COMMENTS & ADDITIONAL NOTES

Street Sweeping. With all the mandates out there for closures, it is high time the city gives a hand. Stop the tickets until parents are no longer forced to stay home, They are out of their normal routine, they should not have to go without pay, and then have to deal with this. This city needs to help as well, not punish!!

Given the current situation, have you considered suspension street sweeping violations until life returns to normal?

COMMENTS & ADDITIONAL NOTES

I am a current cosmetology student at Golden West community college. It has been brought to my attention that for the safety of the American people and to prevent the further spread of the deadly COVID-19 virus, the majority of Goldenwest college courses have been moved to online platforms, as have almost all colleges and universities. However, practical classes such as cosmetology, esthetician, automotive and carpenters programs will remain on campus. Cancelling or moving to online platforms is the best way to stop the current spread of this deadly virus. Right now healthy people all around us are carrying and spreading the virus without exhibiting any symptoms. Current studies by the CDC estimate the time of exposure to the onset of symptoms is up to 14 days. This means that healthy people like myself could be unknowingly carrying and spreading this disease to everyone around us. Because the virus can survive for up to three days on inanimate objects, such as door knobs, an object that is touched by an infected person becomes the source of infection to hundreds, if not thousands, of people. The only way to stop the spread of the deadly COVID-19 virus is to limit exposure by limiting contact with potential infective sources which can only be accomplished via the movement to online and in home studies of college courses for ALL students. Failure to do so could result in deadly consequences. Your decision to move all courses, including cosmetology, to online courses, will save countless innocent lives including the life of my (my 85 year old grandmother or immunocompromised mother or very young child) whom would most certainly succumb to this disease if exposed. Thank you for your time.

COMMENTS & ADDITIONAL NOTES

Covid-19 and the 4th of July Parade

I am hoping the the city officials take measures to protects its residents and consider cancelling the large 4th of July parade. The parade will bring many to HB but it is not worth the community spread. As a HB native and resident for 52 years, I am doing my part by limiting my family's social interaction as requested by our Congressman Harley Rueda. I am expecting the City officials of Huntington Beach to do their part to protect us and begin the process of cancelling the huge 4th of July gathering here in our community.

COMMENTS & ADDITIONAL NOTES

Please consider declaring a moratorium on utility shut-offs as well as evictions for the duration of this pandemic. Our most vulnerable communities will be better able to practice social distancing if we temporarily relieve the stress of having to pay their most basic of bills. The City of Long Beach has already done so, so this should be something we can make happen as well. Thank you.

COMMENTS & ADDITIONAL NOTES

Homeless bathing in

Public's fountains and sinks Howis this allowed to happen??? I witnessed this yesterday at pch & Huntington- Brookhurst. This is going to cause a worse problem than Coronavirus, I am appalled that this beautiful City is allowing these camps to go up I pay a lot of hard earned money to live here and they are living here for nothing??? I will consider leaving Huntington if this problem continues! Please advise
