

MINUTES FINANCE COMMISSION MEETING

Wednesday, February 26, 2025 - 5:00 p.m. City of Huntington Beach Council Chambers Huntington Beach, CA 92648

For the audio recording of the February 26, 2025, Finance Commission Special Meeting, please visit the City's website at: <u>https://huntingtonbeach.legistar.com/Calendar.aspx</u>

Chair Kelly Gates called the meeting to order at 5:00 p.m. and led the Pledge of Allegiance.

MEMBERS PRESENT:	Kelly Gates, Chair Frank Lo Grasso, Vice-Chair David Cicerone, Commissioner Billy Hamilton, Commissioner
MEMBERS ABSENT:	Scott Dowds, Commissioner Paul Geery, Commissioner
STAFF PRESENT	Travis Hopkins, Acting City Manager David Cain, Interim Chief Financial Officer Serena Bubenheim, Assistant Chief Financial Officer Thuy Vi, Management Aide, Finance Shari Saraye, Buyer Jessica Castro, Accounting Technician

PUBLIC COMMENTS

Joe Pulido spoke on the Long-Range Financial plan and the budget deficit.

Ken Inouye spoke on the infrastructure report and suggests the City create an independent ad hoc committee to address the issues on the report.

CONSENT ITEMS

Approval of Meeting Minutes

Motion: Moved by Commissioner Frank Lo Grasso and seconded by Commissioner Billy Hamilton to approve the Finance Commission Meeting Minutes dated January 22, 2025, as presented

The motion carried by the following votes: 4-0-2 Ayes: Cicerone; Gates; Hamilton; Lo Grasso Noes: None Absent: Dowds; Geery

DISCUSSION ITEMS AND POTENTIAL RECOMMENDATIONS

Interim Chief Financial Officer David Cain requested that items D1and D5 be discussed out of order.

D2. Long Range Financial Plan (LRFP) Overview – Cain

Jim Morris of Urban Futures Inc. (UFI) presented the long-range financial forecast model developed for the City. The model integrates economic data, historical financial data, and revenue/expense projections for the next 10 years.

D3. Unfunded Pension Liability Letter to City Council – Hamilton

Commissioner Hamilton introduced a draft letter addressing the City's unfunded pension liability (UAL). The letter suggests exploring options such as shifting new employees to a defined contribution plan to address the growing liability.

Motion: Moved by Commissioner Billy Hamilton and seconded by Commissioner Frank Lo Grasso to send the Unfunded Pension Liability letter to the City Council with minor revisions

The motion carried by the following votes: 4-0-2

Ayes: Cicerone; Gates; Hamilton; Lo Grasso

Noes: None

Absent: Dowds; Geery

D4. Friends of the Library Memo to City Council - Lo Grasso

Commissioner LoGrasso provided a draft memo regarding the Friends of the Library (FOTL). He noted that the FOTL is operating without an agreement with the City and recommends creating a Memorandum of Understanding (MOU) to formalize their operations.

Motion: Moved by Commissioner Frank Lo Grasso and seconded by Chair Kelly Gates to send the Friends of the Library letter to the City Council

The motion carried by the following votes: 4-0-2 Ayes: Cicerone; Gates; Hamilton; Lo Grasso Noes: None Absent: Dowds; Geery

D6. Review of City Leases - Gates/Cicerone

Chair Gates requested a review of City-owned lease agreements by the City's lease officer at a future meeting.

D7. Arcis Outstanding Balance and Collection Efforts - Cicerone

David Cicerone asked for an update on the outstanding balance with Arcis, Meadowlark Golf Course operator. Acting City Manager Travis Hopkins stated that Arcis has been billed for the outstanding amount with late fees.

D8. Ad Hoc Committee to Review City Financial Reporting and Timing Schedule - Cicerone

Commissioner Cicerone proposed the formation of an ad hoc committee to review the City's financial reporting and improve transparency. The item was tabled for discussion at the March meeting.

D5. Review of Visit HB Operations - Cicerone

This item was tabled for discussion at a future meeting.

D1. Mid-Year Budget Adjustments - Cain

Assistant Chief Financial Officer Serena Bubenheim presented the City Council approved mid-year budget adjustments, including transfers from Community and Library Services, Fire Department, Public Works, and Police.

COMMISSIONER COMMENTS

Cicerone opened the comments by thanking everyone for their hard work and expressed desire to review financial information before it is presented to the City Council.

Gates thanked everyone for their efforts and appreciated the collaboration.

Hamilton thanked everyone for their work. He requested that Elan and The Breakwater apartments be put on the March meeting agenda so that he could discuss his findings.

ADJOURNMENT

Motion: Moved by Commissioner Billy Hamilton and seconded by Commissioner Frank Lo Grasso to adjourn the meeting at 7:44 p.m.

The motion carried by the following votes: 4-0-2 Ayes: Cicerone; Gates; Hamilton; Lo Grasso Noes: None Absent: Dowds; Geery

Submitted by: David Cain, Interim Chief Financial Officer By: Jessica Castro, Accounting Technician

Overview of the California Rule Related

to Employee Pensions

The California Rule is a legal doctrine that protects public employee pensions in California. It states that public employees are entitled to the pension benefits that were in place when they were hired.

How does the California Rule work?

- The California Rule treats public employee pension contracts as contracts that protect benefits earned and guarantee at least as generous terms for the duration of employment.
- The California Rule prevents reductions to pension benefits, even for future service, except in limited circumstances.
- The California Rule requires that any modifications to pension benefits be accompanied by comparable new advantages.

How has the California Rule been affected by legislation?

- The Public Employees' Pension Reform Act (PEPRA) of 2013 changed the way CalPERS retirement and health benefits are applied.
- In 2020, the California Supreme Court upheld PEPRA, which reduced the potential retirement income of government employees hired after 2013.

The California Rule is one of the strongest legal protections for public employee pensions in the state.

Overview of California City Bankruptcies Impact on Employee Pensions

Explanation to question about "Did any California Bankruptcies impair employee pensions"?

No, California cities that filed for bankruptcy did not impair pensions in the same way that some other cities did in other states.

San Bernardino

After filing for bankruptcy in 2012, San Bernardino agreed to repay CalPERS with interest and a penalty. The city's exit plan did not include cutting pensions.

Stockton

In 2014, a federal judge ruled that bankruptcy law supersedes California laws that protect pension funds. However, the city was able to reorganize its debt without cutting pensions.

Vallejo

This city cut health-care benefits and laid off public-safety workers to deal with its pension obligations.

In general, bankruptcy law allows cities to reject pension agreements and adjust pensions. However, some cities have been able to avoid cutting pensions through mediation or reorganization.

BK did impair employees retiree medical benefits.

About the Rethinking Budgeting Initiative

Local governments have long relied on incremental, line item budgeting where last year's budget becomes next year's budget with changes around the margin. Though this form of budgeting has its advantages and can be useful under circumstances of stability, it also has important disadvantages. The primary disadvantage is that it causes local governments to be slow to adapt to changing conditions. The premise of the <u>Rethinking Budgeting</u> initiative is that the public finance profession has an opportunity to update local government budgeting practices to take advantage of new ways of thinking, new technologies, and to better meet the changing needs of communities. The Rethinking Budgeting initiative will raise new and interesting ideas like those featured in this paper and will produce guidance for state and local policy makers on how to local government budget systems can be adapted to today's needs. We hope the ideas presented in this paper will spur conversation about the possibilities for rethinking budgeting. The Rethinking Revenue initiative is a collaborative effort between the Government Finance Officers Association (GFOA) and International City/County Management Association (ICMA).

ocal governments have developed their budgets in essentially the same way for decades. The essence of the traditional approach is, first, that the budget is incremental. This means that last year's budget becomes next year's budget with changes at the margin. Second, the budget is built around line items—categories of spending like personnel, commodities, and contractual services, which are then grouped into departments and funds. People have criticized this approach for almost as long as it has been in use with local governments.

