Analysis:

California Health & Safety Code Sections 13146.2 and 13146.3 require all fire departments that provide fire protection services to perform annual inspections in every building used as a public or private school, hotel motel, lodging house, apartment house, and certain residential care facilities. These inspections are performed to meet certain building standards.

Section 13146.2 of the Code requires departments to report annually to its governing body on its conformance to these requirements. State Senate Bill 1205 requires that effective January 1, 2019, the governing body annually adopt a resolution or other formal document certifying that these inspections were completed, and that this document be submitted to the State.

During calendar year 2020, the Huntington Beach Fire Department completed annual inspections of all buildings referenced under Sections 13146.2 and 13146.3 of the California Health and Safety Code, which is outlined in the table below:

Occupancy Type	# in Jurisdiction	# of Inspections
R1s ("hotel, motel, lodging houses")	23	23
R2s ("apartment houses")	2,539	2,534
R2.1 ("supervised residential")	5	5
R4s ("residential/assisted living")	1	1
Es ("public and private schools")	38	38

A total of 2,601 occupancies were inspected in 2020, representing 100% of all required facilities.
