PUBLIC WORKS COMMISSION REQUEST FOR ACTION

SUBMITTED TO: Chairman and Members of the Commission

SUBMITTED BY: Sean Crumby, PE, Director of Public Works

Subject:

Construction of Railing at Bluff Top Park CC-1631.

Statement of Issue:

Plans and Specifications for the Bluff Top Railing, CC-1631, are in final preparation.

Funding Source:

Funds are available in the Park Development Impact Fee account 22845020.82900 and the Blufftop Grant Account 125686001.82800.

Recommended Action:

Motion to approve that the Bluff Top Park Improvements, CC-1631, is in general conformance with the previously approved Capital Improvement Program.

Alternative Action(s):

Deny approval and recommend an alternative action.

Analysis:

The existing metal guardrail and the stairway metal railing at the Bluff Top Park area is deteriorated and in need of replacement due to the exposure to the marine environment. The Bluff Top Park area is on the ocean side of Pacific Coast Highway from 9th Street to Seapoint. The metal guardrail, located adjacent to the beach bikeway and pedestrian path will be replaced with a new wooden lodgepole guardrail. Additionally, the existing stairway railing within this span will be replaced with a new stainless steel railing. These improvements are needed to maintain the safety and accessibility of beach path and stairway users