One of the most prominent criticisms is that *past decisions are frozen in place past the point at which they are affordable or relevant.* Once a change is made to the budget, the change is carried over to successive budgets. Let's illustrate with an example that is not uncommon in traditional budgeting. If a department gets a grant from, say, state or federal government to increase staffing for a few years, those positions come to be regarded as part of the department's baseline budget. Once the grant ends, the expenditure continues to be funded without an evaluation of whether those positions are creating sufficient value for the community to justify the cost. This same phenomenon occurs more widely but more subtly when entire budgets are carried forward and inflated from year to year without a good understanding of what services are being provided, at what cost, and for what benefit. This "layering on" effect contributes to financial distress and is a suboptimal allocation of resources. There are also more complex examples with further-reaching implications that GFOA has documented elsewhere.¹

Another criticism is that the *traditional budget is not strategic*. Spending is allocated to line items that concern the day-to-day operations of government. Line items like "travel," "supplies" or "miscellaneous" don't speak to how spending impacts big-picture results like public safety, mobility, health, etc. Also, historical precedent is the primary determinant of how much money is allocated to each line item. This is backward-looking, not forwardlooking. All of this means that the budget process is not well suited to handle big-picture and/or emerging issues. In traditional budgeting, historical precedent is the primary determinant of how much money is allocated to each line item. **This is backward-looking, not forward-looking.** For example, local governments may be slow in adopting new and better methods of operating and have trouble coordinating multidisciplinary solutions to complex problems. This means that the local budget may become increasingly disconnected from evolving community needs and priorities over time. A well known example is that fires are less common than they used to be due to improved building codes and better construction methods. Nevertheless, city governments have been slow to adapt public safety spending away from fire response to more pressing issues. In many communities, a more pressing need is emergency medical services (EMS), due to an aging population. The changing building stock and age of the population unfolded over several years, yet municipal budgets were still slow to respond. We can easily appreciate that the traditional budget would not do any better in responding to more rapidly evolving situations.

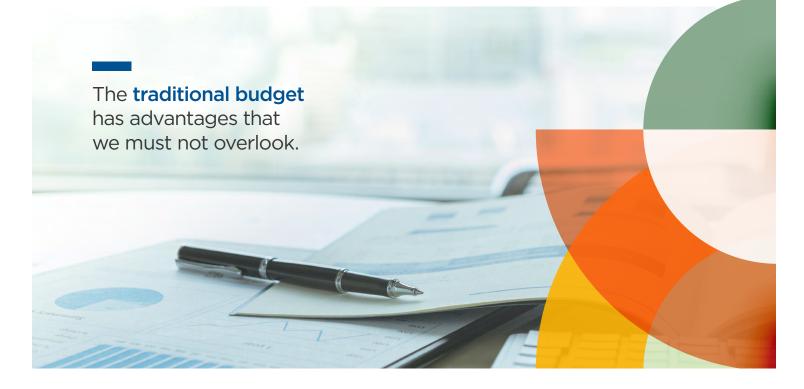

If success in the budget "game" is defined by **inputs and outputs (rather than outcomes)**,

then self-interested, zero-sum behaviors are likely to result. A final criticism we will cover is that *traditional budgeting is a "zero-sum game."* This means that for one party to win, someone else must lose. In the context of budgeting, this means, for example, that for one department to get more funding, another department must get less. Critically, in traditional budgeting, this is seen as a win for one department and a loss for the other. A zero-sum game promotes power dynamics that favor maintaining the status quo and encourages self-interested decision-making.

Zero-sum thinking makes it difficult to address problems that require collaboration across participants in the budget. Collaboration is required to accomplish **outcomes** that make life better for communities, like reducing violent crime, increasing

economic opportunity, or improving public health. Traditional budgeting focuses participants primarily on **inputs** and secondarily on **outputs**. Inputs are the money in each line item and staffing in each department. Outputs are the services a department produces with the resources they get. If success in the budget "game" is defined by inputs and outputs (rather than outcomes), then self-interested, zero-sum behaviors are likely to result. This game also encourages departmental budget "silos," where departments don't consider the potential to work with people outside of their boundaries and take on an insular attitude about the services (and budget) the department provides.

These criticisms have led to some attempts to do budgeting better. Two widely recognized innovations are **zero-base budgeting** and **priority-based budgeting**.* A number of intrepid local governments have tried these methods with varying degrees of success and staying power. Among the majority of local governments, however, the traditional budget has endured...and for good reasons. The traditional budget has advantages that we must not overlook:²

- Simplicity. Because budgeting is done at the margins, incrementally, it is easier to understand and calculate. Because it does not address larger, strategic issues, the budget process is able to be less demanding of participants' time and attention than a comprehensive process would be.
- Control. Individual line items provide easy-to-understand accountability: Did the line item get overspent or not? Also, incrementalism means the budget is not subject to radical changes from year to year. Radical change, almost by definition, risks getting out of control.
- Predictability. Historical precedent is often a widely accepted justification for decisions.
 Relying on historical precedent sets the expectations of participants in the budget process.
 This attenuates conflict and reduces uncertainty among stakeholders.
- → Flexibility. Because the budget is not oriented toward overarching strategic objectives, public officials can more easily change their goals. In other words, because the budget has not been committed to any particular strategic direction, public officials have more flexibility to declare new policies.

So what leads us to believe Rethinking Budgeting is a good idea? If prior efforts at new ways of budgeting have met with limited success and the traditional budget has important advantages, why would Rethinking Budgeting be worthwhile?

Let's consider the context in which budgeting takes place today. All the criticisms of traditional budgeting we described earlier are as valid as ever, but there are three forces that make traditional budgeting less tenable than in the past.

*"Budgeting for Outcomes" is a variety of priority-based budgeting that some readers may be familiar with.

Threats to the Status Quo

First, is *stagnant or diminishing resources available to local governments*. Much of the traditional budget's success rests on distributing budget increases to enough stakeholders to maintain a stable governing coalition. However, the traditional budget does not have a good answer to resource declines. This is why we see across-the-board cuts as a common response to fiscal distress: Everyone is cut evenly. However, this does not optimally size or shape government to the conditions it faces. In fact, the two budgeting innovations we mentioned earlier, zero-base budgeting and priority-based budgeting, were a direct response to the inability of the traditional budget to cope with declining resources. Looking into the future, there are serious questions about local government's ability to raise more revenue: Will the economy support it? Will citizenry support it?^{*,3} GFOA's <u>Rethinking Revenue</u> initiative is intended to help modernize local government revenue systems, but it is also important that government spending plans be more adaptable to resource-constrained environments.

Conflict is the second force. The defining conflict of our times is political polarization. During the heyday of the traditional budget, the 1950s through the 1970s, cross-party collaboration was almost at an all-time high of modern history (only exceeded by the period during World War II). We see this in Exhibit 1, which shows cross-party collaboration in the U.S. Congress from 1895 to 2017.** We also see today that cross-party collaboration has reached all-time lows.

Political conflict is not limited to federal government officials. It affects the general public, too. As one group of political scientists put it, "the most significant fault line in the second decade of the twenty-first century [in America] is not race, religion, or economic status but political party affiliation."⁴ This has expressed itself in civic activities, like a precipitous decline in split-ticket voting,⁵ as well as personal choices. For instance, political affiliation is becoming a more important factor in choosing marriage partners than even education or religion.⁶ In such an environment, political polarization can't help but threaten local government as well, even if elections are nonpartisan.⁷

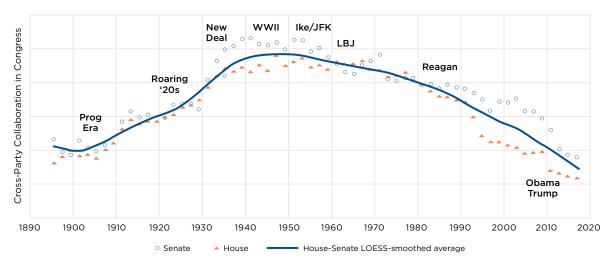

EXHIBIT 1 | CROSS-PARTY COLLABORATION IN THE U.S. CONGRESS FROM 1895 TO 20178

Source: Putnam, et al. The Upswing. 2020.

