Our city was always one to be proud of. We do not want it to be known as the city of hate and racism. If we say nothing and do nothing then these hate groups will feel that we are an easy target and will continue to spread their hateful rhetoric. Our entire family has lived in and owned our home since 1978. I started at H.B. high in 1962, we know very well what this city was and needs to continue being. We ask that you vote for Oscar Rodriguez who would maintain positive values and put what is best for our city and its citizens first. A vote for Gracey Van Der Mark would be putting hate, racism and her own personal agenda above everything else.

Sincerely,
The Cook family

Hello HB City Council,

I support Dom Jones for the appointment for Huntington Beach City Council. We need a strong, passionate, and competent leader. We need a servant leader, a leader who knows people are more important than personal profit, a leader who truly wants to build relationships, communicate with people in the community. Dom Jones is that leader. She learned Vietnamese and Tagalog in order to build unity and help uplift more voices in the community. You have likely heard a lot of people support from her and that is because she has an ever-expanding army of supporters who see the significance of what a person like Dom Jones will make in the community. Dear Council Members: As a home owner in Huntington Beach since 1976, I am astonished at your back room maneuvering to ignore the voting preferences of the citizens of Huntington Beach. I request that you Honor The Vote and install Gracey Van Der Mark as the replacement council member for Tito Ortiz. If you cannot bring yourselves to do this, you must conduct a special election. Council members cannot be trusted to select their political cronies for City Council positions.

SUPPLEMENTAL COMMUNICATION

Meeting Date: 7/19/2021

Madam Mayor, City council, and staff,

Agenda Item No.: 1(21-544)

I am one of the applicants for the vacant seat on the city council, and whether I am selected or not, I would like to share with you a couple of ideas, that may help in managing your priority items; Homelessness and Economic Development and housing

First Homelessness;

This problem has at least three major subsets, Those who are facing hard economic times, those who are having substance abuse problem and those who are mentally and emotionally challenged. Each group needs a tailored solution and just building shelters will not cut it in the long run:

- 1- the first group will need affordable housing and supplemental income while getting back on their feet,
- 2- the second group will need mental and emotional support facilities, where they can be treated so they can function and be placed in jobs that matches their abilities, and that can be done through charitable organizations, I was on the board of such organization
- 3- The third group will need rehab facilities and support groups thereafter so once they are back functioning in society they stay there and off drugs.

Within each of above three groups there are subgroups; teens, older people, women and men with or without children. Each will have to be dealt with differently, and there are charitable organizations that can deal with some of these sub-groups, for example the homeless teens has an organization called the Covenant House, and the city can partner with them and others like them

Economic development and housing. From experience economic development has a three legged stool that greatly contribute to its success, they are:

- 1- quality of life to attract employees, like Safe environment, good schools, parks and recreation etc..
- 2- Trained labour force; good skilled labour, and/or community colleges and universities nearby that businesses can tap into it or partner with
- 3- Low cost power (Gas and electricity). And here I have few ideas that I can share with the council if they so desire.

One more that is hobby horse of mine : Conservation and the environment. There are many things that the city controls and can use to make a difference, like traffic light synchronization based on volume of traffic during different time of the day. This can be done suing college students to study the traffic pattern, and design a system which will be good for the students development as well as the city's budget. Again I was party to an initiative similar to that when I was a graduate student.

Please do not hesitate to contact me to discuss any of the above regardless whether I was the successful candidate or not. I would like to serve.

Best Regards,

Nabila Yousef (B.Sc., M.A.Sc.)

Hello,

Regarding today's special City Council meeting to select a candidate for the vacated seat:

Please honour the vote and appoint Gracey Van Der Mark.

As the 1st runner up in the 2020 election, she should automatically be the only candidate considered for the vacated seat.

Any other candidate selected would not honour the will of the people of Huntington Beach. Please follow democratic principles.

Please either support Gracey or have a special election. Currently this City Council does not represent the majority of HB residents. We don't want high rise multiple home dwellings. You are supposed to work for us not against us.

Let's keep some sense of balance on the council. Please do the right thing for our community.
