## REQUEST FOR CITY COUNCIL ACTION

**SUBMITTED TO:** Honorable Mayor and City Council Members

**SUBMITTED BY:** Sean Joyce, Interim City Manager

**VIA:** Sean Crumby, Director of Public Works

**PREPARED BY:** Keegan Olds, Public Works Contract Administrator

### Subject:

**Accept the lowest responsive and responsible bid and authorize execution of a construction contract with Sancon Technologies, Inc. in the amount of \$969,711.80 for the Fiscal Year 21/22 Sewer Lining project, CC-1694**

### Statement of Issue:

On June 7, bids were publically opened for the Fiscal Year 2021/22 Sewer Lining project. City Council action is requested to award the construction contract to Sancon Technologies, Inc., the lowest responsive and responsible bidder.

### Financial Impact:

Funding for this project in the amount of \$1,200,000 is available in the Capital Improvement Program budget. The cost for the project including contingency is estimated at \$1,200,000.

### Recommended Action:

A) Accept the lowest responsive and responsible bid submitted by Sancon Technologies, Inc. in the amount of \$969,711.80; and,

B) Authorize the Mayor and City Clerk to execute a construction contract in a form approved by the City Attorney.

**Alternative Action(s):**

Reject all bids, and provide staff with alternate direction.

**Analysis:**

The Engineering and Utilities Division coordinate the need for rehabilitation of existing sewer pipes based on maintenance history and video inspection. The scope of work for the project includes lining approximately 25,587 lineal feet of aged sewer main lines identified as a priority this year. The locations would benefit from lining as the existing pipes are either encrusted with calcium deposits from groundwater seepage through minor cracks and joints or have joints offset by tree roots from adjacent mature trees located on parkways. These deposits and roots inhibiting flow will be removed prior to lining. Lining of the pipes is a trenchless operation performed by inserting a liner inside the existing pipe and curing the liner to form a replacement pipe.

Bids were publicly opened on June 7, 2022, with the following results:

BIDDER'S NAME	BID AMOUNT (Amount Read at Bid Opening and Basis of Award)
Sancon Technologies	\$969,711.80
Insituform Technologies	\$1,174,979.00
Nuline Technologies	\$1,246,709.00
Southwest Pipeline and Trenchless Corp	\$1,276,955.00
Nor-Cal Pipeline Services	\$1,490,020.50

Staff recommends awarding a contract to Sancon Technologies, Inc. in the amount of \$969,711.80. Sancon Technologies, Inc. has provided acceptable sewer lining construction in Huntington Beach for the Fiscal Year 2019/20 Sewer Lining and Fiscal Year 2020/21 Sewer Lining projects. The project cost is estimated to be \$1,200,000, which includes the construction contract, inspection, and construction contingency.

**Environmental Status:**

The project is categorically exempt pursuant to Class 1, section 15031c of the California Environmental Quality Act

**Strategic Plan Goal:**

Infrastructure & Parks