* Economic growth rates have slowed significantly after 1970, falling below the long-term rate of 2 percent a year. Thus, steady material progress may no longer be the guarantee it once seemed (see endnote 3 for support). It follows that if economic growth is no longer growing as it once was, then local government revenues will no longer grow as they once did. Further analysis of the limits of the local government revenue system are available in "Rethinking Local Government Revenue Systems: Why is it Necessary?" published by the Government Finance Officers Association (October 2021). https://www.gfoa.org/materials/rethinking-local-government-revenue-systems

**This chart is a synthesis of widely accepted, if imperfect, measures of polarization in the U.S. Congress. For more information, see: Putnam, Robert D.; Romney Garrett, Shaylyn (October 13, 2020). *The upswing: How America came together a century ago and how we can do it again.* Simon & Schuster.

Declining trust has accompanied heightened political conflict. For example, when people in 1964 were asked whether the government was run on behalf of (1) "a few big interests" or (2) "the benefit of all," Americans favored option 2, 64 percent to 29 percent. By 2018, those numbers had more than completely reversed: Option 2 garnered only 21 percent versus 76 percent for option 1.⁹ This decline in trust is not limited to the political system. Surveys show that in the early 1960s nearly two-thirds of Americans trusted other people, but by the 2020s only one-third did.¹⁰

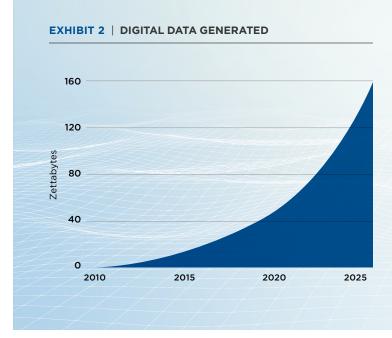

The traditional budget lessens conflict by relying on historical precedent. However, in an environment of markedly lower trust, where many people no longer believe that others have their best interests in mind, people may not be willing to accept historical precedent as a justification for how resources are distributed.

The third force is *volatility*. Perhaps the most important source of volatility that the modern budget must contend with is information. The amount of information and access to it has been increasing exponentially over the past decades. The year 2001 produced double the amount of data* that had been produced in the history of mankind. 2002 doubled 2001.¹¹ These nonlinear increases have continued since then, and the trend is expected to continue into the future, as shown in Exhibit 2.¹²

In recent years, this phenomenon seems to have reached a threshold point, where new ideas and organizational forms^{**} can rapidly spread to a point where they are adopted by a critical mass of people. The result is rapid changes in public opinion and consequent demands on institutions. For instance, the role of social media in catalyzing social unrest and coordinating protest organizations has been well documented.¹³ This *volatility* challenges the stability of established organizations. For example, the average life span of a company on the S&P 500 has shrunk from almost 60 years in the 1950s down to around 20 years currently.¹⁴

*Includes all sources of data: electronic, paper, stone tablets, etc.

**Primarily, this refers to network organizations. These are organizations that don't have a hierarchical structure.

In recent years, this phenomenon seems to have reached a threshold point, where **new ideas and organizational forms** can rapidly spread to a point where they are adopted by a critical mass of people.

Source: IDC's Data Age 2025 study, sponsored by Seagate, April 2017

Of course, local governments can't go "out of business" like private firms. But local governments still require legitimacy to accomplish their mission. If they lose legitimacy, then they may risk being displaced by alternatives, like privatization, nonprofits, or other organizational forms.* The traditional budget is unsuited to provide legitimacy in this new and volatile information environment.¹⁵ First, the traditional budget relies on historical precedent for much of its legitimacy. **New** information and ideas, by definition, do not defer to historical precedent. Second, the traditional budget does not have a good means for getting feedback from an environment that is subject to rapid change, much less a means for changing if and when the need to do so is identified. For example, the traditional budget is organized by line items and departments, which are intended primarily to facilitate control of traditional spending plans.

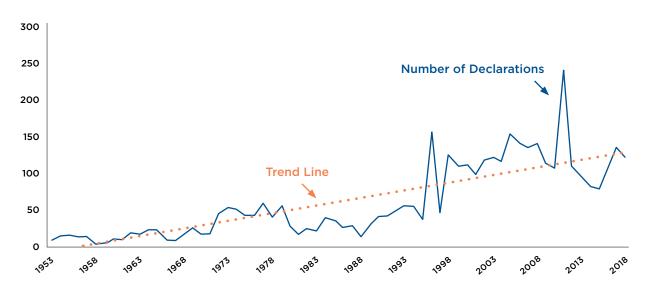

EXHIBIT 3 | NUMBER OF U.S. PRESIDENTIALLY DECLARED DISASTERS

Not all *volatility* is caused by the "information tsunami" we just described.¹⁶ The increasing frequency of literal extreme weather events (see Exhibit 3),** for example, challenge local budgets and introduce new sources of instability into financial planning. The number of declared disasters has increased faster than the rate of population growth. Additionally, research shows that there is also a trend of increasing aggregate financial losses from disasters.¹⁷ COVID-19 is another example of volatility, where increased global connectedness aided the spread of the disease and disrupted supply chains. Traditional budgets that assume the future will always look like the past are not well suited to volatile conditions.

^{*} This is not to suggest that other organizational forms are "bad" or somehow undesirable. In fact, GFOA has written extensively about the value communities can realize by pursuing new and better forms of governance that combine the strengths of government with the strengths of other sectors. However, we suggest that a thoughtful, intentional evolution toward these different forms is preferable to government being displaced by them due to loss of legitimacy.

^{**}The authors of the study used to create Exhibit 3 believe that increase in the number of presidentially declared disasters has several causes, including global climate change, increased urbanization, and increased asset values in risky geographic areas.

Positive Forces for Change

Not all developments that favor a rethinking of the traditional budget are threats. There have been several positive developments that give us a greater chance of success than budget reformers in decades past. Four things we know to be different today could be important levers for making change.

We have different mental models. A mental model is a representation of how something works.¹⁸ The common mental model for traditional budgeting is the zero-sum game, where for one person to win, another must lose. This will lead to predictable and undesirable behaviors, such as padding budgets or exaggerating the risks of budget reductions or the resources needed to accomplish some task. GFOA's <u>Financial Foundations for Thriving Communities</u> body of research offers a new mental model that suggests different, more adaptive behaviors. The <u>Financial Foundations Framework</u> is based on a Nobel Prize-winning body of work about how to solve the challenges inherent in managing shared, publicly owned resources like a local government budget.¹⁹ It offers five "pillars" for thinking through shared resource problems like those commonly found in public budgeting (see Exhibit 4) and reaching sustainable decisions. The Financial Foundations mental model isn't "new" to the world. The underlying ideas have been widely used in other fields, like natural resource management. It is, though, new to public finance. This new model can help us understand the problems involved in budgeting by uncovering blind spots we may have and revealing the forces underlying the problems.

We have a better understanding of how people make decisions. Primarily, this means we have a better understanding of the limits of rationality. All people engage in predictably irrational decision-making, commonly called "cognitive biases." Scientific research on this topic has gained a lot of attention in recent years (including two Nobel Prizes²⁰), bringing more recognition of the role of irrationality in decision-making and the settings that might encourage or discourage irrationality. For example, one of the more important types of cognitive biases is

EXHIBIT 4 | THE FINANCIAL FOUNDATIONS FRAMEWORK

"overconfidence bias." This means that we underestimate future uncertainty, leading us to fail to question the assumptions behind our budget plans or look for reasons why our plans might be flawed. Another example is overestimating our ability to get X done with only Y dollars.

By understanding cognitive biases and <u>harnessing the power of behavioral science</u>, we can design better decision-making systems. Because our faculties for rational decision-making are limited, a comprehensively rational approach to budgeting will be difficult to implement, much less maintain over multiple years. Zero-base budgeting, for example, attempts make budgeting comprehensively rational, and, predictably, has met with limited success.²¹ As an alternative to comprehensively rational decision-making, people tend to rely more on decision-making rules of thumb. One common rule of thumb or mental shortcut used in all walks of life is to piggyback on what you already know. Hence, the traditional budget asks, "What worked last year?" Knowing that the mind works this way allows us to ask, "What might the new but better mental shortcut be to support good budgeting decisions?"

