

Local Coastal Program Grant and Contract

May 16, 2023

Request

1. Authorize staff to submit grant application for up to \$500,000 to fund ongoing comprehensive update to City's Local Coastal Program (LCP) for certification by California Coastal Commission (CCC); and,
2. Amend Professional Services Contract between City and Michael Baker International, Inc. for comprehensive LCP update by extending the term an additional year to May 17, 2024

Analysis

- City Council adopted Resolution 2019-56 which authorized staff to apply for \$200,000 CCC grant to fund comprehensive LCP update
- Initial grant expired April 2023; new grant needed to fund remaining phases of LCP update (public outreach, Resiliency Plan, Coastal Element, and flood ordinance updates)
- Grant will allow staff to continue to study coastal hazards and plan for solutions
- If grant is awarded, staff will return to City Council with Amendment 2 to increase the amount of the contract with Michael Baker
