AWARDS AND PRESENTATIONS

This site has all of the information pertaining to the Navigation Center whether your interest is accessing services or offering assistance. Mayor Carr thanked everyone who is involved in the effort to provide shelter and services for those in greatest need within the community.

3. 21-046 Mayor Carr accepted the Best Public-Private Partnership Award for the OneHB Small Business Program from the Orange County Business Council

Mayor Carr recognized the OneHB Business Support campaign and a culmination of the City's effort to assist small businesses impacted by COVID-19. Through a partnership between philanthropy and community support, funds are raised to provide \$5,000 micro grants to help small businesses keep their doors open and local residents employed. Conner Medina, Government Affairs Manager, Orange County Business Council (OCBC), stated that this award recognizes visionary leaders and dedicated staff for their accomplishments in providing small business support.

4. 21-043 Mayor Carr presented the Mayor's HB Excellence Award to Heather Dodd, Office Assistant II, Community and Library Services Department

Mayor Carr explained that HB Mayor's Excellence Award recipients are selected by their peers, and introduced Randy Pesqueira, Senior Supervisor, to congratulate Heather Dodd for receiving this recognition. Mr. Pesqueira shared that Ms. Dodd is someone who speaks in kindness and compassion, and was instrumental in coming up with creative ways to maintain contact with the community's senior citizens when the Senior Center had to be closed last March. Her efforts resulted in the "Senior Center in a Box" program that provides items for assorted activities that can be done at home. When the program started there were approximately 200 people driving through to pick up a box, and by December, they needed 400 boxes to meet the demand for this very popular program. Heather was described as exceptionally organized, and instrumental in leading the program that helps so many of the seniors living alone in isolation during this time of COVID-19.

Heather expressed her appreciation for the acknowledgement, and thanked her team of co-workers for their support for a project idea that required a lot of "above and beyond" extra effort from everyone.

Mayor Carr thanked Heather for being a shining example of what makes the Senior Center outstanding and finding unique ways to provide services in safe and comforting ways.

6. 21-049 Update of the City COVID-19 Response Plan and Vaccination Update

City Manager Chi and Fire Chief Haberle jointly presented a PowerPoint communication entitled *City of Huntington Beach COVID-19 Update* with slides titled: *COVID-19 Situational Overview, COVID-19 US Totals, Nationwide COVID-19 Metrics 7-day Average Lines, COVID-19 - US Cases by Day, COVID-19 California Totals, Currently Hospitalized with COVID-19, Change in Currently Hospitalized: Today vs. Previous Week, COVID-19 Orange County Trends, COVID-19 Orange County Hospital Capacity, COVID-19 Huntington Beach Numbers, Situation Summary, Current COVID-19 Situation for Orange County, Orange County ICU Status, HBFD EMS Response Impacts, Vaccine Protocols Changing Daily!, Operation Independence, Current Vaccine Eligibility, Vaccine Registration, Virtual Vaccine Town Hall Series, and Questions*

Mayor Carr, City Manager Chi and Councilmember Moser shared that the January 20th Virtual Townhall Vaccine meeting can be accessed at bit.ly/hbcovid_jan20, and people can subscribe to the Huntington Beach YouTube channel and then be automatically notified when something new is posted.

7. 21-050 Regional Housing Needs Assessment (RHNA) Appeal Update

City Manager Chi thanked City Attorney Gates and Community Development staff members, particularly Community Development Associate Planner Nicolle Aube, for their efforts with this appeal before the Southern California Association of Governments (SCAG), and reported that the City's current Regional Housing Needs Assessment (RHNA) is approximately 13,300 new units. Manager Chi stated that SCAG approved the request of City Attorney Gates for a continuance to January 25, 2021.

Councilmember Posey and City Manager Chi discussed the potential technical error that SCAG used to determine the RHNA number for Huntington Beach by defining Beach Boulevard is a high-quality transit area. If it is determined that Beach Boulevard is not a high-quality transit area, then the Huntington Beach RHNA number could potentially be reduced by about 3,600 units.

City Attorney Gates explained that the City is actually challenging the methodology used to determine RHNA numbers, and presenting facts such as Huntington Beach does not have a job center, or magnet of attraction, like many other cities do, and that Huntington Beach has 8 miles of coastline with wetlands and preserves that are protected from development.

Community Development Director Ursula Luna-Reynosa stated that most cities have appealed their RHNA numbers on the issue of methodology which is not the purpose of the current regional process, but Huntington Beach's appeal focused on a number of City-specific situations for SCAG to consider.

Councilmember Kalmick and Director Luna-Reynosa discussed that if the RHNA number for Huntington Beach is reduced, SCAG could be expected to provide a re-count for the region.