Technology reduces communication and production costs. Technology makes it easier to move information around networks of people and cheaper to produce that information. Technology has grown in power and availability over the years.

Technology can be used to create interactive simulations of budgeting decisions. For example, participants in the budget process could see how much different combinations of public services cost and what benefits would be produced. Or simulations could be used to show uncertainty in revenue forecasts and help participants better understand the risk of running a deficit under various spending scenarios. Interactivity helps people get their minds around complex phenomena more easily.²² Simulations might help engage our rational thinking capacity and, ultimately, shape our intuitions. Simulation also might help reduce overconfidence about how the future will turn out.

Also, technology can communicate information instantly and at a low cost. Large numbers of people (inside or outside of government) can get access to the same information at the same time.

As a final example, technology can reduce the cost of administering the budget. A big point in favor of line-item incremental budgeting, historically, was that the paperwork required was much less than the alternatives. "Paperwork" should not be an issue today. This is not to say line items are obsolete—just that technology does not **necessitate** line-item budgeting. Technology allows calculations to be made more easily now.

 \rightarrow More awareness of issues of fairness in the budget.

The conventional budget decreases or avoids conflict by relying on historical precedent. In decades past, however, income inequalities were far less and median real wages had been growing for many years.²³ Also, back then, people were not as aware of (or perhaps less concerned about) racial disparities.²⁴ So, in the past, some potential conflicts were less acute and/or local governments were comfortable ignoring them. Today, it seems more people are interested in addressing these conflicts and are less willing to accept conditions that are regarded as unfair. Therefore, avoiding conflict is More attention to fairness in the budget could play a role in positively influencing some of the most important potential conflicts of our time.

not really an option. The only good option is to handle it constructively. Hence, better budgeting and more attention to <u>fairness in the budget</u> could play a role in positively influencing some of the most important potential conflicts of our time.

What is Our Plan for Rethinking Budgeting?

The budget is, arguably, the most important policy a local government produces. It describes how government's limited resources will be used and who gets those resources. A policy that important can be difficult and complicated to do well. A time-honored method for tackling a difficult problem is to break it down into smaller parts. Hence, we will break budgeting down into three parts:

- (\rightarrow) **Planning** is articulating a desired future state for the organization.
- \rightarrow **Budgeting** is allocating a local government's limited resources.
- Monitoring/reporting is making sure that the commitments made during planning and budgeting are lived up to and maintaining an understanding of the environment.

We have convened a **group of officials** from local governments of all types and sizes across North America. They are joined by <u>leading academics</u> who study public budgeting. Along with GFOA staff, they will conduct a deep investigation of key weaknesses of the conventional local government approach to planning, budgeting, and monitoring/reporting. They will then seek innovative alternatives by using design methods commonly used in other fields, where innovation is a requirement for survival, and by looking outside of public finance, to other disciplines and fields of study, for inspiration.

Perhaps the most important of these design methods is called "first principles thinking." First principles thinking means we base our ideas on the most essential elements of what we know to be true (first principles) about planning, budgeting, and monitoring. Breaking the problem of Rethinking Budgeting down to essentials and then rethinking from the ground up is one of the best ways to find new, creative solutions. The three bullets about planning, budgeting, and monitoring are first principles. We can start with these premises and remove the conventions that have built up around them over time. To that, we bring into consideration what we know to be true, based on evidence. This includes things we described earlier, like the four positive forces for change, threats to the status quo, and features of the traditional budget that account for its staying power. First principles thinking has been used to solve difficult problems from the time of Aristotle to the giants of technology and finance in today's world.²⁵

The alternative to first principles thinking is reasoning by analogy. An example is to ask: "What have we done traditionally?" An important premise of this project is that what we have done traditionally is of limited usefulness for finding our way forward. By first describing what is different today and by defining the core elements of the budget (planning, budgeting, and monitoring), we have the building blocks for our recommendations.

An Illustration of a First Principles Inquiry into the Purpose of Budgeting:

- What does the society need that local government decides it can produce on its own or in partnership with others?
- How far can **current resources** go to pursue those needs?
- Where can the local government go to identify and bring in **new resources**, if needed?
- What is the investment plan that produces the intended outcomes?

By identifying and considering these basic questions, we can find new answers.

Also, as we rethink the budget, we must remain mindful of the advantages of the traditional budget. If a "rethought" approach does not compare favorably to the traditional budget on the characteristics of simplicity, control, predictability, and flexibility, then that rethought approach will not get far.

As of this writing, the Rethinking Budgeting team has already articulated three ideas for rethinking the "planning" aspect of budgeting. Below is a short description of each idea and a link to additional resources on the idea.

- → **Define the problem.** The traditional budget and planning process is ill-equipped to deal with the complex problems created by volatility and conflict. We show why complex problems frustrate traditional budgeting and planning, outline the principles for designing a process to define problems more deeply, and, finally, provide an illustration of a process to define problems before solutions. Defining problems more deeply helps people feel a greater sense of *control* and *predictability* over complex problems.
- → Rethinking strategic planning. Strategic planning is a long-standing "best practice" in public finance. However, strategic planning, as it is commonly practiced, has significant limitations. We highlight the flaws in some of the basic underlying assumptions of traditional strategic planning and propose a new approach that is better able to meet the challenges faced by governments today. The approach we suggest promotes more adaptability in strategic plans, which might serve as a substitute for the *flexibility* of the traditional budget.

 (\rightarrow) **Rethinking public engagement.** Public engagement is essential for gathering feedback to inform the size and shape of the budget. However, public engagement as it is conventionally practiced is too little, too late. It happens at the end of the budget process when decisions have already been made and it is limited to a public hearing or two, which often amounts to little more than an opportunity for citizens to air their grievances at a microphone. We suggest a new set of principles to design better public engagement that happens early enough to provide feedback that can influence later resource allocation decisions. More public engagement, at first, would seem to work against simplicity and, perhaps, control. However, building more feedback into the budget process should better align the budget with public sentiment. This should, ultimately, reduce conflict and give government officials more predictability in how the public will react to government's spending plans.

HOW CAN YOU STAY INVOLVED?

If you'd like to be kept abreast of the latest developments and join the discussion about **Rethinking Budgeting**, join the **GFOA community forum** or **join our mailing list**. We will announce new research reports, web conferences, events and resources, and how you can get directly involved. We believe the local government is at a crossroads. The path of the status quo seems increasingly untenable. A new path, however, offers the potential for local governments to help their communities thrive in our rapidly changing world.

Appropriation Increases – Other Funds

Infrastructure Fund (314)

• \$30,000 to conduct an underground investigation of the Sports Complex driveway. Over the past year, the sinking driveway has gotten much worse due to rainwater erosion. Based on the results of the investigation, the cost for stabilization and repairs will be included in the FY 2025/26 CIP Budget. There is sufficient available fund balance in the Infrastructure Fund to support this request.

Water and Sewer Funds (506 and 511)

\$734,480 for the Warner Avenue emergency sinkhole repair. In June 2024, a sinkhole collapsed and damaged the sewer pipeline between Magnolia and Ross on Warner Avenue. Emergency repair work for the pipeline and street began in September 2024 and was completed within six weeks. The costs will be split between the Water and Sewer Funds (\$367,240 appropriation in each fund). There is sufficient available fund balance in each fund to support the request.

