Huntington Beach, CA 92648

Re: Support for Magnolia Tank Farm Development

Mayor Peterson-

I am writing in support of the proposed Magnolia Tank Farm Development on the City Council Agenda for December 16th.

As you know, we need all types of housing here in Huntington Beach in order to provide move-up and down-size opportunities for current residents and potential new residents to our community. There is a housing crisis in California and right here in Huntington Beach and building housing of all types will address this housing crisis.

This project will add to our much needed housing stock, and, as such, I request that you and your colleagues on the Huntington Beach City Council approve this project when it comes before you.

Sincerely,

DocuSigned by:
