Subject: Sept. 3, 2019 City Council Item 25

Honorable council members:

As a member of the community interested in solutions to the homeless and housing crisis in the city, I am writing to express my support for Item 25, directing city staff and the city attorney to determine how to access state funding through SB 2 for the navigation center. Waiting for the completion of the next Regional Housing Need Allocation cycle will perpetuate the legal jeopardy the city finds itself in. A quick re-certification of a new Housing Element will make these legal actions moot, will allow the city to access state funds to operate a navigation center, and will protect the city from future lawsuits stemming from the Boise decision.

Thank you for your time and attention.

Best Regards,

Debbie Blalock, MSW

Subject: Tuesdays City Council Meeting Sept. 3rd 2019

I have to say in this time of many problems our community faces and the dire attention that is needed to address these problems. We have the Lunatic Michael Posey introducing Agenda Item 21. 19-910 Asset Forfeiture ? Reilly ??? Instructing our staff to spend its time on a issue to take personal property ?? Vote NO and direct our resources to address the problems we face as a community .

And Michael Poseys Agenda Item 25. 19-932 another push for High Density and using SB2 to gain funds for a Homeless Shelter ?. Both of these causes are are greatly opposed by the community, the Shelter and further Development of High Density Development. Please Deny Michael Posey his effort to advance these studies and Vote NO. Please focus on the problems and issues that we as a community face everyday.

Subject: 9/3/19 Agenda Item 25 "Housing Element"

Dear Councilmembers:

I write today in support of agenda item 25 scheduled to be discussed at tonight's city council meeting. Directing city staff and the city attorney to find expedited solutions opening up SB 2 funding to the city seems an eminently reasonable course of action.

SB 2 funds could be used to operate the city (or regional) navigation center once a suitable venue has been locked down. An operational navigation center will help the local homeless community with ties to the city, but it will also remove the sword of Damocles currently wielded by Judge Carter, giving the police department the ability to enforce our anti-camping laws.

One strategy the city may follow is simply to wait for the next RHNA cycle to be complete, and then decide how to deal with the new allocation in a new housing element. One could also wait for the developing appeals to the Boise decision to come to fruition. Such a plan has a two-year timescale, during which time pending litigation with the state and the Kennedy Commission could well be decided against the city.

If the city elects to wait out the RHNA cycle, then for the next two years Huntington Beach homeowners will be paying taxes to fund SB 2, and that money will be distributed to our neighboring cities who have both certified housing elements and Boise-compliant shelters. Thus, the surrounding communities will be free to enforce their anti-camping laws, but Huntington Beach will become known as a "camping sanctuary" city among the entire regional homeless community. The impact to the tourism business could be quite detrimental. Certainly, there are loud, angry, insistent complaints almost daily at the HB Community Forum demanding that these laws be enforced. Those complaints will only become louder, and have the capability to change the character of our wonderful beach city into something quite different.

In closing, I urge you to carefully consider Item 25 tonight.

Subject: Sept. 3, 2019 City Council Item 25

Honorable council members:

Since I cannot physically attend the city council meeting tomorrow I wanted to write you about something you are going to discuss that is very, very important to my husband and I. As members of this community for 24 years, we are interested in solutions to the homeless and housing crisis in the city, I am writing to express our support for Item 25, directing city staff and the city attorney to determine how to access state funding through SB 2 for the navigation center. Waiting for the completion of the next Regional Housing Need Allocation cycle will perpetuate the legal jeopardy the city finds itself in. A quick recertification of a new Housing Element will make these legal actions moot, will allow the city to access state funds to operate a navigation center, and will protect the city from future lawsuits stemming from the Boise decision.

Please support item 25 and know that we do pay attention to how each council member votes for or against the needs of the homeless and we remember these votes each election cycle.

Let's show we care about the homeless;

Shevawn and John Ramsey
