Thank you Patty. We edited the ordinance to remove the reference to a date and changed regular to special meeting and printed the new signature page on archive paper. Please accept this email as my request to add the corrected signature page to the agenda for the meeting tonight as a supplemental communication.

In reading Ordinance 4210 for today's special meeting, I noticed on the last page the adoption date is already typed in **January 22, 2019**. It also states it was adopted at a regular meeting – should be a special meeting. We will need a revised page with signatures and a memo for Supplemental Communication.

Thanks,
