement

deliberation. Such channel widening occurred for up to 1+ year & 25+ years more. I absolutely do not think that this entire bridge must be repaved, for 6+ months, as a part of a minor, roadside bridge re-pavement, nor that it is not being rushed by decades or that multi-ton equipment & k-rails should be allowed to be dropped on these bridges. Please stop the nonsense, & clean up the dangerous construction debris & displaced cones. It is impossible to drive & the mess goes on for miles & miles in all directions.

- Ben, Northwest Huntington Beach Resident

SUPPLEMENTAL
COMMUNICATION

Meeting Date: 7/16/24

Agenda Item No. 11 (24-471)