PUBLIC HEARING

19. 19-1172 Certified Environmental Impact Report No. 17-001 by adopting Resolution No. 2021-01; Approved CEQA Findings of Fact with a Statement of Overriding Considerations; Approved with modifications General Plan Amendment No. 17-001 by adopting Resolution No. 2021-02, Zoning Map Amendment No. 17-001 by approving for introduction Ordinance No. 4225, Zoning Text Amendment No. 17-005 by adopting Resolution No. 2021-03, Local Coastal Program Amendment No. 17-001 by adopting Resolution No. 2021-04, and Development Agreement No. 19-001 by approving for introduction Ordinance No. 4226; and, Executed an Indemnification Agreement (Magnolia Tank Farm)

City Manager Chi introduced Community Development Director Ursula Luna-Reynosa who introduced Senior Planner Ricky Ramos who presented a PowerPoint communication entitled *Magnolia Tank Farm*, with slides entitled: *Project Site*, *Request (7)*, and *Planning Commission*.

Councilmember Posey, Director Luna-Reynosa and Planner Ramos discussed the PS (public/semi-public) zoning definition, what is currently permitted per Municipal Code, the requirements for Zoning Administrator and Planning Commission, and an alternate proposal that focuses on Senior Care, which would require a Conditional Use Permit. Councilmember Posey confirmed with Planner Ramos that the current zoning allows the highest intense use of the space, and the proposed zoning change in this item would reduce the intensity of the space. Councilmember Posey further confirmed that if this zoning change is not adopted, there could be expected a higher intensity of use which would translate into more car trips with the least economic benefit to the City.

Councilmember Moser, Planner Ramos, and Director Luna-Reynosa discussed the types of open space designated within the City, and confirmed that while this parcel may appear to be open space, it is not currently zoned as such but rather as public/semi-public, and therefore approving this item would not be reducing the City's open space, but in fact would require a portion of the project to be designated for public space.

Mayor Carr discussed with Planner Ramos that the Planning Commission saw several significant and unavoidable impacts, including noise from pile driving. The project applicants indicated they will not be using this technique, and the project specifications state that pile driving will not be allowed. Planner Ramos added that a noise study will be required once the project is further along, and must implement noise mitigation methods such as perimeter block wall, or specific area glass enclosures, if necessary.

Mayor Pro Tem Ortiz, Director Luna-Reynosa and Planner Ramos discussed this project's proximity to the neighboring Ascon cleanup area. Staff confirmed that the project developer is in communications with the Department of Toxic Substances Control (DTSC), and that Ascon is in the midst of searching for alternative ways to mitigate the odor issue, and has retained consultants to assist with proper Southeast area community communication.

Councilmember Kalmick and Planner Ramos discussed the latest reports on noise levels related to the AES plant, where noise readings are actually lower than what was projected in the Environmental Impact Report (EIR). There was further discussion on the nexus for putting a pause on this project because of contamination issues on a neighboring property, and Director Luna-Reynosa confirmed that there has not been any evidence that supports the suggestion that the soil contamination on Ascon land has migrated to the current project site. Director Luna-Reynosa also confirmed that the contamination previously found on the Magnolia Tank Farm parcel has been remediated, and in July 2020 DTSC provided a letter stating that the Magnolia Tank Farm has been cleaned up and is now safe for residential development.

Director Luna-Reynosa explained that tonight's legislative actions on this item change land use designation, and the appropriate time to condition a project is when the subdivision plan is ready for review, first by the Planning Commission, and then by the City Council. Councilmember Kalmick confirmed with staff that the Coastal Commission will be involved in the process, a public hearing will be required, and the issues of noise and contamination at Ascon will continue to be addressed throughout this years-long process.

Councilmember Moser and Director Luna-Reynosa discussed that any required environmental standards would be discussed appropriately in the future, rather than at this time.

Councilmember Posey, Director Luna-Reynosa and Planner Ramos discussed that if Council put the land use change on pause, it would not prevent potential use under the current PS zone; however, if the land use change is approved it would actually provide more time for better analyzing what the development will look like, and eliminate the possibility of a higher-intensity use.

Mayor Carr opened the Public Hearing for Item No. 19 (19-1172) regarding the Magnolia Tank Farm.

Pursuant to the Brown "Open Meetings" Act, City Clerk Robin Estanislau announced supplemental communications that were received by her office following distribution of the Council Agenda packet:

(04:15:36)

City Clerk Robin Estanislau announced there were no more public speakers.

Mayor Carr closed the Public Hearing for Item No. 19 (19-1172). (04:17:24)

Councilmember Peterson stated that he doesn't think a hotel is compatible with the surrounding residential neighborhood, expressed concerns regarding the building heights the zoning change would allow, and concerns that the clean-up of the Ascon site could impact the Tank Farm site.

