

ATTACHMENT NO. 1

FINDINGS AND CONDITIONS OF APPROVAL

TEMPORARY USE PERMIT NO. 22-001

FINDINGS FOR PROJECTS EXEMPT FROM CEQA:

The Zoning Administrator finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15304 of the CEQA Guidelines, because the project consists of a minor temporary use of land having no permanent effects on the environment, including carnivals, sales of Christmas trees, etc.

FINDINGS FOR APPROVAL - TEMPORARY USE PERMIT NO. 22-001:

1. The proposed temporary use to permit an annual Church festival for three days in the months of September and October for a period of five years from 2022 to 2026 will be located, operated and maintained in a manner consistent with the policies of the General Plan and the provisions of Chapter 241 of the Huntington Beach Zoning and Subdivision (HBZSO) because the event is temporary in nature, compatible with surrounding uses, and consistent with the following policy:

A. Noise Element:

Policy N-4.B: Require that new discretionary uses and special events such as restaurants, bars, entertainment, parking facilities, and other commercial uses or beach events where large numbers of people may be present adjacent to sensitive noise receptors comply with the noise standards in Table N-2 and the City Noise Ordinance.

The festival has been held over the years as a fundraiser for the school and church to assist the community. The event provides a variety of recreational opportunities for a period of three days per year with limited hours of operation. The festival is located in the same vicinity on the subject property as previous years with adequate setbacks provided for the rides and tents.

2. Approval of the application for an annual church festival for three days during the months of September and October for a five year period (2022-2026) will not be detrimental to property or improvements in the surrounding area or to the public health, safety or general welfare because the proposed temporary structures, such as booths and rides, will be located with adequate separation from adjacent residential uses and removed upon completion of the event. The main tent, which includes a stage and amplified music, will be located a minimum of 54 ft. from the nearest residential property. As conditioned, the project will not generate additional impacts above existing conditions. The temporary festival will not alter any existing property in the area as the event will occur entirely on the church's property. No complaints regarding the festival from neighbors have been recorded with the Police Department and Code Enforcement Division.