5

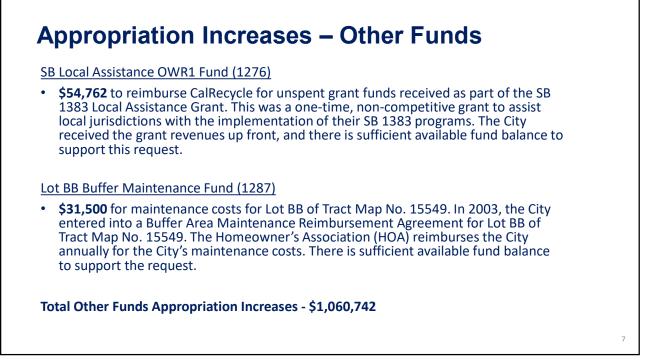

Appropriation Increases – Other Funds

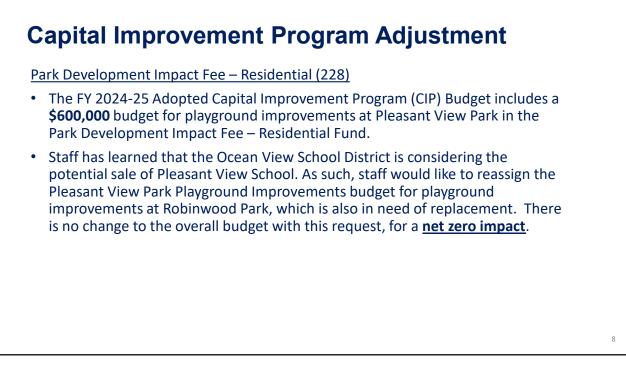

Sewer Fund (511)

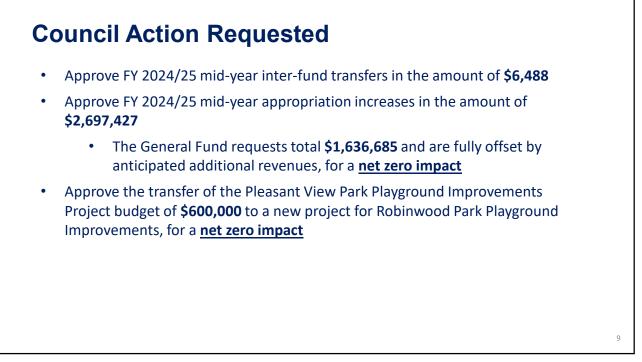

• **\$90,000** to cover remaining costs related to the Edinger Avenue Sewer Project. Once the project started, it was found that a materials testing company and construction management consultant were needed to ensure timely completion. The work has been finished and additional funding is needed to cover the remaining costs and close out the project. There is sufficient available fund balance in the Sewer Fund to support this request.

Supplemental Law Enforcement Services Fund (984)

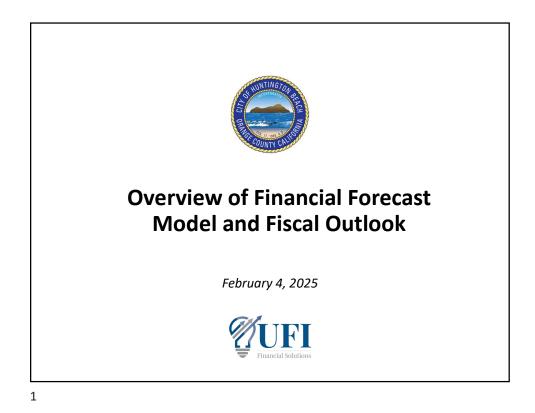

• **\$120,00** for the purchase and installation of a searchlight for one helicopter. The current searchlight is over ten years old and is failing on a consistent basis. Searchlights are essential for officer safety when performing public safety functions during nighttime hours. There is sufficient available fund balance in the Supplemental Law Enforcement Services Fund to support this request.

What-If Forecasting Enhances Prioritization & Accountability

California cities operate within a highly-constrained revenue environment. With no rate-making authority and no taxing authority without voter approval, cities must largely operate within an existing revenue structure. This makes revenue forecasting essential for good fiscal management.

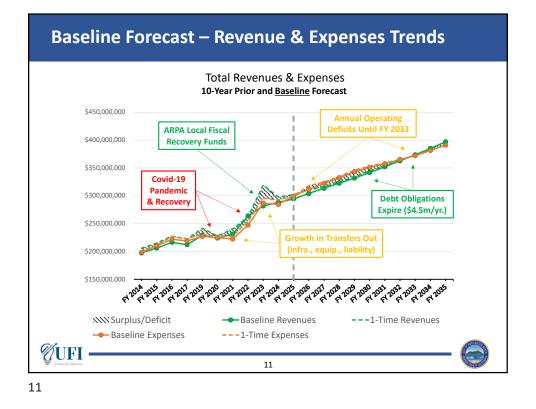

However, revenue forecasting alone is insufficient. Forecast modeling with "what-if" scenario capacity enables cities to evaluate and align competing community priorities with constrained revenue capacity, enhancing accountability based on transparent and deliverable outcomes.

 To:
 Huntington Beach City Council

 From:
 Huntington Beach Finance Commission

 Date:
 February 24, 2025

The City of Huntington Beach Finance Commission respectfully requests the City of Huntington Beach City Council (City Council) to assess different ways and take active steps to reduce the Unfunded Pension Liability.

According to the 2024 Audited Financial Statements, the Net Pension Liability of the City's Defined Benefit Pension Plans increased from a liability of \$161 million at the beginning of the year to a liability of \$193 million at the end of the year, which is an *increase liability of \$32 million* in a single year. These losses are projected to continue and accelerate in the future, which has the distinct possibility of leading the City into insolvency and eventual bankruptcy.

In 2021, the then City Council issued \$360 million in Pension Obligation Bonds (POB) in order to pay down the existing Unfunded Pension Liability. Two years after using the bond funds to pay down the existing Unfunded Pension Liability, the City is once again underfunded and has an Unfunded Pension Liability of over \$100 million. This is due to CalPERs below market returns and the unsustainable nature of Defined Benefit Pension Plans. These funds are gone, the Defined Benefit Plan is still underfunded, which puts the City in a position to service the POB bonds in addition to the outlay of the Unfunded Pension Liability. Simply adding money to the Pension fund does not solve the problem. The root-cause of this issue is that Defined Benefit Pension Plans are 'unsustainable and unaffordable'. The City Council must address the root-cause and reduce the use of the Defined Benefit Pension Plan.

Below are various suggestions that the City Council could use to reduce the Unfunded Pension Liability. These are high-level summaries of ideas but the City Council should have a thorough and thoughtful process before proceeding with a change. We recognize that this is a very difficult matter with many factors influencing your decision, but the issue must be addressed.

- Make a charter amendment that during the budgeting process, the City must add the entire Unfunded Pension Liability into the current
 year budget and find ways to balance the budget in the given year. In the interim, a mandatory headcount reduction equivalent to the
 expected UAL deficit be incorporated into the annual budgeting process.
- All new employees are automatically included in a Defined Contribution Plan, only. If an employee requires to be part of the Defined Benefit Plan, all members of City Council must approve the employee's addition.
- The City Council could sell bonds to buy out of CalPERS completely, approximately \$2.5 billion. Afterward, all new employees would be on a Defined Contribution Plan reducing the reliance on the Defined Benefit Plan. The City must service those bonds in the future, similar to the POB bonds issued in 2021 but would not compete with the Pension costs. It is further suggested that before issuing any bond for this pay off, the city attorney addresses the legality of CalPERs requiring this pay off in the first place.
- Outsourcing more employees and possibly entire departments would reduce the headcount of the city, thus reducing new members into the pension plan.
- Incorporate a complete review of current IT systems and software applications with the intent to improve functionality, efficiency, reporting and management control/audit, which would allow the City to reduce it's staff.
- Initiate a "layers & spans" analysis in order to establish a reorganization and/or restructuring of the city staff.

According to Lesson Two from James Spiotto in his 2014 MuniNet Guide article of November 2014 "Lessons Learned from the Detroit Bankruptcy" labor and pension contracts under state constitutional and statutory provisions should not be interpreted as a suicide pact.

Lessons Learned from the Detroit Bankruptcy

Nov 10, 2014 | Municipal Bankruptcy, Municipal Bankruptcy and Default, Municipal Finance

by James Spiotto

In July of 2013, Detroit was the first city that was the largest city in the state to seek protection under Chapter 9 of the Bankruptcy Code for municipal debt adjustment. Previously, Chapter 9 had been a remedy used rarely by any city, town, village or county. In the past, the largest cities such as New York City in 1975, Cleveland in 1978 and Philadelphia in 1991 had received assistance from their states in the form of loans, grants or transfer of services to other governmental entities. Such state assistance made Chapter 9 unnecessary by increasing cash liquidity, reducing expenses and providing financial oversight, support and guidance to help those cities refinance debt, address systemic problems and solve financial difficulties.

