MEMBER COMMENTS

COHB Public Works Director Sean Crumby acknowledged the efforts and contributions of recently deceased Utilities Manager, Brian Ragland to the Board and the local water industry.

Vice-chair Brietigam raised questions regarding the levels of PFAS in the water supply for the Board's agencies. COHB Public Works Director advised that each agency is tasked with working this out on their own and that the Orange County Water District has been working with member agencies on this issue.

Chair Sustarsic inquired about the security of the SCADA system in light of the recent hack to a water treatment plant in Florida. Acting Water Production Supervisor Chris Cassotta assured the Board that the SCADA system is quite secure with double encryption, limited access and close monitoring of the system by staff. He noted that the system will generate an alarm directly to staff if any issues arise.
