Subject: Lori anne Farrell

It has been such a pleasure to work lori ann farrell on many community issues over the years. She is a compassionate intellectual person who understands fiscal accountability while offering acceptable solutions to challenging community issues such as homelessness. She tries to be everywhere, i wish she could be cloned, because HB would benefit from her depth of understanding of government operations within the context of the political climate and she does not shy away from unpopular and difficult decision making.

Its my pleasure to work with her to improve the hb response to critical issues facing our community both now and well into the future.

Susan price, hb constituent

Notes

concerns about who will be our next city manager As the city council considers who to appoint as our next city manager, I would urge you NOT to promote the current Assistant City Manager - Lori Ann Farrell into that position. Since my attendance at a gathering she spoke at this past February 21st I do not feel that she would represent our city's leadership well Lori Ann was one of three speakers at the Have a Heart Forum. During the forum she: • Refused to respect time limits for speakers (unlike the other speakers who were considerate that there were other speakers besides themselves), even when she was reminded that her time was up. • She tried to ignore questions during the question and answer period that she did not want to answer and when these questions were brought to attention she gave evasive responses. • She exhibited a complete lack of awareness regarding some of the issues that those of us who attend and work with the homeless on a regular basis know about that she should have known about too. I really think we want someone in the City Manager position who would exhibit a better understanding about homelessness and represent our city government in a way that leaves people with a better impression of the city and what is being done.Thanks so much for listening to and considering my concerns.
