

ASCON LANDFILL SITE UPDATE

► CURRENT STATUS

- Clean-up efforts – Stopped since June
- ASCON is pursuing tenting/enclosure permits and work plan approval
- ASCON Completed the Hamilton Berm Emergency Stabilization Repair and demobilization on May 18th.

CURRENT SITE ACTIVITIES

► Week of June 15th

- Site Maintenance will continue including: Weed Abatement, vector control inspections, Stormwater management measures, dust control measures, and application of soil sealant.
- Ascon continues to work with SCAQMD on permitting a pilot project on the feasibility of tenting areas of the Site during excavation work.
- Continued Air monitoring and sampling of on-site and off-site stations with results posted on DTSC's Enviorstor and on AsconHB.org.
- Continue 24 hour onsite security.
