your feedback. It will be included as part
in this topic. For new information on what
to address homelessness, go to:
miltonbeachca.gov/services/homeless-

"homeless." Many homeless are mentally disturbed that were and should be institutionalized as they once were - before they were "liberalized" in the '80's by the government. Others (most) are drug addicted - who traded their rational life for whatever fantasy feelings that drugs provide. A few are "economic homeless" who lost their jobs and houses and find themselves without support capabilities. Lumping them all together under "homeless" with programs and housing for "homeless" can and will, never work. If the street bums and druggies are supported by society their numbers will continue to grow; crime will increase at all levels within homeless facilities as they have everywhere there is one. Most homeless vagrants today receive sympathy from the community allowing them to sleep wherever they want, and to do whatever they want - in essence, thumbing their nose at a meaningful society. If the city of HB welcomes one, the city must welcome them all (discrimination). The best answer for HB residents (as harsh as it sounds) is not to welcome any.

Subject: Please support the proposed shelter

Dear Council Members,

I've been a Huntington Beach homeowner for 30 years and like you, I've seen the homeless population grow exponentially in our community. I see homeless people when I walk on the beach, take my dog to Central Park and when I'm driving through our beautiful city. It's heartbreaking.

Yesterday my husband and I attended the Homelessness Open House at the library. I learned that the police department employs case workers to help homeless individuals get the help they need to get off the streets. That is so impressive.

I was already aware and frustrated by the fact that our police department can't enforce laws that would prevent overnight encampments because we don't have anywhere to send our homeless population..

This is a clear matter of what is right for our city. I know there are many fearful, hateful opinions out there about our fellow human beings who have no place to go and end up in our city, but I hope you will do what is right to help our city, our citizens and our homeless population by approving the shelter and allowing us to finally address this problem.

In Hope for HB,

Christine Dittmer

COMMENTS & ADDITIONAL NOTES

To Whom it May Concern: Let me start by mentioning that the time of the open house wasn't well thought out, many families couldn't attend because it's currently sports season (heard this from almost every parent on my daughters soccer team). Before I sent this email, I wanted to attend the open house so I could draw my own decision. While the open house was a courteous thing to do for the residents, I felt that it was a way to deliver a pipe dream. Many questions/concerns couldn't be answered, I'll list them here: 1. It was mentioned that the site would be purchased, and that there may be a tax increase. If purchased this goes from temporary to forever? 2. A lot of mention that property values won't decrease. After much research I've found that when located within about a 2 mile radius of a homeless shelter property values decrease 10-12 percent. While I could accept a down economy making my home less valuable, I refuse to sit back and not say a word when something like this can be catastrophic to a lot of residents futures. 3. If this passes/built and there is a decrease in property value, will homes be reassessed for lower a property tax rate? It's a very valid concern, I know I'm currently paying almost \$8000 per year. 4. There apparently is a plan that when these residents want to leave, they are taken to the octa station. What guarantee can you give that they will indeed be getting on a bus to head out to do something productive? Do the residents that leave have to go through a process every time they return? How can the city guarantee that once dropped off at a bus station they will be doing productive things? Through my research I have found that our nearby cities that have a shelter location haven't been too successful with the rehabilitation of their residents. 5. How can the city guarantee that homeless won't congregate near this area? Rules are broken every single day, I find it very shocking that the answer to this question is "nobody will loiter". The only other answer I have heard is that there will be an increase in officer patrol, which I feel had to be said because the city knows how this is going to go. A nearby park had its wooden overhang burned down by the homeless, and it has yet to be repaired. 6. If you assess the location, there are many businesses that are kid oriented. I've spoke with many people who have said they won't be taking their children to these locations if this idea passes. What action will the city be taking in helping with the loss of revenue to these businesses? 7. There has been a lot of talk saying that this facility will be 'secure' and that there will be fencing everywhere. Has anyone at all from the

