Subject: Alternative Fuel Vehicles

I would like to express my support for the development of a plan to upgrade the City Fleet to Alternative Fuel Vehicles. Thank you to Natalie Moser and Dan Kalmick for submitting this item (#25) to be discussed in the City Council meeting tomorrow, 10/5/21. After the somber oil spill off of our beautiful coast this past weekend, we must continue to take action and support steps that protect our environment all around. Our actions today help to ensure a healthier place to live tomorrow. Thank you very much!

Sandy Smallshaw

Subject: YES ON CITY COUNCIL AGENDA ITEM #25

Hello City Council -

When I first saw the agenda for this meeting last week, agenda item #25 jumped out at me and I immediately thought: "This is a complete no-brainer! Of course, Huntington Beach should be transitioning away from gas and diesel-powered vehicles. It just makes sense."

That was last week ... before an oil spill had fouled our ocean, beaches, and wetlands. (AGAIN! Yes, I've been here since the last time an oil spill polluted our coastline.)

Last week I had a great number of reasons to support this agenda item, but today I am focused on just one and it involves the elimination of all offshore oil extraction happening off our coast. While Huntington Beach's fleet represents only a small percentage of the total number of gas and diesel-powered vehicles in southern California, even the longest journeys start with a first step.

Please take that first step by voting YES on Agenda Item #25.

Thank You.

Subject: Agenda Item #25

Dear City Council,

As Vice Chair of Climate Reality Orange County, I wish to send support of Agenda item #25.

Please vote for approval to direct the HB City Manager to prepare a plan to transition the entire City of Huntington Beach fleet to alternative fuel vehicles. This item is being put forth by Council Members Kalmick and Moser and is a necessary first step especially in light of the recent spill and we have so many more prudent options that such dependence on fossil fuels.

Thank you,
Tristan Miller

Subject: General Comment, and in support of Item #25

General Comment:

I am a weekly visitor to Huntington Beach and concerned about the oil damage to the precious beaches on our OC Coast!

Please work to adopt renewables and get off of fossil fuel dependence as soon as possible.

Huntington Beach can lead the way by adopting strong renewable content with OCPA which will allow all residents and businesses to choose renewables at a lower cost than current utilities with no tax dollars used.

Item # 25 comment, I support the full adoption of a plan to transition the entire City of Huntington Beach fleet to alternative fuel vehicles.

Thank You!

Linda Kraemer
Costa Mesa resident and frequent HB visitor
