Marketing Branding Entrepreneurship Cause Marketing Social Media Public Relations Fundraising Advertising Event Production

Civic Interests

Community sustainability, environmental and economic development and management.

Availability (Must be available for meetings)

I have the time to participate in the monthly Environmental Board Meetings in addition to any extra time needed for off-site work and trips as needed.

How Will Your Qualifications Best Serve the Needs of the Community?

I have more than 30 years experience in marketing, management and philanthropy and I would like to bring the business and operational processes I have learned along the way to make the Environmental Board more effective. In addition, the variety of businesses and projects I've been involved with will allow me to bring a pragmatic approach to any size project.

Why Do You Wish to Serve on a Volunteer Citizen's Body?

I see many opportunities to share my experience and knowledge to help to improve this community and the city I now call home.