SUPPLEMENTAL COMMUNICATION

Meeting Date: 4.15.19

Agenda Item No.: SS#1 (19-436)

city visited the local schools? If so, you will find that many of them aren't fenced in. How can the city think about purchasing and building out this facility when they can't even build a simple fence around all of our schools? Many residents of the circle view tract are threatening to pull their children and send them elsewhere because of this. 8. When will the city notify residents of the other vetted locations? It seems like there has been only one location targeted for this. What makes these industrial units so appealing? Thank you for the time, I look forward to a response. COMMENTS & ADDITIONAL NOTES

I am writing to oppose the proposed homeless shelter in Huntington Beach. This does not belong here. It will only bring an undesired result. This has been unsuccessfully tried in many cities both here in CA as well as other cities in the US. Cities such as Seattle, Baltimore, Chicago, Downtown LA, Oakland, Stockton, San Francisco, San Bernadino have all tried this in an effort to help get homeless off the streets and the only thing that it has served to do is create a more inviting environment for those who don't wish to conform to society and wish to ignore the rules, knowing there are no consequences and receive benefits. As the homeless task force told residents at a community meeting, if you feed the pigeons they will continue to come and bring their friends. We do not want a situation such as what has occurred in the cities mentioned above. Our City Council needs to stand up to the Sacramento politicians and take this to the Supreme Court if necessary and not build a homeless shelter in our city and mandate that our police department state enforcing the laws we have on the books. We have a strong City Attorney that was elected by the residents of Huntington Beach (a position that should always be elected by the residents and not appointed by city council in order to prevent a conflict of interests and ensure representation of the public) and he should be allowed to fight for our rights to not have a homeless shelter within our beautiful city. I urge each and every one of you to vote against this or any other homeless shelter in our city. I am submitting this email in lieu of my attendance at the 3:30 pm meeting as I am unable to attend this meeting in person due to the time it is being held at as it conflicts with my work schedule as I'm sure it does with many other tax paying residents in this city.

COMMENTS & ADDITIONAL NOTES

What email address can I use or is this the best way to correspond? Thank you for your response today. I was so glad to hear from you. I didn't go to the meeting yesterday. I'm so upset over this proposed site. Its 1/2 mile from my home. I had a homeless man sitting on my lawn just a few days ago. They pass my house all the time. I've been yelled at when they walk by. I was in the Habit ordering food and a homeless man grabbed me and kissed me! Not OK!! Erik PLEASE!!! This is going to ruin our city. If you want more evidence of this please talk to my husband who has to deal with them at work as a fireman in a large city close to us. Its so unsafe...90 beds? And all of those people will be wondering around during the day while they wait for a bed for the night. Then out on the streets again at 6:30am. I'm just sick about this. If we were helping families who need help I'm fine with that!! I would love to help. But not homeless people on drugs or alcoholics looking for their next fix! That will never change or get better. It will just bring crime.

COMMENTS & ADDITIONAL NOTES

Are you guys kidding with this homeless shelter thing? You're just going to make the problem worse. This "solution" isn't going to fix what's going on- Huntington Beach, every day someone's car is robbed. Hire more police officers and lets take this to court. Whoever came up with this plan, resign. We all work very hard to live here and you're over developing and trying to pull stuff like this? You're going to cause irreparable damage. Huntington Beach isn't Huntington Beach anymore.

COMMENTS & ADDITIONAL NOTES

My name is Lisa Kavalesky. This is a very personal issue to myself and my family. My step daughter is 17, a junior at Marina HS and we live fairly close to this proposed location. My step daughters Mother is homeless in Santa Ana right now. She had been in these "90 day" facilities for almost 3 yrs now. Before we even knew of the possibility of a shelter near us, she was talking about how she might have a place close to Marina HS. We thought it was an apartment, never imagined it being a shelter and we all started worrying. Now hearing a shelter may be still close by Marina HS we are worrying again. You see, our family is afraid her Mom will show up daily to Marina if she would be transfered to this location. My Step Daughter is now doing so well in school but, stresses about this. We also worry about her Mothers choice of friends shes made while in these shelters. We thought we were in the clear after the last location was rejected due to so many making it clear it was too close to Marina. This new location is only a few blocks away. We did have a chance to drive by it on Friday. It literally is a 2 minute walk. Hearing this again, we are worried again. We go to Santa Ana monthly to visit her Mom. We see the homeless in the streets, parks and businesses. We see the alcoholics, drug addicts, beggars, mentally ill and we also see nothing can be done unless they have committed a crime. We dont want that so close to our schools, homes or community. Again, my step daughter and our family is personally effected by this. This location being so close to Marina is not a good solution. It should not be anywhere even remotely close to the HS I hope my message to you is personally being heard. Thank You

