STUDY SESSION

1. 21-504 Middle Income Housing Opportunity in Huntington Beach

City Manager Oliver Chi introduced Director of Community Development Ursula Luna-Reynosa, assisted by Janice Eckles, Administrative Analyst Principal and Charles Kovac, Housing Manager who presented a PowerPoint communication titled *Middle Income Housing Opportunity in Huntington Beach* with slides entitled: *January Strategic Planning Session, What Is Middle Income Housing financed with Essential Government Bonds?, Public Benefit Valuation, Investment Opportunity to Create Public Equity, Steps to Move Forward, Partners, and Questions?*

Via Zoom from Hawaii, Director Luna-Reynosa introduced Mr. Ben Barker, Financial Advisor, California Municipal Finance Authority (CMFA), the Joint Powers Authority purchasing said assets; Catalyst (Asset Manager) representatives Founder Jordan Moss and Allison Arnold, Partnerships Manager; and Orrick

(Bond Counsel) representative Partner Justin Cooper, who were all available to answer Council questions. Director Luna-Reynosa stated that this project would provide 676 Moderate Income Units.

Mayor Pro Tem Delgleize confirmed with staff that a full-time property manager would be on site, current tenants would not be forced out, any qualified residents may remain, and there would be no time limit on length of residency.

Mayor Pro Tem Delgleize and Jordan Moss, Catalyst Founder, discussed details related to resident qualifications to ensure they are paying no more than thirty percent (30%) of their income for rent, and some of the differences between a new housing development vs. converting existing housing.

Councilmember Posey described the Oceania development on Beach Boulevard as a model for addressing low-income needs, and stated his support for this plan to keep people working, living and spending in Huntington Beach. Mr. Barker, Financial Advisor with CMFA, added that this program would provide an avenue for upward movement for those currently in low-income housing.

Councilmember Kalmick confirmed that the County calculates Area Median Income (AMI), and discussed with Mr. Barker that CMFA is a government agency that returns the project equity back to the City. In addition, Mr. Barker explained that fifty percent (50%) of bond fees are distributed back to the community (split in half between the City and City-recommended non-profits).

City Manager Chi and Director Luna-Reynosa confirmed the model presented, compared to other models considered by staff, is the best way to achieve middle-income housing in a fiscally responsible manner.

Mayor Carr and Jordon Moss of Catalyst discussed what is lost versus gained when converting property to middle-income housing, and the types of decisions the City will make during the process.

Mayor Carr asked if there is a limitation on real estate investments, and City Manager Chi clarified that there is a difference between the City's investment portfolio and creating middle-income housing units. City Manager Chi confirmed that real estate investment is permissible as long as the investment is used for public benefit such as creating middle-income housing units, and stated this program is a viable, conservative and safe way to also create future returns.

Councilmember Posey and Jordon Moss discussed there may be a wash between the amount of property tax lost and the additional discretionary spending that may result from those paying reduced rents.

Mayor Carr stated her support for moving ahead, appointed Mayor Pro Tem Delgleize, and accepted Councilmember Posey's offer to serve on the Ad Hoc committee.

COUNCILMEMBER ITEMS

18. 21-512 Approved Item Submitted by Councilmember Moser — Direct staff to begin work on developing Huntington Beach's Sustainability Master Plan

Councilmember Moser introduced her item by sharing concerns she believes can best be addressed through a climate action plan. She stated her discovery that the City is actually doing a number of things, but at the present time, these efforts are disconnected from each other. She shared her intent to see a sustainable master plan, or a holistic and whole-system approach, to encourage a prosperous and healthy community.

Councilmember Posey stated his support for this item for practical, pragmatic and economic reasons, and described past projects when there was a Sustainability Manager on staff.

Councilmember Peterson expressed his opinion that usually sustainability plans urbanize a community and create higher housing costs, which seems counterintuitive to the Council's current efforts to reduce housing costs. He also stated this effort is too broad in his opinion, and his concern it could create more unnecessary and expensive government restrictions.

Councilmember Moser responded that ultimately Council is responsible to improve the quality of life and wellbeing of the entire community, which takes pro-active and comprehensive planning.

Councilmember Peterson stated he is a supporter of personal responsibility, rather than supporting more government regulations.

Mayor Pro Tem Delgleize stated support for Councilmember Posey's remarks that the City has been working on sustainability for some time, and added she views this effort as creating options, rather than requirements, for sustainability.

Councilmember Kalmick stated his opinion that there is a collective responsibility related to issues like the rising sea level, and added that it makes economic sense for the City to have a sustainable program that ensures services are provided in the most efficient manner. He further described some of the City's existing sustainable policies, which are found throughout the General Plan, and stated he sees this item as a method to draw the policies together, which is expected to also enhance qualifying for funding resources.

Mayor Carr stated she sees this effort as creating an umbrella to consolidate existing sustainability efforts to save and make money for the City.

Mayor Carr and Councilmember Moser discussed that at the moment it is not known if a consultant will be needed during the process, and the intention is to direct staff to help determine available options.

City Manager Chi confirmed that if Council approves this item, staff would act by reviewing existing policies and report back to Council on options for moving forward.

A motion was made by Moser, second Delgleize to recommend that the City Council direct the City Manager to begin work on creating a Citywide Sustainability Master Plan, which should incorporate and prioritize protection of our local environment, advancement of our common economic interests, expansion of community health / wellbeing programs, and elevation of equity and inclusion efforts.

The motion carried by the following vote:

AYES: Delgleize, Carr, Posey, Moser, and Kalmick

NOES: Peterson

19. 21-513 Approved Item Submitted by Councilmember Posey – Direct staff to prepare the necessary documents to terminate Huntington Beach’s existing COVID-19 Local Emergency Declaration

Councilmember Posey introduced his item by describing the circumstances which resulted in the creation of the Emergency Declaration, and stated this item follows Governor Newsom's June 15, 2020, action to end the State's Blueprint for a Safer Economy, fully re-open California's economy, and return to normal business operations.

Mayor Pro Tem Delgleize and City Manager Chi discussed the fact there is a potential ability to be eligible for future related cost reimbursement if the COVID-19 Local Emergency Declaration remains in effect, and terminating the Emergency Declaration will eliminate the possibility of reimbursement. City Manager Chi stated that under current circumstances there is not expected to be a financial impact for Huntington Beach.

Councilmember Moser stated her support for this item, and her expectation that residents will continue to follow all Orange County Health Department COVID-19 safe guidelines.

Mayor Carr discussed with City Manager Chi her concerns that a COVID-19 variant might escalate and costs may be incurred for potential operational changes.

Councilmember Posey stated this action is expected to provide an offsetting financial impact due to increased sales and occupancy taxes.

Mayor Carr stated she doesn't believe approval of this item will suddenly open the floodgates for visitors, as the influx of visitors this past 4th of July weekend is evidence to her that a lot of people don't care whether the City has an operational Emergency Declaration or not.

Council Moser and City Manager Chi discussed that if the COVID-19 situation changes, and with actual findings of impact, it would be possible to make a new emergency declaration. City Manager Chi stated that most area cities are not yet terminating their Emergency Declarations just because of the off chance the pandemic situation may change. He added that in evaluating the percentage of people vaccinated in California and Orange County, the chance of incurring additional reimbursable expenses is pretty low.

A motion was made by Peterson, second Posey to direct the City Manager to prepare for consideration the documents necessary to terminate Huntington Beach's current COVID-19 local emergency declaration.

The motion carried by the following vote:

AYES: Peterson, Delgleize, Carr, Posey, Moser, and Kalmick

NOES: None