On November 7, 2014, the Court confirmed the Plan of Debt Adjustment for Detroit.

Since 1937 and the enactment of Chapter 9, there have been 660 cases filed. Chapter 9 is simply a process of debt restructuring to give a municipality breathing room so that it may implement a recovery plan that will allow it to reinvest in the municipality, stimulate its economy, create new jobs, attract new businesses and residents, add to its taxpayers and increase its revenues to create an economic recovery.

The fact that Detroit has confirmed a Plan of Debt Adjustment is one important step in a longer process of recovery. At this stage, we are not able to say with absolute certainty that Detroit, having confirmed a Plan of Debt Adjustment, will make full recovery. Hopefully, that will be the case through the hard work of its mayor and city council, its citizens and taxpayers to attract new business and new residents and to resurrect the City to where it

was in its past economic greatness. We are able at this time to note that the Detroit experience has been constructive in offering a number of important lessons that all of us should consider.

Lesson One: Do not defer funding of essential services and infrastructure.

Detroit is a wake-up call for others that there is never a good reason to defer funding of essential services and infrastructure at an acceptable level. If you do, Detroit's fate will be yours.

Detroit's history reflects the unfortunate situation that as essential services and infrastructure erode, business and residents leave, and the tax base is reduced so that, no matter how high you raise taxes, they are insufficient to cover the needed investment in essential services and infrastructure.

Probably one of the most beneficial outcomes from the Detroit filing has been that other municipalities who are suffering financial distress have seen the time, expense, uncertainty and political or social unrest that the Chapter 9 process has caused in Detroit and have recognized the Detroit experience as a wake-up call. Namely, others have realized every city must make sure that essential services are at a level that attracts business and new residents, that infrastructure supports an economic base so that goods, services and employees can move in that system with appropriate efficiency, that the work force is educated to the needs of the business community, and that all have a well-deserved feeling of safety and protection given the services provided.

Detroit's history reflects the unfortunate situation that as essential services and infrastructure erode, business and residents leave, and the tax base is reduced so that, no matter how high you raise taxes, they are insufficient to cover the needed investment in essential services and infrastructure. Accordingly, it is interesting to note that since Detroit filed in July 2013, no city, town, village or county has filed for Chapter 9. As can be noted, numerous cities have attempted to address their problems in the meantime and to find solutions that do not result in a filing for a Chapter 9 municipal debt adjustment. The prophecy that, after Detroit, others would quickly follow in filing Chapter 9s, has apparently proven false. In fact, Detroit taught other municipalities that they must promptly and efficiently deal with and effectively support essential services and infrastructure and reinvestment in the municipality to prevent any economic downturn.

<u>Lesson Two:</u> Labor and pension contracts under state constitutional and statutory provisions should not be interpreted as a suicide pact.

It appears one of the reasons why resolution of pension and labor costs was not achieved in Detroit prior to filing Chapter 9 was the belief of the workers and retirees that, under the Michigan constitution, those contractual rights could not be impaired or diminished to any degree. This position failed to take into consideration that the municipality can only pay that which it has revenues to pay and, in an eroding declining financial situation there will

never be sufficient funds to pay all obligations, especially those that may be unaffordable and unsustainable. So far, recent bankruptcy court decisions have been unanimous, be it in Detroit, Stockton or San Bernardino, that in a Chapter 9 in order for the municipality to survive, unaffordable and unsustainable labor costs and pension benefits can be impaired and must be adjusted to what is sustainable and affordable.

The *Stockton* court recently ruled that it wasn't going to substitute its judgment for the City as to whether or not the City will be capable of making those payments, but reaffirmed that such contractual obligations may be adjusted so that the municipality can survive. The real issue is whether or not the myth that unaffordable and unsustainable costs cannot be impaired will continue to prevent the rational consensual adjustment outside a Chapter 9. It is clear that an interpretation of state law and constitutional provisions that the municipality has no choice but to pay that which is unsustainable and unaffordable is illogical and fatal. Needed adjustments must be made. This should never be an excuse not to pay as much as can be paid for worker and retiree benefits. But at the same time, worker and retiree benefits cannot be the reason for the municipality's financial erosion and continued loss of taxpayers and revenues that will only frustrate the underfunding of benefits and provide even less to workers and retirees.

<u>Lesson Three:</u> Don't question that which should be beyond questioning and is needed for the long-term financial survival of the municipality.

Detroit sought to significantly reduce the payments to the Unlimited Tax General Obligation Bondholders (UTGOs) and to obtain concessions from its water and sewer bondholders, both of which claimed a sufficient tax revenue base and legal support in the statutory and constitutional law in Michigan that their payments were assured by a dedicated source of funds. There was no real issue that the water and sewer bonds had sufficient revenue flow to pay those bonds during the bankruptcy. The 1988 Amendments to Chapter 9 of the Bankruptcy Code and its legislative history mandated that such revenue bond financing be unimpaired. If there are sufficient revenues to pay operation, maintenance, debt service and all other expenses, there is no basis for not living up to the contractual obligations. Sections 922(d) and 928(a) of the Bankruptcy Code so mandate it. By language of the state statute, by the intent of the voters' referendum in authorizing the UTGOs to have taxes levied above the tax cap to pay these bonds, and by practice, it appeared clear that there should be a levy of tax sufficient to pay the UTGOs and if not, the continuing levy to meet that obligation.

... if there is a dedicated source of payment sufficient to pay the obligations, those promises should not be broken or rewritten in a municipal bankruptcy.

The problem with the effort of the City to contest and question those types of financing is the contagion that this has on other municipalities in Michigan and their ability to use such financing to meet their municipal needs. The questioning and the cloud placed on the financing causes the cost of financing to increase, which means taxpayers will pay more.

To the degree that the bonds are issued and the cost is 1% or 2% more because of the cloud means, over a life of a thirty year bond, 30% to 60% more of the principal amount will be paid as an additional borrowing cost by taxpayers' dollars. This could have gone for all other needed municipal expenses.

In the end, it appears that in Detroit it was recognized by settlement that there was no underlying legal basis for those attacks. Now, for all municipalities in Michigan and for that matter elsewhere, it is important to reaffirm the basic principles that, if there is a dedicated source of payment sufficient to pay the obligations, those promises should not be broken or rewritten in a municipal bankruptcy. A dedicated source of payment, statutory lien or special revenues established under state law must be honored and should not be contested. Capital markets work effectively when credibility and predictability of outcome are clear and unquestioned.

Lesson Four: Debt adjustment is a process, but a recovery plan is a solution.

As noted above, while Detroit has proceeded with debt adjustment which provides some additional runway so it can take takeoff in a recovery, such plan is not the cure for the systemic problem. Rather, the plan provides additional breathing room so that the municipality, through its Mayor and its elected officials, may proceed with a recovery plan, reinvest in Detroit, stimulate the economy, create new jobs, clear and develop blighted areas and raise the level of services and infrastructure to that which is acceptable and attract new business and new citizens. That is not just an effort of 18 months. It is normally an effort of five to ten years or more. While Chapter 9 is a process that may be necessary to provide the breathing room, it is the recovery plan that will provide the resolution. If the recovery plan is not accomplished and the systemic problem is not addressed, the confirmation of a Plan of Debt Adjustment does not prevent the reoccurrence of the systemic problem left uncured.

<u>Lesson Five:</u> Successful plans of debt adjustment have one common feature: virtually all significant issues have been settled and resolved with major creditors.

While the Detroit Plan started with sound and fury between the emergency manager and creditors and what they would receive, in the end, similar to what occurred in Vallejo, Jefferson County and even in Stockton (with one exception), major creditors ultimately reached agreement and supported the Plan of Debt Adjustment that allowed the municipality to move forward, confirm the Plan and begin its journey to recovery. Buy-in, both on a local level with citizens and taxpayers, with public workers and retires, with creditors who are suppliers and with the capital markets is important so that there are not continuing controversies as opposed to continuing cooperation to move forward to a successful recovery of the municipality's financial difficulties.

Lesson Six: One size does not fit all.