Councilmember Posey stated support for this project because it is only a zoning change being considered which will match and extend the existing single family neighborhood zone to the east of this

project, and this will have a positive economic and housing appreciation impact. Councilmember Posey also clarified that to the best of his knowledge the Coastal Commission requires lodging accommodations as part of this project. He further stated allowing for additional housing will provide upward mobility which will provide an opportunity for other housing changes throughout the community.

Councilmember Delgleize and Director Luna-Reynosa discussed California Coastal Commission (CCC) requirements such as visitor-serving uses including retail and lodging, necessitates changing the zoning. Director Luna-Reynosa explained that the Coastal Act prioritizes a hotel or lodge as open to the public vs. an entirely residential project which "privatizes" a coastal asset, and added the CCC will also have affordable lodging requirements which must be met for CCC approval. There was also discussion on building height for a hotel or lodge as well as for the residential homes, the quid pro quo for development agreements which are codified under local and/or state laws, and proposed timeline from zoning change approval, including CCC approval, design plans, public hearings, building permits, and construction which would take a number of years for project completion.

Mayor Pro Tem Ortiz stated his support for efforts to improve the Magnolia Tank Farm site, but also has concerns related to the Ascon site, and stated his expectation that Council will at the same time focus on what needs to be done with the Ascon site in protecting the health of the residents, and asked if Shopoff could be of any assistance in also addressing the Ascon issues.

Councilmember Kalmick stated he has reviewed all of the documentation and believes the Planning Commission actually addressed all of the concerns the public has expressed. He clarified with staff the content of the DTSC letter which states that the property has been deemed suitable for residential development, and Director Luna-Reynosa explained there are different standards for different purposes and residential development requires the highest standard of remediation.

Councilmembers Kalmick and Peterson discussed additional text in the DTSC letter stating that the approval does not certify that the facility does not pose any environmental or public health threat, and does not remove any liability associated with past hazardous waste. Councilmember Peterson also explained that the CCC will have a public hearing before making their final decision on whether or not to approve this project, and including a hotel in the plans is expected to improve the chances of the project receiving approval.

Councilmember Kalmick and Director Luna-Reynosa continued discussions on the DTSC letter and staff's recommendation to include a hotel in the plans because of their understanding that the CCC would be unlikely to approve a totally residential project.

Director Luna-Reynosa introduced Environmental Consultant Mr. Mauricio who has experience dealing with DTSC, and explained that the two referenced letters addressed two different projects and at the present time it is agreed that conditions on one site do not affect conditions on the other site.

Councilmember Kalmick stated that in his review of all of the background material for this site, he believes approving the zoning change will protect the area from additional heavy industry businesses, and explained his logic for supporting this item to ensure a successful project with the lowest impact to the neighborhood.

Councilmember Moser stated her support of Councilmember Kalmick's comments and stated her support for a project where the benefits outweigh the challenges. Councilmember Moser also stated

her interest in simultaneously maintaining focus on the proper remediation for Ascon, as well as to ensure that building out the Magnolia Tank Farm includes benchmarks and standards that will mitigate greenhouse gas emissions.

Councilmember Moser and Planner Ramos discussed that if Shopoff decided to sell the land, any new owner would have to repeat this whole process if they wanted to change anything that has been approved by City Council and the California Coastal Commission.

At 11:00 PM, pursuant to Resolution No. 2015-46, a motion was made by Posey, second Kalmick to continue conducting business past 11:00 PM. With no objections, the meeting continued.

Mayor Carr stated she would not be supporting this item because of her concerns with the project's plans to build homes adjacent to a power plant that operates 24/7, and is next to the Ascon site. She stated her support for cleaning up the site, and the importance of housing, jobs, and revenue, but can't support this project at this site. Mayor Carr explained that health and safety are the most important issues that must remain the top priority for all decisions.

