SUBMITTED BY: Oliver Chi, City Manager

PREPARED BY: Travis K. Hopkins, Acting Assistant City Manager

Analysis:

The HBPOA, HBPMA, HBFA, and FMA requested that the City evaluate the current practice and processes that are required to obtain competent medical opinions while utilizing the Alternative Dispute Resolution Agreement for Workers’ Compensation and the evaluation of the eligibility of Industrial Disability Retirements.

The Workers Compensation Alternative Dispute Resolution Agreement was implemented with the following purpose:

1. Provide employees claiming compensable injuries under the Division 4 of the California Labor Code (“Workers’ Compensation Law”) with an expedited procedure to resolve medial disputes to facilitate their prompt return to work at either full duties or a transitional duty assignment.
2. Provide retirees claiming a presumptive injury as defined by the California Labor Code section 3212 with an expedited procedure to resolve medial disputes.
3. To reduce the number and the severity of disputes between the City and covered employees, when those disputes relate to workers’ compensation
4. To provide workers’ compensation coverage in a way that improved labor management relations, improved organization effectiveness, and reduced costs to the City.

These goals are achieved by utilizing an exclusive list of medical providers to be the sole and exclusive source of medical evaluation for disputed issued surrounding covered employees in accordance with California Labor Code Section 3201.7.

The proposed amendments to the Alternative Dispute Resolution Agreement provide a process to

reduce disputes in two areas. First, The City and the HBPOA, HBPMA, HBFA, and FMA will meet and confer to identify an exclusive list of medical providers that have the expertise to provide the evaluation and reports required to meet both Government Code requirements for IDR evaluations and California Labor Code, Workers' Compensation Law. This is intended to reduce the number and severity of disputes related to Industrial Disability Retirements (IDR) evaluations and determinations. Second, The HBPOA, HBPMA, HBFA, and FMA and The City will agree to use the agreed upon Independent Medical Examiner as defined by Article IV. Medical Providers for disputes in connection with a workers' compensation claim and that these reports will be admissible in any dispute proceeding or hearing involving an injured employee.

With the implementation of the Alternative Dispute Agreement procedures, the City has saved costs by expediting medial evaluations and has provided medical evaluations and care in an expedited manner reducing the number of disputes between City Management and its employees.
