Remarks	<p>The street segment is located along a residential mixture of single family, mobile homes, and multi-family dwellings with significant pedestrian and bicyclist activity traveling to the nearby coastal recreational activity and commercial retail/restaurant areas. The segment consists of parking areas along the north and south street sides with related parking maneuvers, and mobile home park access driveway on the south side of the west portion. The west portion of the segment between Huntington St and Delaware St was recently improved which included bike lanes, additional vehicle lanes, and sidewalk with the east section between Delaware St and Beach Blvd currently posted at 40 mph based on a traffic and engineering survey. Higher accident rate compared to county rate for similar street. Due to these conditions the posting of a 40 mph speed limit is reasonable and safe to facilitate the efficient and order flow of traffic.</p>
