Subject: Thank you for protecting neighborhoods from STRs

Huntington Beach City Council and Staff,

Thank you for standing up to protect residents from the impacts of unhosted short-term rentals by passing strong regulations on January 19, 2021. Short term rentals take housing units off the market, turning them into unregulated hotels that are rented out to tourists on a nightly basis. In addition to driving up housing costs, visitors often use short term rentals to throw parties, bringing noise and other nuances to residential neighborhoods. The City Council made the right decision by passing short term rental regulations. Now, it is time to move forward with enforcing that decision.