AGENDA COMMENT

From: Lisa D <lmd1028@yahoo.com>
Sent: Monday, April 15, 2019 10:53 AM
To: Peterson, Erik <Erik.Peterson@surfcity-hb.org>; CITY COUNCIL <city.council@surfcity-hb.org>
Subject: Homeless Shelters near Marina

To all concerned,

My name is Lisa DeLuccio-Kavalesky. I am writing on behalf of myself, my husband Mark Kavalesky and our children, Katheryn Kavalesky, Jamey Kavalesky and Lukas DeLuccio.

My husband and I attended the Open House last Saturday and came away with some information, but still scratching my head. I am all for helping out the homeless who want the help. However, I am not for that help to be located anywhere near Marina High School.

Two weeks ago we all breathed a sign of relief when the first location of Research Dr was rejected. We all were happy you heard our voice. Which makes no sense why you move it 2 blocks away from the original location, still located 2.5 minute walk from the shelter to Marina, not to mention multiple other schools and children's facilities.

Having said all that. This is a very personal issue for my family. You see I have a 17 year old step daughter who attends Marina, is a Junior this year. She has found herself at this school is happy. She went from a D-F student, no self confidence to a flourishing young adult since I married her Dad. Prior to this she lived with her Mom who was verbally and mentally abusive. Her Mom has been homeless in Santa Ana for 3 years now. She started out in Victorville, and was transferred to Santa ana. During her time in Santa Ana, she has lived in 3 "90 day shelters." Never getting the help they claim they have. Her Mother is Manic Bi Polar, on and off medication and has not worked in over 10 years. We hear monthly how she will be getting an apartment soon, or a job soon. None of this ever happens, yet she continues to live in these 90 day facilities, this last facility has been almost a year.

End of last year her Mother started telling us of a place that might open up soon in Huntington Beach, near Marina High School. We thought it was an apartment, not a homeless shelter. Hearing about the potential homeless shelter late March. We put 2 and 2 together and realize now what she was talking about. She wanted to be transferred to the location so she could be closer to her daughter and next year her son will be at Stacey which is about a 10-15 minute walk from Pipeline. My step daughter has been very nervous about this, as are we. If she were to be transferred or accepted she would show up daily at Marina or surrounding locations looking for my step daughter. We know her, know how she is and understand she would do anything to try to go

**SUPPLEMENTAL
COMMUNICATION**

1 Meeting Date: 4.15.19

Agenda Item No.: SS#1 (19-436)

Please understand, we don't keep the kids from their Mom. We, infact take them monthly to Santa Ana to meet their Mother for dinner. She's always welcome to call them. But we have a buffer right now since she is not close by and no way to get to them other than walking or the bus and from Santa Ana that's a far way to come from.

We understand what we were told that, only the homeless will be accepted to this shelter. We also understand this to be true about the Victorville location, she was not a resident, she was passing through the city when she had an episode and the police placed her at that location there. She was only living there 90 days, was then transferred to 1of3 90day facilities" here in Santa Ana.

We also understand the preferred location is off Gothard, which we couldn't agree more and it makes more sense to have it in that location centralized to HB and the police station. We understand the struggles of finding a location in that area. However we know that Pipeline is not the correct location and cannot stress enough to please continue your search in the location that would be optimal for the city and police.

