

Sole Source Procurement Request with Dave Bang & Associates

City Council Meeting

May 19, 2026

Dave Bang & Associates

- Request authorization for a service agreement with an annual not-to-exceed amount of \$250,000 for Playworld playground parts, warranty, and services.
- The majority of the City's playground equipment is manufactured by Playworld and requires manufacturer-specific components and installation.
- Dave Bang & Associates, Inc. is the exclusive authorized Playworld representative in California and the only vendor authorized to provide parts, installation, and repair services in the City's service area.
- Annual maintenance costs are anticipated to be approximately \$50,000; the higher contract amount provides flexibility for unanticipated repairs, emergency response needs, and unforeseen conditions.
- Failure to approve may result in prolonged playground closure, increased safety hazards, reduced public access to park facilities, and potential liability exposure.
