**Subject:** YES on Item 23-954 CalOptima

Mayor and City Council members,

I encourage you to vote YES to participate in CalOptima's Street Medicine program.

This is an excellent opportunity for the City Council to further the City's current efforts to assist people who are living on Huntington Beach's streets and who likely need medical care.

In requesting to join - and hopefully being selected to participate in the Street Medicine program, you would be enhancing everyone's health.

Do the right thing and vote YES to participate.

Paula Schaefer, HB resident