Never in my life did I want to really know so much about how homeless facilities are run, but we've learned alot in these past 3 years from my husbands ex wife. We understand that a 90 day facilitie is not really just 90 days and can be expanded as long as the person is not causing problems. We know they are not prisoners and can come and go from 7am to 10pm 7 days a week. We understand during these times they are supposed to be out looking for work, doctors appointments, etc. We also know this does not always happen. We see how Santa Ana looks, homeless passed out on lawns of public buildings, loitering at grocery stores, liquor stores or just on side walks. We've seen them drunk, using drugs, being arrested, screaming, defecating, fighting, having sex, robbing, causing crime, etc all in the day time and in the public eye. Some things as you know cannot be controlled, do you want this near Marina High School, Vons, .99 cents store, 7-11 and Jack in the box just the closest businesses near Pipeline? We understand the rules of the shelter she is at, which are the same as the one's outlined you've given to the public for Pipeline. We know they are not shuttled to and from locations of where they want to go during the day 90 plus people can not be catered to in that way. We know they are given bus passes and free Lyft rides to get to their destinations during the times they are allowed out or simply can walk. I feel you are giving the public who does not know this a false sense of security thinking they are under the watchful eye 24/7 when that is not the truth.

Having said all that, we'd like to thank you for allowing the public to voice their opinion so you may make a valid decision to not only the homeless needs, but to the homeowners, business owners, students and parents. Again, we cannot stress enough to please do not have a shelter located anywhere near Marina High School for our personal needs. My step daughter is scared her Mom will try to find her daily, interrupt her school and friends. We would take legal action if needed, however we would like for your to scrap Pipeline and find a different location all together.

Thank you for your time
Lisa and Mark Kavalesky

Subject: Homeless Shelter near Marina

Dear City Council,

My name is Kathryn Kavalesky, I am currently a Junior at Marina High School and I would like to please ask you to not put a homeless shelter near my home or high school.

My Mom is homeless in Santa Ana and has said for months she wants to be transferred to a closer location so she can see me every day. I've told her no, I don't want her to and I will see her when I can. But she's persistent to be relocated to a shelter closer to the school. I am very afraid and worried she will find a way. I love my Mom, but the years I did live with her she was very verbally and mentally abusive towards my and my brother. She is Manic Depressive, Bi Polar and probably schizophrenic. She also is an alcoholic. It would be horrible if she tried to show up at Marina to find me or my friends. I am doing well in school A's and B's now, when I lived with her I was D's and F's and I was very depressed.

Not just about my Mom, but I have seen the life of the homeless for 3 years she's lived in Santa Ana. I see homeless passed out on the streets and parks, in front of homes and businesses and much more. I do not want this near my High School where I feel safe, my school along with my home is my safe place. Please hear me please I do not want a homeless shelter so close to my safe places.

Thank you
Kathryn Kavalesky

STREET ADDRESS

COMMENTS & ADDITIONAL NOTES

Homeless Shelter :The current proposed site is with a 1.2 mile driving radius of six schools(0.9 miles Marina), various facilities for children's activities and Marina Park. The distance of course is much shorter if one was to walk, skate, bicycle, scooter or skateboard. A more suitable site on city owned property can and should be utilized. I urge you all to OPPOSE this current location for the safety, security, well being of all our children educationally, emotionally, physically and spiritually. Thank you Jake Lou Huntington Beach

AGENDA COMMENT

From: Patty Mandichak <pmaandi@gmail.com>
Sent: Monday, April 15, 2019 12:15 PM
To: CITY COUNCIL <city.council@surfcity-hb.org>
Subject: Homeless Shelter

I am writing this to voice my concerns in regards to opening a homeless shelter in HB.

First, I feel very strongly about keeping a shelter away from our young children and young adults. Opening one so close to schools enables a chance for lingering close to the schools. I know some of the homeless are good, but there are many that are dealing with addiction and psychological problems. We do not need this close to our children.

Second, I feel strongly that opening a homeless shelter in our area will only attract more homeless people. The homeless are only at the shelters at night. Where will they be lingering during the day? We owe it to our children to keep them safe!

Therefore I am against a shelter so close to our children and in Huntington Beach.

Thank you,
Patricia Mandichak

COMMENTS & ADDITIONAL NOTES

I am a resident of HB, living near Marina High School and Marina Park. My child attends SCATS gymnastics and other businesses in the area. The homeless Shelter being proposed at 15311 Pipeline lane, is a ridiculous proposal being so close to a high school and children facilities. I have already seen first hand what homeless people do in the park, such as use illegal drugs and start fires, burning down the picnic benches and pergola. I, and numerous of my neighbors are adamantly against this and as residents of this area, are offended that the city council would even consider this when childrens lives are at stake. I hope you make the right decision, and vote against putting a homeless shelter at this proposed site, as it endangers the public and most importantly the kids who attend the surrounding sporting facilities. Thank you, and God bless.