There are many ways to draft a plan of debt adjustment and sometimes the more creative, the better. As noted above, traditionally major cities of size with significant debt did not file Chapter 9. They refinanced their debt with the backing of the state which reduced their future borrowing costs and allowed them to recover by having the liquidity and the reduced costs necessary to deal with their financial difficulties.

Detroit chose a different path, and one of the questions in Chapter 9 is how should a plan of debt adjustment be structured. As indicated by the Grand Bargain, third-party foundations and contributors along with the state provided \$816 million to save the municipal art museum and to address the pension issues. This was a creative and constructive mechanism to provide funds that otherwise were not available to the municipality. While some noted, with some basis, that it appeared the unsecured creditors were treated dissimilarly from retirees, ultimately the municipality created a plan which virtually all of the creditors approved. Therefore, with major creditor support, any argument of dissimilar treatment was ameliorated. More likely than not, this issue would have been a greater problem if the major creditors had not come together with virtually unanimously support for the plan of debt adjustment. In addition, the resolutions with some major creditors including Syncora and FGIC were creative. There should be no doubt that Syncora and FGIC could have been significant obstacles in confirmation and in appeals raising issues that were not necessarily guaranteed to be decided in the favor of Detroit. Their acceptance of interests in real estate and leases meant in essence they would reinvest in Detroit and therefore improve their recovery to provide a purported win win. The insurers resolved their issues, recognizing that there is no assurance that you are going to win and the cost and expense of winning can be significant. Settlement offered an opportunity to improve their recovery by their own skill and ability in investing and management of these real estate opportunities. Such creativity should be encouraged, to the extent it is consistent with the applicable bankruptcy and state law.

<u>Lesson Seven</u>: A recovery plan must provide for essential services and infrastructure.

"Best interest of creditors" and "feasibility" can only mean an appropriate reinvestment in the municipality through a recovery plan where there is funding of essential services and infrastructure at an acceptable level to stimulate the municipality's economy to attract new employers and taxpayers thereby increasing tax revenues and addressing the systemic problem.

It is important to recognize that Chapter 9 is a process, not a solution.

While no plan of debt adjustment is perfect or assured, there should be, as the Bankruptcy Court in Detroit throughout the case pointed out, a plan to show the survivability and future success of the City. This is in essence the recovery plan where the reinvestment in Detroit is a cure to the systemic problem that led to the Chapter 9, namely investing in

infrastructure and essential services that had been lacking in the past to stimulate and enhance the economy, the opportunities for jobs and to increase the tax revenues necessary for the recovery. The failure to address these issues even after confirming a plan of debt adjustment will lead to the same systemic problems and economic downturns that were the cause for the filing of Chapter 9. The best interest of creditors and feasibility cannot be interpreted as requiring paying creditors more and sacrificing necessary funding of infrastructure and essential services. This would not be in the best interest of creditors and would eventually lead to the downturn of the economy and less ability for payment to all.

<u>Lesson Eight:</u> Confirmation of a plan of debt adjustment is only the beginning of the journey to financial recovery – not the end.

It is important to recognize, as noted above, that Chapter 9 is a process, not a solution. The recovery plan, which will take dedication and effort by the elected officials of the City along with residents, public workers and other creditors is the only way to achieve success. It is measured not by months, but by years, and by the constant vigilance to ensure that the systemic problem is addressed effectively in a permanent fix.

Obviously, as Detroit proceeds to implement its recovery plan, additional lessons may be learned. However, the eight identified above are basic lessons that should help every municipality that faces financial difficulties deal more effectively with the problems and motivate them to identify and address economic financial distress earlier, encourage help from the state and others and avoid that which should be the last and least desired result, namely the filing of a Chapter 9.

While these lessons unfortunately did not prevent Detroit from having to use Chapter 9, hopefully Detroit, through the good efforts of its elected officials, taxpayers and business community, will find in its recovery plan and reinvestment in Detroit, ultimate success. At the same time, hopefully Detroit's experience in Chapter 9 will be that lesson that will lead other municipalities to identify their problems effectively and permanently earlier, and thereby not have to repeat the Detroit saga. As children, we learned that the stove was hot either by our own misfortune or by watching an older sibling and realizing it wasn't necessary to repeat the experience again.

To: Huntington Beach City Council From: Huntington Beach Finance Commission Date: February 24, 2025

Re: Friends of the Library (FOL) Operation within the Huntington Beach Library.

On December 16, 2024, two members of the finance commission, Frank LoGrasso and Kelly Gates, were given a tour of the Friends of the Library operation at the Central Park Library.

Following are considerations for the City Council as a result of this tour.

1) The FOL have a large number of volunteers on a Monday. We were told that Monday's are a busy day because the number of books donated over any weekend is far greater than during the week. We counted 14 volunteers working at sorting the newly donated books, investigating book values, and stocking the used book section in the library. We would be curious as to how many volunteers they have on the slower days and also how many volunteer hours the FOL provides on an annual basis.

We start our observation with the volunteers because what we've heard from the "protect the library" folks was that without the FOL there would be a dearth of volunteers and that the library could not run the used book sales or the gift shop without those volunteers. We came away from this meeting not sure that's absolutely true. The library assistant that accompanied us was asked if the library has there own volunteers, apart from those that work for the FOL. She indicated that there are a number of volunteers that are dedicated to the library and there are others that go back and forth between the library and FOL. She produced the form that would be filled out by those wishing to volunteer to work in the library and it gives options to work for the library or FOL. The indication I received is the FOL gets the majority of their volunteers from that form. If that is a fact, then it is the library that feeds the FOL with volunteers, not the other way around.

2) The FOL uses about 4,000 square feet of interior space of the library and pays zero dollars a month in rent. As a matter of fact there is no official lease with the FOL that would be expected for any entity that runs an operation within a city owned structure. They make an un-audited sum of money every year in used book sales and gift shop sales and provide the library with \$250,000 a year in donations from those sales.

It is the Finance Commission's opinion that this organization should be audited annually and the amount donated to the library should be an agreed percentage with a minimum payment for use of the library space to run the FOL operation. By the way, there are signs in the library we are assuming put there by the FOL, that indicate ALL proceeds go back to the library. That can't possibly be true. And that can only be determined by an annual audit. Furthermore, this audit should be followed by at least an annual presentation of the FOL board to the city council noting what activities they have undertaken on behalf of the library during that year. How the city has allowed an organization to operate un-audited, without some kind of lease agreement within a city building for decades is a huge red flag.

3) A clause needs to be inserted in any agreement with the FOL that there will be zero tolerance for ANY political activity within the organization. The city can not have a organization operating their business within the confines of city buildings, with the city's imprimatur, supporting any political views. The FOL should limit their activities to used book sales, gift shop operation and general support of the library. If the organization insists on becoming political, their activities within the library should be terminated and the city find other ways to facilitate the operations provided by FOL.

1a Complete this table for all persons required to be listed. Report compensation for the calendar year ending with or within the organization's tax year.

• List all of the organization's **current** officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation. Enter -0- in columns (D), (E), and (F) if no compensation was paid.

• List all of the organization's **current** key employees, if any. See the instructions for definition of "key employee."

List the organization's five current highest compensated employees (other than an officer, director, trustee or key employee)

who received reportable compensation (box 5 of Form W-2, box 6 of Form 1099-MISC, and/or box 1 of Form 1099-NEC) of more than \$100,000 from the organization and any related organizations.

• List all of the organization's **former** officers, key employees, or highest compensated employees who received more than \$100,000 of reportable compensation from the organization and any related organizations.

• List all of the organization's **former directors or trustees** that received, in the capacity as a former director or trustee of the organization, more than \$10,000 of reportable compensation from the organization and any related organizations. See the instructions for the order in which to list the persons above.

Check this box if neither the organization nor any related organization compensated any current officer, director, or trustee.

