Subject: Agenda Item #22
Date: Monday, July 6, 2020 10:21:47 AM

Good Morning Huntington Beach City Council,

I'm writing in support of item #22 on the agenda for today, July 6, 2020. I am in full support of closing the second block of main street so that more restaurants may safely serve customers outdoors in the public right of way. However, I strongly urge that this measure includes additional safety regulations including requiring businesses to have all employees wear face coverings, require all customers not seated at a table to wear face coverings, and provide clearly marked areas where pedestrians should walk, spaced away from seated patrons not wearing face coverings. These safety precautions should not only be required, but enforced. As a resident, I am hopeful we can allow our businesses to safely operate, while still protecting the public health of our residents. As our elected officials, your responsibility is not only to the businesses run within our community, but also to the health and safety of the people who live and work in Huntington Beach.

Thank you,
Elizabeth Hofeldt
Huntington Beach Resident
