

Introduction to BreatheSafe HB

Community Opioid Response Initiative
September 2, 2025

BreathSafe HB

- What is BreatheSafe HB?
- Three-Pillar Structure
- Community Benefits

What is BreatheSafe HB?

- City-wide Opioid Response Initiative
- Help address ongoing opioid crisis
- Pro-active, community centered approach
- Funded through the California Opioid Settlements
 - Funds provided to City must comply with settlement agreements on only approved uses.
 - Funds rollover from year to year

Three-Pillar Structure

- Community Education
- Narcan Accessibility
- Advanced Treatment Protocols

Community Benefits

- Awareness
- Education
- Training
- Prevention
- Response

HOW TO RECOGNIZE AN OVERDOSE

- Not waking up
- Breathing slowly or not at all
- Lips or fingertips turning blue or gray

SPRAY Narcan

Spray into the nose if you suspect an overdose. It's safe, even if you're not sure.

BREATHE

Give two slow rescue breaths if they're not breathing. Watch the chest rise.

PUSH on the Chest

Start chest compressions.

REVERSE OVERDOSE. Save a life.