COMMENTS & ADDITIONAL NOTES

Homeless Shelter Opposition. Since I work I am unable to attend the meeting that will be held at 3:30pm on Mon Apr 15, I am submitting this email. This is extremely inconvenient to the many contributing taxpayers who work a full time job to pay taxes to own property and live in Huntington Beach. Any approval for this proposed homeless shelter is irresponsible and shows lack of respect for the taxpayers you were elected to represent in Huntington Beach. This proposal is flawed in many ways and has been tried in other cities with very disastrous outcomes to property values as well as quality and safety of life to the residents. Seattle, Baltimore, Detroit, Chicago, San Francisco, Oakland, Downtown LA, San Bernardino, Pomona, Stockton and Inglewood all started with plans like what is being proposed in Huntington Beach. Look at their situations now. Overflowing with homeless, tents, human excrement, trash, biohazardous waste and disease. It is a public health travesty. Let's look around at these cities and learn from their mistakes before making our own. This will not help or fix the problem. The continuous handouts will only bring more. First it will be bus passes and ebt cards and a hot shower and meals. Instead of setting up this sham of a homeless shelter, the elected city council needs to stand up and fight against this rather than taxing the residents for something that has proven over and over in other cities to not only not work, but rather create a worsened situation. Look at the cities around us who are not hospitable to homeless, they do not have a problem. As the homeless task force of HBPD told us at a resident meeting, don't feed the pigeons, it only encourages them to stay and bring their friends. Most of the "homeless" in HB are not down on their luck needing just a handup. Most want to live their current lives with no rules, no consequences, doing their drugs and alcohol and not conforming to societal norms. Those of us who contribute to a functioning society should not have to pay for this. I strongly urge each and every council member to say no to this plan, at this location or any other in Huntington Beach and to fight for our rights as a city to not encourage this behavior and make the city safe for residents and tourists (where a large portion of city revenues come from) again. Homelessness should be a county issue, not a city specific issue in areas that are already fully developed. There are plenty of wide open spaces in other parts of the county that are not yet developed where something can be purposefully build for homeless that actually need and want to get into a better situation. This is what our city should be

pushing towards, not spinelessly caving into politicians mob scare tactics that we provide a shelter in our city or not allow us to enforce our laws to keep law abiding citizens safe. Thank you for your consideration and follow through on this.

Homeless Options. Seems locating the shelter where it has the least impact on property values would provide the greatest benefit to the homeowners of Huntington Beach.

Navigation center in North Huntington Beach. I understand the need to open one due to the courts requirements. But why move them north? You will just be spreading the problem throughout the city. We have a few homeless here now, but they are not creating the problems you have in the south end of town. We have a great take force that are helping the ones who want help. But you want to bring the ones who don't, the druggies and mentally ill to our neighborhood with several schools and places our kids go within a mile of your choices so far. You are just trying to get them away from downtown where the tourists are for your revenue. Otherwise why are all of the buildings you are looking to lease or buy in North Huntington Beach? Explain how you can keep them from leaving on foot, it is not a jail. You have made a poor choice in this location. You work for us and can always be voted out. Do your job, show us where the other locations are and let us as a community have some input as to where it should go. You need to watch Seattle is Dying. At the end there is a State on the East Coast that locks them up, gives them the medication to withdrawal from the drugs, counseling, both one on one and group and the tools they need go get a job when they get out. They have over a 90% success rate in the 3 years they have been open. And several said if they had not been arrested and put in the program, they would be dead today. Your navigation center is not going to help them in anyway, other than trying to get them back to their families and or the states they are from. If they refuse to go to the navigation center, they will be arrested and released the next day. It will just be a vicious circle.

I met with Lyn on Saturday and she asked I send this article I read. I will not be able to attend on Monday as I will be out of town but I do not feel purchasing Pipeline is a good solution,. You have not been transparent on the other locations. I feel a temporary solution can be found by trailers or tents on existing HB owned property until this can be properly vetted. See enclosed article on North OC and how they are handling this. Why are we a lone wolf?