A motion was made by Delgleize, second Posey to Certify Environmental Impact Report No. 17-001 as adequate and complete in accordance with CEQA requirements and adopt Resolution No. 2021-01, "A Resolution of the City Council of the City of Huntington Beach Certifying the Final Environmental Impact Report (SCH#2017101041) for the Magnolia Tank Farm Project" (Attachment No. 2); and, approve CEQA Findings of Fact with a Statement of Overriding Considerations (Attachment No. 18); and, approve with modifications General Plan Amendment No. 17-001 and adopt Resolution No. 2021-02, "A Resolution of the City Council of the City of Huntington Beach Approving General Plan Amendment No. 17-001" (Attachment No. 3), Zoning Map Amendment No. 17-001 with findings (Attachment No. 1) and after the City Clerk reads by title approve for introduction Ordinance No. 4225, "An Ordinance of the City of Huntington Beach Amending the Huntington Beach Zoning and Subdivision Ordinance to Rezone the Real Property Generally Located on the Westside of Magnolia Street at Banning Avenue from PS-O-CZ (Public-Semipublic - Oil Production Overlay - Coastal Zone Overlay) to SP-18-CZ (Specific Plan - Coastal Zone Overlay)(Zoning Map Amendment No. 17-001)" (Attachment No. 4), Zoning Text Amendment No. 17-005 with findings (Attachment No. 1) and Planning Commission and staff revisions (Attachment No. 25) and adopt Resolution No. 2021-03, "A Resolution of the City Council of the City of Huntington Beach Adopting Zoning Text Amendment No. 17-005 by Creating the Magnolia Tank Farm Specific Plan (SP-18) to Apply to Real Property on the West Side of Magnolia Street at Banning Avenue" (Attachment No. 5), Local Coastal Program Amendment No. 17-001 with findings (Attachment No. 1) and adopt Resolution No. 2021-04, "A Resolution of the City Council of the City of Huntington Beach Adopting Local Coastal Program Amendment No. 17-001 and Requesting Certification by the California Coastal Commission" (Attachment No. 6), Development Agreement No. 19-001 with findings (Attachment No. 1) and after the City Clerk reads by title, approve for introduction Ordinance No. 4226, "An Ordinance of the City of Huntington Beach Adopting a Development Agreement By and Between the City of Huntington Beach and SLF-HB Magnolia, LLC (Developer)(Development Agreement No. 19-001)" (Attachment No. 7); and execute an Indemnification Agreement Between the City of Huntington Beach and SLF-HB Magnolia, LLC (Attachment No. 21) (staff recommendation).

The motion carried by the following vote:

AYES: Delgleize, Ortiz, Posey, Moser, and Kalmick

NOES: Peterson, and Carr

20. 20-2112 Adopted Resolution No. 2021-05 Increasing Residential Trash Rates Effective February 1, 2021, and Ratifying the Methodology for Future Rate Adjustments

City Manager Chi introduced Public Works Director Sean Crumby who presented a PowerPoint communication entitled: *Public Hearing to Adopt Resolution 2021-05 Proposed Residential Trash Rate Increase*, with slides titled: *Solid Waste Program - Summary of Issue, Background Information (3), AB 1594 - Cost of Compliance, Proposed Rates, Notification (Proposition 218), Proposed Rate Increase, and Questions*

Councilmember Posey confirmed with Director Crumby that the \$.98 rate increase is required to fund an unfunded mandate from the State, and this fee is a pass-through, which means if the fee is not increased, the City will have to continue spending reserves of \$560,000 annually, and the current reserves will only last for another three and-a-half months.

Councilmember Delgleize confirmed with Director Crumby that this increase in costs is a result of State laws that changed the organics and green waste processes to no longer allow green waste to be used as landfill cover, and penalties will be assessed for non-compliance.

Councilmember Kalmick and Director Crumby agreed that there should be conversations with State representatives looking for State resources or funding for this mandate, and Director Crumby confirmed the amount of this proposed increase is just a cost recovery.

Mayor Carr opened the Public Hearing for this item.

Councilmember Posey shared several of his initial concerns, stated support for an extra day to communicate with staff and hear from the public and suggested an effective date in May or June.

Councilmember Peterson stated he has never had an issue communicating with staff on Thursday or Monday to be prepared for a Monday meeting, and he cannot support changing to Tuesday as this change would be disruptive to his work week.

A motion was made by Carr, second Kalmick to recommend that the City Council direct the City Manager to develop and bring back for formal City Council review the protocols and procedures necessary to change our City Council meeting days to the first and third Tuesday of each month, **as amended to initiate the change as early as June 1st.**

Mayor Carr read what she feels are pertinent parts of the Declaration, and suggested that the language be brought current when it is reaffirmed by the 2022 Council.

Councilmember Moser stated this is an opportunity to look to the future where all people are welcomed in the community. 24. 21-057 Item Submitted by Councilmembers Moser, Delgleize and Kalmick Approved – Condemn the seditious acts of violence at the U. S. Capitol on January 6, 2021, and affirm the City's unwavering commitment to American Democratic Principles and Practices

Councilmember Moser stated that as an American, patriot and leader, she condemns the violence and conspiracy theories that fueled the violence at the U.S. Capitol on January 6, 2021. She quoted language "We support and defend the Constitution," as a portion of a statement written on January 12, 2021, from the Joint Chiefs of Staff representing every branch of the military, which inspired bringing this Councilmember Item forward.

Councilmember Peterson stated his opinion that City Council time and effort should be focused on local issues, referencing other acts of civil unrest occurring across the Country. Councilmember Posey stated he understands Councilmember Peterson's position, but will support this item because he condemns the violence.

Mayor Pro Tem Ortiz stated he also agrees with Councilmember Peterson's comments, that he expects law enforcement will provide justice, and he also condemns the violence in D.C.
