8. 25-168 Department Services and Budget Overview

Mayor Pro Tem McKeon announced that many people are suggesting that every department be cut by ten percent (10%) and he noted that could be one option, however, in order to be transparent with the community and report at the granular level, Council is asking for budget presentations by every Department Head. This allows for full disclosure on the services provided and presentation of department-by-department budget considerations and pursuit of revenue generating opportunities.

City Manager Travis Hopkins introduced Chau Vu, Public Works Director, who presented a PowerPoint communication titled *Public Works Department*, with slides entitled, *Public Works Department Budget*, *Public Works General Fund Budget*, *Public Works Revenue All Funds Total - \$112,824,269*, *Organization Chart*, *Public Works Department Divisions & Services*, *Operations & Performance Data – FY 24/25 (2)*, and *Questions?*

Mayor Pro Tem McKeon and Director Chau discussed options to reduce expenditures such as shifting back some street repaving, consideration of out-sourcing selected services, tightening up expenses on contracts, and evaluating the General Fund percentage which is evaluated by the Finance Department on a five-year rolling average. Director Chau noted that Public Works currently receives \$9M in grants and an additional \$4M is coming in.

Councilmember Kennedy & Director Chau discussed additional details related to Public Works consolidating departments and how that affected the total head count, incremental budget increases over the last five years, using a mix of internal staff and outside consultants for grant writing, and reviewed the process for contracts which includes review by the City Attorney's Office.

City Manager Travis Hopkins introduced Ashley Wysocki, Director of Community & Library Services, who presented a PowerPoint communication titled *Community & Library Services Department*, with slides

entitled: *Community & Library Services Department Budget, Organizational Chart, Divisions & Services (2), Operations & Performance Data, Future Operation Considerations, and Questions?*

Mayor Pro Tem McKeon and Director Wysocki discussed the fact that Community and Library Services has the potential for the greatest revenue generation as well as greatest reduction in expenses and reviewed some of the "One Stop Shop" processes being considered to maximize use of City resources, as well as incorporating access to local business and hotel resources. There was discussion on the technology upgrades at Central Library which makes it feasible to host more events. Plans are also in the works to expand the use of Dog Beach and other City Beach areas to potentially increase revenues. Further discussion covered potential changes to reduce expenses in the Community and Library Services department.

Councilmember Kennedy and Director Wysocki discussed the cost of the annual beach parking permit and whether to consider "seasonal" permits at a lower cost; developing a "fellowship" program to assist with summer camp expenses; and increasing summer youth activity options.

Councilmember Twining and Director Wysocki noted grant applications are completed by very capable staff as there is no dedicated grant writer position.