I am against putting a homeless shelter on Pipeline near so many schools and facilities where children are. My granddaughter goes to Scats gymnastics 300 feet from this proposed shelter. Huntington Beach does not need a shelter. Transport them back to whoever sent them here. I am just about done with this liberal State. Do not let Huntington Beach become another Seattle. The residents work hard to be able to live here. Let us not forget what happened at the sports complex where the police had to kill the homeless man that tried to attack parents and children.

Hello. I oppose the current plan to locate a homeless shelter at 15311 Pipeline. The city's plans have not been transparent, the plan appears rushed, and I get the feeling that the NW corner of the city has been unfairly targeted to shoulder the burden of risk that this facility will bring with it. I vote. Thank you, Rod Vickers

COMMENTS & ADDITIONAL NOTES

Opposition to homeless shelter on Pipeline Lane (Letter Attached) City Council, I am writing this letter in response to the proposed homeless shelter that is being considered at 15311 Pipeline Lane, HB. I would like to put on record that I deeply oppose the location of the shelter. I attended the open house at the library on 04/13/19 and unfortunately it appeared nothing more than a fluff show to promote how safe and helpful this shelter will be. City Officials, Council and other attendees, in robotic form, repeated the same rhetoric praising what a great addition this will be to our City. Although I realize that the demands by Judge Carter are unreasonable, I believe the City is rushing this decision and not thinking it through clearly. Some facts that the City must take more seriously: 1. Proximity to children. The proximity to Marina High School, Grace Lutheran School, Circle View Elementary, all of which are less than a ¼ mile from the shelter. Scats Gymnastics and The Rinks are the closest. The Rinks and Scats are both .3 miles (or approx. 1760 ft) from the shelter. These schools and businesses cater to children! For that reason alone, this location is unacceptable! 2. Home Values. Realtor.com estimates that homeless shelters cause nearby neighborhoods to lose up to 12% in equity. It's the #4 reason potential buyers would have difficulty moving to the neighborhood. By the way, that equates to over \$90,000 for my home. That is \$90,000 that I won't be able to use for retirement (I'm 61 years old) and/or leave for my children. 3. Safety. Although it is said that there will be security guards on site 24/7, this will not be enough to offset violence or drugs. It is well known that our Police Officers are already spread thin. They oftentimes struggle to respond quickly to every call that goes out in the City. This ties their hands and causes them to only be able to be reactive rather than proactive to crime. If someone does leave the shelter in a non-acceptable way, they will quickly have access to children and homes. Additionally, our homeless task force Officers are made up of two men who work until the early afternoon hours on weekdays. This is not enough. 4. Local Businesses. Businesses in the industrial areas are not for this either. Are we going to allow the loss of the vital taxes that business revenue generates? No doubt, some will leave the area for a location that doesn't have the same riff - raff associated with homelessness. 5. Lawsuits. If the City erects this shelter in close proximity to children and something happens, the City will undoubtedly be sued. I've heard people already threatening this action should something happen. Finally, we

SUPPLEMENTAL COMMUNICATION

Meeting Date: 4.15.19

Agenda Item No.: SS#1 (19-436)

are the residents, home owners, tax payers and the majority in the area. We DO NOT want this. We have worked hard to buy a small piece of the American Dream in Huntington Beach. This should be considered and not ignored. As elected officials, you are placed in a position of trust to represent your constituents. I encourage you to look for more alternatives (work with cities that have more land) or fight this in the courts. These Judges have gotten out of control. Especially the 9th Circuit Court. It's time to stand up and not let them bully cities without fighting. The costs of buying a building, feeding, housing, staffing, medical, transportation, providing security for, etc. over the years will be harmful to taxpayers. Not only will house prices go down, our taxes will likely go up to fund this. We just cannot afford to risk our children's safety to appease a judge. I urge you to please say no to this location for the homeless shelter. It just doesn't make sense and I believe you are all vested enough in the community to know this. Sincerely Donald Walton 6032 Welde Cir Huntington Beach, CA 92647 714-717-5949