Section C. Type II Supporting Organizations

Yes No

، ۲

https://projects.propublica.org/nonprofits/organizations/271284763/202411309349304301/full

Friends Of The Childrens Library Of Huntington Beach Ca - Full Filing - Nonprofit Explorer - ProPublica

1	Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? If "No," describe in Part VI how control or management of the		
	supporting organization was vested in the same persons that controlled or managed the supported organization(s).	1	

Section D. All Type III Supporting Organizations									
			Yes	No					
1	Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?								
		1							
2	Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? If "No," explain in Part VI how the organization of a close and continuous working solutionship with the curported organization?								
organization maintained a close and continuous working relationship with the supported organization(s).	organization maintaineu a close and continuous working relationship with the supported organization(s).	2							
3	By reason of the relationship described in line 2 above, did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times								
	during the tax year? If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.								

Section E. Type III Functionally-Integrated Supporting Organizations

1 Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (see instructions):

- **c** The organization supported a governmental entity. Describe in **Part VI** how you supported a government entity (see instructions)

2 Activities Test. Answer lines 2a and 2b below.

- a Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? If "Yes," then in Part VI identify those supported organizations and explain how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities.
- **b** Did the activities described on line 2a, above constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? *If "Yes," explain in Part VI the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement.*
- 3 Parent of Supported Organizations. Answer lines 3a and 3b below.
 - a Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? If "Yes" or "No", provide details in **Part VI**.
 - **b** Did the organization exercise a substantial degree of direction over the policies, programs and activities of each of its supported organizations? If "Yes," describe in **Part VI.** the role played by the organization in this regard.

2/8/25, 10:32 AM

1a Complete this table for all persons required to be listed. Report compensation for the calendar year ending with or within the organization's tax year.

• List all of the organization's **current** officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation. Enter -0- in columns (D), (E), and (F) if no compensation was paid.

• List all of the organization's current key employees, if any. See the instructions for definition of "key employee."

• List the organization's five **current** highest compensated employees (other than an officer, director, trustee or key employee) who received reportable compensation (box 5 of Form W-2, box 6 of Form 1099-MISC, and/or box 1 of Form 1099-NEC) of more than \$100,000 from the organization and any related organizations.

• List all of the organization's **former** officers, key employees, or highest compensated employees who received more than \$100,000 of reportable compensation from the organization and any related organizations.

• List all of the organization's **former directors or trustees** that received, in the capacity as a former director or trustee of the organization, more than \$10,000 of reportable compensation from the organization and any related organizations. See the instructions for the order in which to list the persons above.

Check this box if neither the organization nor any related organization compensated any current officer, director, or trustee.

Ра	rt XII Financial Statements and Reporting			
	Check if Schedule O contains a response or note to any line in this Part XII			
			Yes	No
1	Accounting method used to prepare the Form 990: 🛛 🗹 Cash 🗌 Accrual 🗌 Other			
	If the organization changed its method of accounting from a prior year or checked "Other," explain on Schedule O.			
2a	Were the organization's financial statements compiled or reviewed by an independent accountant?	2a	Yes	
	If 'Yes,' check a box below to indicate whether the financial statements for the year were compiled or reviewed on a separate basis, consolidated basis, or both:			
	Separate basis Consolidated basis Both consolidated and separate basis			
b	Were the organization's financial statements audited by an independent accountant?	2b		No
	If 'Yes,' check a box below to indicate whether the financial statements for the year were audited on a separate basis, consolidated basis, or both:			

https://projects.propublica.org/nonprofits/organizations/237177623/202413189349308146/full

Friends Of The Huntington Beach Public Library - Full Filing - Nonprofit Explorer - ProPublica

	□ Separate basis □ Consolidated basis □ Both consolidated and separate basis			
с	If "Yes," to line 2a or 2b, does the organization have a committee that assumes responsibility for oversight of the audit, review, or compilation of its financial statements and selection of an independent accountant?	2c		No
	If the organization changed either its oversight process or selection process during the tax year, explain in Schedule O.			
3a	As a result of a federal award, was the organization required to undergo an audit or audits as set forth in the Uniform Guidance, 2 C.F.R. Part 200, Subpart F?	3a		No
b	If "Yes," did the organization undergo the required audit or audits? If the organization did not undergo the required audit or audits, explain why in Schedule O and describe any steps taken to undergo such audits.	Зb

c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes?

2/8/25, 10:32 AM

	the maximum of the second s					
	If "Yes," explain in Part VI what controls the organization put in place to ensure such use.					
4a	Was any supported organization not organized in the United States ("foreign supported organization")? If "Yes" and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.					
		4a				
b	Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? If "Yes," describe in Part VI how the organization had such control and discretion despite being controllec					
	supervised by or in connection with its supported organizations.					
С	Did the organization support any foreign supported organization that does not have an IRS determination under sections $501(c)(3)$ and $509(a)(1)$ or (2)? If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section $170(c)(2)(B)$ purposes.	4c				
5a	Did the organization add, substitute, or remove any supported organizations during the tax year? If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI , including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by	4C 5a				
	amendment to the organizing document).	Ja				
b	Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?	5b				
с	Substitutions only. Was the substitution the result of an event beyond the organization's control?	5c				
6	Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? <i>If</i> "Yes," provide detail in Part VI .					
		6				
7	Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? If "Yes," complete Part I of Schedule L (Form 990).	7				
•	Did the organization make a loan to a disqualified person (as defined in section 4958) not described on line 7? If "Yes," complete Part I of Schedule L (Form 990).					
8						
9a	Was the organization controlled directly or indirectly at any time during the tax year by one or more disgualified persons, as	8				
54	defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? If "Yes,"					
	provide detail in Part VI.	9a				
b	Did one or more disqualified persons (as defined on line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? If "Yes," provide detail in Part VI .					
	organization had an interest? If "Yes," provide detail in Part VI.					
С	Did a disqualified person (as defined on line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? If "Yes," provide detail in Part VI .	_				
10-		9c				
109	Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? If "Yes," answer line 10b below.					
		10a				
b	Did the organization have any excess business holdings in the tax year? (Use Schedule C, Form 4720, to determine whether the organization had excess business holdings).	10b				
	ure organization nau excess business noidings).

Schedule A (Form 990) 2023

Part IV Supporting Organizations (co	continued)
--------------------------------------	------------

			Yes	No
11	Has the organization accepted a gift or contribution from any of the following persons?			
а	A person who directly or indirectly controls, either alone or together with persons described on lines 11b and 11c below, the			
	governing body of a supported organization?	11a		
b	A family member of a person described on 11a above?	11b		
с	A 35% controlled entity of a person described on line 11a or 11b above? If "Yes" to 11a, 11b, or 11c, provide detail in Part	11c		

Section B. Type I Supporting Organizations

			Yes	No
1	Did the officers, directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.			
		1		
2	Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? If "Yes," explain in Part VI how providing such benefit			
	carried out the purposes of the supported organization(s) that operated, supervised or controlled the supporting organization.	2		

Section C. Type II Supporting Organizations

Yes No

1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of

1

Friends Of The Huntington Beach Public Library - Full Filing - Nonprofit Explorer - ProPublica

each of the organization's supported organization(s)? If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).

1	

No

Yes

Section D. All Type III Supporting Organizations

Yes No Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's 1 tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided? 1 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported 2 organization(s) or (ii) serving on the governing body of a supported organization? If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s). 2 By reason of the relationship described in line 2 above, did the organization's supported organizations have a significant 3 voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? If "Yes," describe in Part VI the role the organization's supported organizations played in this regard. 3

Section E. Type III Functionally-Integrated Supporting Organizations

- Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (see instructions):
- The organization satisfied the Activities Test. Complete line 2 below. а \square
- b The organization is the parent of each of its supported organizations. Complete line 3 below. \square
- С The organization supported a governmental entity. Describe in **Part VI** how you supported a government entity (see instructions) \square

2 Activities Test. Answer lines 2a and 2b below.

- a Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? If "Yes," then in Part VI identify those supported organizations and explain how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities. 2a
- **b** Did the activities described on line 2a, above constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? If "Yes," explain in **Part VI** the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement.
- 3 Parent of Supported Organizations. Answer lines 3a and 3b below.
 - a Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? If "Yes" or "No", provide details in Part VI.
 - b Did the organization exercise a substantial degree of direction over the policies, programs and activities of each of its supported organizations? If "Yes," describe in Part VI. the role played by the organization in this regard.
