RE: MOU Huntington Beach Central Park Conservancy, Termination Request

Dear Mr. Vigliotta and Ms. Theel,

We hope this message find you well. We are writing to inform you that, after months and months of careful consideration, The Huntington Beach Central Park Conservancy has decided to terminate the organization effective immediately. Steps have already been taken to legally close the non-profit organization.

The decision was not made lightly, and it follows an evaluation of lack of time for fundraising activities and objectives. The principals of the organization have other priorities and myself have had numerous health issues.

We were the first and only organization to bring Park Rangers to Central Park. We appreciate the support and collaboration from all stakeholders involved throughout the project's duration.

Respectfully submitted,

Jean Posey, President HBCPC
