Subject: Drilling is Killing :(

Dear City Council,

First I would like to thank our mayor, Kim Carr, for representing our beautiful city and keeping us informed when others would not.

"Normal" offshore drilling operations release toxic pollution into the air and water affecting our day-to-day living. All told, the oil drilling industry is responsible for 38% of all methane emissions (21 times more potent than carbon dioxide) in the United States.

One "minor" spill takes a substantial toll on our marine life and ecosystem and results in a loss of fishing and tourism revenue. Millions flock to Huntington Beach annually to enjoy our 10 miles of uninterrupted coastline, needless to say, we rely heavily on tourism. Protecting the environment has benefits beyond protecting our sea life and ecosystem. In California, investments in marine protection and clean energy have bolstered the state's \$25 million tourism and recreation economy and employs nearly half a million residents.

Oftentimes "clean-up" does not actually reduce the amount of oil left in the ocean, but merely breaks it into smaller particles that may actually make the oil more toxic for some ocean life and ease its entry into the food chain.

I urge you all to please vote YES on the Moser-Carr Oil Drilling Ban (agenda item 36)

Best,
Kimberley Hansler
41 year downtown resident

Subject: Offshore Oil Drilling

The Daily Pilot reported this week that the city coffers get approximately \$632,000 per year in oil well license taxes and pipeline franchise fees.

I doubt that amount gets anywhere near the amount lost by the residents and businesses of our city.

I urge you to look very closely at supporting a ban on offshore drilling.

Subject: OCC Academic Senate Proposed Resolution on Offshore Drilling

I would like the following proposed "Sense of The Senate" resolution to be included in the email that will be sent with the Agenda for the OCC Academic Senate meeting Oct. 26th.
It has been adapted from a resolution on the Agenda of this week's Huntington Beach City Council meeting.

"Resolution in support of a permanent ban on new offshore oil and gas drilling and similar exploration activities off the Coast of California"

Whereas: The recent Southern California Oil Spill dumped thousands of gallons of oil throughout our waters - fouling sensitive environmental habitats, damaging coastal infrastructure, and disrupting local industries that rely on a healthy coastal environment.

**SUPPLEMENTAL

Meeting Date: 10/19/2021

Agenda Item No.: 36 (21-795)

Whereas While we understand that oil still plays a large role in our day-to-day lives; it is clear that local communities of Coastal Orange County need to take a proactive stance to reduce their reliance on oil and support more sustainable and safer forms of energy that will neither strain nor damage our environment.

Resolved that the Orange Coast College Academic Senate supports a statewide stance against new offshore oil and gas drilling, fracking and other well stimulation activities in federal and state waters off the California coast.

Further Resolved that The OCC Academic Senate also supports a ban against new federal oil and gas leasing in all U.S. waters.

Subject: City Council Mtg. 10.19.21 Agenda Item 36, 21-795 - Resolution to Permanently Ban All New Oil and Gas Off-Shore Drilling

Dear Mayor Carr, Council Member Moser and Honorable City Council Members,

I applaud the proposed resolution and encourage each of you to vote to adopt without hesitation the resolution to permanently ban all new oil and gas off-shore drilling. It is our duty to protect our marine environment so that the shores of our beautiful Huntington Beach remain a healthy home for humans, fish, birds, and all living creatures. Huntington Beach's support is needed in both the House and the Senate which currently have bills in subcommittee with the same goal as our resolution. If enough of us say no to the continued destruction of our environment, we can stop it and save our beaches for future generations.

Sincerely,

Mary Ellen Barnes

Subject: 10/19/21 Agenda Item 36

Dear Mayor and City Council Members, thank you for your service to the community in response to the recent oil spill. The impacts to our world renown beaches, and the businesses that are supported by them, were tragic. I would like to express my support for Agenda Item 36 to adopt a resolution to protect our ocean and coast from offshore oil drilling and exploration activities. By extending the resolution to all U. S. waters, the City of Huntington Beach will demonstrate its commitment to more sustainable and safer forms of energy that will be beneficial to our economy and our environment.

Regards,

Lisa Swanson

Honorable Mayor Carr and Distinguished Council Members,

I am sorry I cannot be there tomorrow night to lend verbal support of Agenda Item #36: The Moser-Carr Resolution Opposing NEW offshore Oil and Gas Leases, but I am writing to you in the hopes that you can find a way to pass it and make it a reality.

If it passes, it will be a landmark...it will be the One Hundredth City Resolution from along the West Coast. Our city can join 99 others in opposing New offshore drilling. To be fair, I am not against the oil industry. I have friends and relatives in it, and it is viable and vital to the U.S. But Drilling new wells, and erecting new rigs is a disaster to the environment and deadly to marine life and that is a fact.

So please, Vote Yes on Agenda Item #36, and pass this Resolution so that we may have a cleaner ocean in the future.

Thank you for all you do,

Yours Truly,

KC Fockler
